Table 182. **Poverty Status in 1969 of Families and Persons for Regions, Divisions, and States: 1970**—Continued

[Excludes inmates of institutions, members of the Armed Forces living in barracks, college students in dormitories, and unrelated individuals under 14 years. Data based on sample, see text. For minimum base for derived figures (percent, median, etc.) and meaning of symbols, see text]

United States, Regions, Divisions, States	Income less than poverty level															
	Families												Family heads			
							With related children under 18 years		With female head						Civilian male heads under 65 years	
										With related children under 18 years						
											With related children under 6 years					
	Total	Percent of all families	Mean family income (dollars)	Mean income deficit (dollars)	Percent receiving public assistance income	Mean size of family	Total	Mean number of related children under 18 years	Total	Total	Total	Percent of heads in labor force	Total	Percent 65 years and over	Total	Percent in labor force

Table C-2. Percent of Allocation or Substitution for Nonresponse for Selected Characteristics by Metropolitan and Nonmetropolitan Residence: 1970

[Data based on sample, see text. The term "allocation" means that a characteristic was assigned in the absence of a machine-readable entry or changed to make consistent with other entries during the computer editing. For minimum base for derived figures (percent, median, etc.) and meaning of symbols, see text]

Table C-4. **Percent of Allocation or Substitution for Nonresponse for Selected Characteristics for States and Standard Metropolitan Statistical Areas: 1970**

[Data based on sample, see text. The term "allocation" means that a characteristic was assigned in the absence of a machine-readable entry or changed to make consistent with other entries during the computer editing. For minimum base for derived figures (percent, median, etc.) and meaning of symbols, see text]

States Standard Metropolitan Statistical Areas	Total population					Women ever married 15 to 44 years old – Children ever born	Persons 25 years old and over – Highest grade completed	Persons 3 to 34 years enrolled – Level of school	Persons 14 years and over			Persons 16 to 64 years		Total families – Family income
									Labor force status					
	Persons with sample information	Age	Nativity	Year moved in	Farm-nonfarm residence				Labor force	Not in labor force	Total income	Vocational training	Disability

Table C-4. **Percent of Allocation or Substitution for Nonresponse for Selected Characteristics for States and Standard Metropolitan Statistical Areas: 1970**—Continued

[Data based on sample, see text. The term "allocation" means that a characteristic was assigned in the absence of a machine-readable entry or changed to make consistent with other entries during the computer editing. For minimum base for derived figures (percent, median, etc.) and meaning of symbols, see text]

States Standard Metropolitan Statistical Areas	Total population					Women ever married 15 to 44 years old—Children ever born	Persons 25 years old and over—Highest grade completed	Persons 3 to 34 years enrolled—Level of school	Persons 14 years and over			Persons 16 to 64 years		Total families—Family income
									Labor force status					
	Persons with sample information	Age	Nativity	Year moved in	Farm-nonfarm residence				Labor force	Not in labor force	Total income	Vocational training	Disability
