BUREAU OF THE CENSUS

#### **1950 CENSUS OF AGRICULTURE**

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release January 4, 1952

#### STATE OF OKLAHOMA

(73-000) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Gensus of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every State in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this State and for the counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the State. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

,

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

# Preliminary

#### BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 21, 1951

ADAIR COUNTY, OKLAHOMA

(73-001) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

# Preliminary

## 1950 CENSUS OF AGRICULTURE

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

#### For release November 8, 1951

#### ALFALFA COUNTY, OKLAHOMA

(73-002) Series AC50-1

This release presents figures from the 1950 Consus of Agriculture, together with available comparative data from the 1945 Consus of Agriculture. The figures from the 1950 Consus are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Preliminary

BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 10, 1951.

#### ATOKA COUNTY, OKLAHOMA

(73-003) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all ferms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

## FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 8, 1951

#### BEAVER COUNTY, OKLAHOMA

(78-004) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together vith svailable comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report vill be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

1950 CENSUS OF AGRICULTURE

#### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 14, 1951

BECKHAM COUNTY, OKLAHOMA

(73-005) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, earrying State totals only will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Preliminary 1950 CENSUS OF AGRICULTURE

### BUREAU OF THE CENSUS

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

#### for release November 13, 1951

BLAINE COUNTY, OKLAHOMA

(73-006, Series AC50-1

\_\_\_\_\_

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the celendar years 1949 and 1944.

1950 CENSUS OF AGRICULTURE

#### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

#### Far release November 12, 1951

#### BRYAN COUNTY, OKLAHOMA

(73-007) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with evailable comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

3

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

BUREAU OF THE CENSUS

# Preliminary **1950 CENSUS OF AGRICULTURE**

#### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

#### For release November 20, 1951

-

#### CADDO COUNTY, OKLAHOMA

(73-008) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (%) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

# U. S. DEPARTMENT OF COMMERCE

BUREAU OF THE CENSUS

# Preliminary 1950 CENSUS OF AGRICULTURE

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 10, 1951

CANADIAN COUNTY, OKLAHOMA

(73-009) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

<sup>1</sup>Includes acres grown with other crops. <sup>2</sup>For 1949, does not include acres for farms with less than 15 bushels harvested. <sup>3</sup>For 1950, does not include acres for farms with less than 15 bushels harvested. <sup>3</sup>For 1950, does not include acres <sup>3</sup>Beported in small fractions. •

# U. S. DEPARTMENT OF COMMERCE Preliminary 1950 CENSUS OF AGRICULTURE

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 8, 1951

### CARTER COUNTY, OKLAHOMA

(73-010) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with svailable comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

### Preliminary

# 1950 CENSUS OF AGRICULTURE

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 13, 1951

### CHEROKEE COUNTY, OKLAHOMA

(73-011) Series A050-1

This release presents figures from the 1950 Gensus of Agriculture, together vith available comparative data from the 1945 Gensus of Agriculture. The figures from the 1950 Gensus are preliminary and are subject to revision. A similar report vill be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 26, 1951

### CHOCTAW COUNTY, OKLAHOMA

(73-012) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 26, 1951

#### CIMARRON COUNTY, OKLAHOMA

(73-013) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 21, 1951

CLEVELAND COUNTY, OKLAHOMA

(73-014) Series AC50-1

\_\_\_\_

Aciss

T

This release presents figures from the 1950 Census of Agriculture, together with available comparative data, from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

### U. S. DEPARTMENT OF COMMERCE Preliminary BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 8, 1951

#### COAL COUNTY, OKLAHOMA

(73-015) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

٩,

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

### U. S. DEPARTMENT OF COMMERCE

# Preliminary

BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 15, 1951

### COMANCHE COUNTY, OKLAHOMA

(73-016) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together vith available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report vill be released for every county in the United States. A preliminary report, carrying State totals only will be issued following the publication of figures for all of the counties in the State After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

### COTTON COUNTY, OKLAHOMA

(73-017) Series AC50-1

A state of the second s

and a second second

States of

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, earrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

## Preliminary 1950 CENSUS OF AGRICULTURE

## FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 8, 1951

CRAIG COUNTY, OKLAHOMA

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the celendar years 1949 and 1944.

## U. S. DEPARTMENT OF COMMERCE

Preliminary

### 1950 CENSUS OF AGRICULTURE

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 8, 1951

CREEK COUNTY, OKLAHOMA

(73-019) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, earrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

# U. S. DEPARTMENT OF COMMERCE

## Preliminary

1950 CENSUS OF AGRICULTURE

#### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

# For release November 7, 1951

#### CUSTER COUNTY, OKLAHOMA

(73-020) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with svallable comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be relaased for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be publiched in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

#### Preliminary

#### **1950 CENSUS OF AGRICULTURE**

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

#### For release November 20, 1951

## DELAWARE COUNTY, OKLAHOMA

(73-021) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. A filer that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

## S. DEPARTMENT OF COMMERCE

#### Preliminary

BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

#### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

release November 24, 1951

#### DEWEY COUNTY, OKLAHOMA

(73-022) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together the weilable comparative data from the 1945 Census of Agriculture. The figures for the 1950 Census are preliminary and are subject to revision. A similar report il be released for every county in the United States. A preliminary report, string State totals only, will be issued following the publication of figures will be the counties in the State. After that, final figures for this county for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all forms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

#### U. S. DEPARTMENT OF COMMERCE

## Preliminary

## 1950 CENSUS OF AGRICULTURE

#### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 8, 1951

#### ELLIS COUNTY, OKLAHOMA

(73-023) Series AC50-1

This release presents figures from the 1950 Gensus of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, earrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

# U. S. DEPARTMENT OF COMMERCE STATISTICS Preliminary statement of statistics for the BUREAU OF THE CENSUS STATE

1950 CENSUS OF AGRICULTURE

## FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 10, 1951

GARFIELD COUNTY, OKLAHOMA

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a semple of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

## U. S. DEPARTMENT OF COMMERCE

Preliminary

## 1950 CENSUS OF AGRICULTURE

## FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 15, 1951

#### GARVIN COUNTY, OKLAHOMA

(73-025) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comperative dats from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be publicated in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

## U. S. DEPARTMENT OF COMMERCE Preliminary 1950 CENSUS OF AGRICULTURE

## FARMS, FARM CHARACTERISTICS; FARM PRODUCTS

For release November 8, 1951

GRADY COUNTY, OKLAHOMA

(73-026) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with evaluable comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, errying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the celendar years 1949 and 1944.

# U. S. DEPARTMENT OF COMMERCE Preliminary BUREAU OF THE CENSUS

### 1950 CENSUS OF AGRICULTURE

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 24, 1951

GRANT COUNTY, OKLAHOMA

(73-027) Series A050-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

### Preliminary

1950 CENSUS OF AGRICULTURE

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 12, 1951

#### GREER COUNTY, OKLAHOMA

(73-028) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

# Preliminary 1950 CENSUS OF AGRICULTURE

BUREAU OF THE CENSUS

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 13, 1951

## HARMON COUNTY, OKLAHOMA

#### (73-029) Series AC50-1

This release presents figures from the 1950 Consus of Agriculture, together vith available comparative data from the 1946 Consus of Agriculture. The figures from the 1950 Census are preliminary and are satject to revision. A similar report vill be released for every county in the United States. A preliminary report, carrying State totals only, vill be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Preliminary

BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release November 6, 1951

### HARPER COUNTY, OKLAHOMA

(73-030)Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together vith available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report vill be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be publiched in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

.

Inventory items are for April 1, 1950 and January 1, 1945; and profluction items are for the calendar years 1949 and 1944.

**1950 CENSUS OF AGRICULTURE** 

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

### For release November 12, 1951

#### HASKELL COUNTY, OKLAHOMA

(75-031) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

### Preliminary

BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

## FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

#### HUGHES COUNTY, OKLAHOMA

(73-032) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together vith available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report vill be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

#### Preliminary

### 1950 CENSUS OF AGRICULTURE

# FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

for release November 26, 1951

#### JACKSON COUNTY, OKLAHOMA

(73-033) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together vith available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report vill be released for every county in the United States. A preliminary report, earrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

#### BUREAU OF THE CENSUS

#### 1950 CENSUS OF AGRICULTURE

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

Preliminary

For release November 8, 1951.

#### JEFFERSON COUNTY, OKLAHOMA

(78-034) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together vith available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census ard preliminary and are subject to revision. A similar report vill be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Preliminary

### **1950 CENSUS OF AGRICULTURE**

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

#### for release November 10, 1951

#### JOHNSTON COUNTY, OKLAHOMA

(78-085) Series A050-1

.

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this dounty and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

BUREAU OF THE CENSUS

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Ttem

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

#### BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

### FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

#### For release November 21, 1951

#### KINGFISHER COUNTY, OKLAHOMA

(73-037) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together vith available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report vill be released for every county in the United States. A preliminary report, earrying State totals only, vill be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State vill be published in a State Report. Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (\*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.
