*Not available.

**Available data not comparable.

¹Data for 1945 and earlier do not include land rented to others by farm operators.

²In the preceding calendar year.

³Total acreage of crops for which figures are available, except that corn cut for forage was excluded as most of this acreage was probably duplicated in the acreage of corn harvested for grain.

⁴Total cropland, cropland used only for pasture, and other pasture not strictly comparable for the various census years because of differences in definition of cropland used only for pasture. See text.

⁵Acreage of irrigated crops including some duplications where 2 or more crops were harvested from the same land.

¹The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.
²Data for 1944 not strictly comparable with those for 1949.
