*Not available.

*Not available.

*Available data not comparable.

*Data for 1945 and carlier do not include land rented to others by farm operators.

*In the preceding calendar year.

*Total acreage of crops for which figures are available, except that corn cut for forage was excluded as most of this acreage was probably duplicated in the acreage of corn harvasted for grain.

*Total cropland, cropland used only for pasture, and other pasture not strictly comparable for the various census years because of differences in definition of cropland used only for pasture. See text.

^{*}Not available.
**Available data not comparable.

1For 1920, standing renters (renters paying a fixed quantity of products) were included with cash tenants.

^{*}Not available.

1 For 1940 and 1930 the figures for land rented from others exclude land subrented to others.

2 For part owners the figures for cropland harvested represent not only the cropland rented from others but also cropland owned; for 1950, for operators renting land to others the figures for cropland harvested represent only the portion retained.

^{*}Not available.

1 The 1930 inquiry referred to electricity in "farmer's dwelling;" and the 1920 inquiry referred to gas or electricity in "operator's dwelling."

2 Farms with electricity and with electric distribution line within 1/4 mile.

3 Farms reporting expenditures for electric light and power purchased.

4 Farms not reporting year of newest model were distributed in the same proportions as those for which year of model was reported.

5 Figures for 1950 are for tractors other than garden tractors.

6 Tractors of all kinds.

7 Distance to nearest all-weather road.

l Farma not reporting year of newest model were distributed in the same proportions as those for which year of model was reported.

The census inquiry was for "year of newest model" only.

The census inquiry for 1950 and 1945 called for reporting "home-made" tractors in lieu of year of newest model.

Not reported separately in 1940.

Crawler and garden tractors were not classified by year of model in the 1950 and 1945 censuses.

"Not available. "Available data not comparable; see text. Figures for cropland harvested and specified crops relate to the crop years 1949, 1944, 1939, 1934, 1929, 1924, and 1919. Total acres of crops for which figures are available, except that corn cut for forage was excluded being largely duplicated in acres harvested for grain. Calculated value of corn harvested for grain, corn cut for silage, and corn hogged or grazed or cut for green or dry forage. Calculated value of sorghums for grain, silage, say or dry forage, and sorghums hogged off or grazed. The 1944 and 1939 figures do not include acres plowed under for green manure. For 1944, soybeans and cowpeas harvested for hay. Prior to 1944, annual legumes saved for hay, but excluding vetches in 1924. For figures on annual legumes available compass and peanut vines, see soybeans cut for hay. For cranuaes prior to 1950, obtained by adding the individual hay crops, exclusive of sorghums and annual legumes. Saved for hay, including cowpeas and peanut vines, and sorghums. In closer seed except sweetclover. Clover seed. The 1949, does not include acres for farms with less than 15 businels harvested. See text. Value for lint cotton only. Scalage crops other than corn and acres grown with other crops for farms reporting acres grown for all purposes. Acres harvested for beans not available. Excludes Irish and sweet potatoes, except for 1920 Census which included potatoes for home use only. Rectudes Irish and sweet potatoes. Compass than 1 dollar, Compass with seems included with green beans. See text. See text. See text. The peopers included with green beans. See text. See text. See text. See text. The peopers included with green beans. See text. See t

Not available.

Includes farms not reporting as to relation of operator to landlord.

For part owners, the figures for cropland harvested represent not only the cropland rented from others but also cropland owned; for operators renting land to others the figures for cropland harvested represent only the portion retained.

Includes farms reporting "house and board and room," and "house, board and room, and other."

State Table 28.—SAMPLING RELIABILITY OF ESTIMATED NUMBER OF FARMS AND FARMS REPORTING: CENSUS OF 1950

If the estimated number of farms or farms reporting is—	Then the chances are about 2 in 3 the the estimated number would diffrom the results of a complete to lation by less than 1—						
	Percent						
25	40						
50

,500							
,000							
0,000							
5,000							
0,000							
00,000							
250,000							

In the case of items for which the estimated number of farms or farms reporting constitutes more than 50 percent of all farms in the universe, more precise limits may be obtained by multiplying the percent difference given in the table by an approximate factor as follows:

When the number of farms or farms reporting constitutes (percent)—	Multiply given limit by—
50	0,75
75	. 50
90	. 30
95	. 20

State Table 29.—SAMPLING RELIABILITY OF ESTIMATED ITEM TOTALS FOR COUNTY, ECONOMIC AREA, AND STATE FOR SPECIFIED NUMBER OF FARMS REPORTING, BY LEVELS: CENSUS OF 1950

If the estimated total	Then the chances are about 2 in 3 that the estimated item total would differ from the results of a complete tubulation of the item for all farms by less than 1												
porting is-	level l	Level 2	Lavel 3	Level	Level 5	Level 6	Level 7						
25	Percent 44 31 22 14 10 7.0 4.4 3.1 2.2 1.4 1.0 -70 444	Percent 19 35 25 16 11 8.0 4.9 3.5 2.5 1.6 1.1	Percent 57 40 29 18 13 9.0 5.7 4.0 2.9 1.8 1.3 90 5.7	Poscent 63 45 32 20 14 10 6.3 4.5 3.2 2.0 1.4 1.0 6.3	Percent 75 53 38 24 17 12 7.5 5.3 8 2.4 1.7 1.2	Percent 85 60 43 27 19 14 8.5 6.0 4.3 2.7 1.9	Percent 98 70 49 31 22 16 9.8 7.0 4.9 3.1 2.2						

In the case of items where large farm reports constitute a significant proportion of the item total more precise limits may be obtained by reducing the percent difference given in the table by the proportion of the item total reported on large farms. See State Table 13 for large farm totals.
