\*Not available.

\*Available data not comparable.

\*Data for 1945 and earlier do not include land rented to others by farm operators.

\*In the preceding calendar year.

\*Total acreage of crops for which figures are available, except that corn cut for forage was excluded as most of this acreage was probably duplicated in the acreage of corn harvested for grain.

\*Total acreage of crops for which figures are available, except that corn cut for forage was excluded as most of this acreage was probably duplicated in the acreage of corn harvested for grain.

\*Total acreage of cropland used only for pasture, and other pasture not strictly comparable for the various census years because of differences in definition of cropland used only for pasture. See text.

\*\*Section\*\*

\*Acreage of irrigated crops including some duplications where 2 or more crops were harvested from the same land.

<sup>\*</sup>Not available. \*\*Available data not comparable. <sup>A</sup>For 1920, standing renters (renters paying a fixed quantity of products) were included with cash temants.

<sup>\*</sup>Not available.

1 For 1940 and 1930, the figures for land rented from others exclude land subrented to others.

2 For part owners, the figures for cropland harvested represent not only the cropland rented from others but also cropland owned; for 1950, for operators renting land to others, the figures for cropland harvested represent only the portion retained.

Farms not reporting year of newest model were distributed in the same proportions as those for which year of model was reported.

The census inquiry was for "year of newest model" only.

The census inquiry for 1950 and 1945 called for reporting "home-made" tractors in lieu of year of newest model.

Not reported separately in 1940.

Crawler and garden tractors were not classified by year of model in the 1950 and 1945 censuses.

<sup>1</sup> Includes farms reporting "house and board and room," and "house, board and room, and other."

# State Table 28.—SAMPLING RELIABILITY OF ESTIMATED NUMBER OF FARMS AND FARMS REPORTING: CENSUS OF 1950

If the estimated number of farms or farms reporting is—	Then the chances are about 2 in 3 that the estimated number would differ from the results of a complete tabu- lation by less than 1
	Percent 40
5	29
0	20
00	1 13
250	9.0
500	6.5
1,000	4.0
?, 500	2.9
5, 000	2.0
0,000	1.3
25,000	.9
50,000	.6
00,000250,000	.4

<sup>13</sup>n the case of items for which the estimated number of farms or farms reporting constitutes more than 50 percent of all farms in the universe, more precise limits may be obtained by multiplying the percent difference given in the table by an approximate factor as follows:

When the number of farms or farms reporting constitutes (percent) - 50 75 90 95

forms or #altiply fiven
es (percent) -- 0.75

Includes data for 1 farm in Yellowstone National Park.

Includes 1,875,840 acres in Yellowstone National Park (part of) not shown in detail.

The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

Data for 1944 not strictly comparable with those for 1949. See text.

#### OPERATORS: CENSUSES OF 1950 AND 1945

on reports for only a sample of farms. See text]
