1 For 1940 and 1930, the figures for land rented from others exclude land subrented to others.

2 For part owners, the figures for cropland harvested represent not only the cropland rented from others but also cropland owned; for 1950, for operators renting land to others, the figures for cropland harvested represent only the portion retained.

The 1930 inquiry referred to electricity in "farmer's dwelling;" and the 1920 inquiry referred to gas or electricity in "operator's dwelling."

Farms with electricity and with electric light and power purchased.

Farms reporting expenditures for electric light and power purchased.

Farms not reporting year of newest model were distributed in the same proportions as those for which year of model was reported.

Figures for 1950 are for tractors other than garden tractors.

Figures of all kinds.

Distance to nearest all-weather road.

¹ Farms not reporting year of newest model were distributed in the same proportions as those for which year of model was reported.

2 The census inquiry was for "year of newest model" only.

3 The census inquiry for 1950 and 1945 called for reporting "home-made" tractors in lieu of year of newest model.

4 Not reported separately in 1940.

5 Crawler and garden tractors were not classified by year of model in the 1950 and 1945 censuses.

¹ In the case of items for which the estimated number of farms or farms reporting constitutes more than 50 percent of all farms in the universe, more precise limits may be obtained by multiplying the percent difference given in the table by an approximate factor as follows:
