The Charleston and Columbia Urbanized Areas, for which statistics are shown in table 9, are depicted in the following maps. The shaded areas, in combination, comprise the urbanized area. To assist in locating the exact external boundaries of the area, each boundary feature (street segment, political boundary, or other) has been assigned a number. The boundary segments thus numbered are shown on the map and the features to which they apply are presented in the following key.

URBANIZED AREA MAPS

The four urbanized areas in Tennessee, for which statistics are shown in table 9, are depicted in the following maps. The shaded areas, in combination, comprise the urbanized areas. To assist in locating the exact external boundaries of the areas, each boundary feature (street segment, political boundary, or other) has been assigned a number. The boundary segments thus numbered are shown on the map and the features to which they apply are presented in the following key.

I According to the new urban definition, the urban population comprises persons residing in urban territory but not necessarily in an urban place, which is defined as an incorporated place of 2,500 or more, or an unincorporated place of 2,500 or more located outside an urbanized area. Under the old definition, incorporated places of 2,500 or more and places urban under special rule are classified as urban places. In Utah there were no places urban under special rule in 1940.

URBANIZED AREA MAPS

The three urbanized areas located entirely in Virginia, for which statistics are shown in table 9, are depicted in the following maps. The shaded areas, in combination, comprise the urbanized area. To assist in locating the exact external bound-

aries of the area, each boundary feature (street segment, political boundary, or other) has been assigned a number. The boundary segments thus numbered are shown on the map and the features to which they apply are presented in the following key.

["Unino." designates an unincorporated place. "Divisions" shown here are census county divisions, which replace the minor civil divisions presented in 1940; comparative figures shown wherever possible. For description of census county divisions, see pp. 47-21 to 47-39. Figures for 1930 and 1940 not available for unincorporated places and places incorporated since April 1, 1940. Changes in the boundaries of incorporated places between 1940 and 1950 are given in footnotes; for boundary changes between 1930 and 1940, see reports of the 16th Census (1940), Population, Vol. I, pp. 1123-1133. Total population of a place located within 2 or more census county divisions appears in table 7]
