

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

June 23, 1950

Washington 25, D. C.

Series PC-1, No. 1

POPULATION OF SELECTED COUNTIES AND INCORPORATED PLACES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices. Additional reports in this series will be issued as preliminary counts for additional counties become available. These reports will be replaced by reports in Series PC-2, which will be issued for each State and which will contain the preliminary counts for all counties and incorporated places of 1,000 or more)

Preliminary counts of the population for 162 counties and for the incorporated places of 1,000 inhabitants or more within these counties were reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. These counts are based on the 1950 Decennial Census of Population.

The preliminary population counts shown below represent the number of persons enumerated in each county or place but not the final verified population totals. The final population total for any place may differ from the preliminary count because of the allocation to the place of residents who were enumerated elsewhere and of crews of vessels docked in the place but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION**PRELIMINARY COUNTS**

June 26, 1950

Washington 25, D. C.

Series PC-1, No. 2

POPULATION OF SELECTED COUNTIES AND INCORPORATED PLACES**APRIL 1, 1950**

(The figures in this report are preliminary counts of population as compiled in field offices. Additional reports in this series will be issued as preliminary counts for additional counties become available. These reports will be replaced by reports in Series PC-2, which will be issued for each State and which will contain the preliminary counts for all counties and incorporated places of 1,000 or more)

Preliminary counts of the population for 128 counties and for the incorporated places of 1,000 inhabitants or more within these counties were reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. These counts are based on the 1950 Decennial Census of Population. Announcements have been made to date for a total of 290 counties, including the counties presented in this report.

The preliminary population counts shown below represent the number of persons enumerated in each county or place but not the final verified population totals. The final population total for any place may differ from the preliminary count because of the allocation to the place of residents who were enumerated elsewhere and of crews of vessels docked in the place but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

June 28, 1950

Washington 25, D. C.

Series PC-1, No. 3

POPULATION OF SELECTED COUNTIES AND INCORPORATED PLACES

APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices. Additional reports in this series will be issued as preliminary counts for additional counties become available. These reports will be replaced by reports in Series PC-2, which will be issued for each State and which will contain the preliminary counts for all counties and incorporated places of 1,000 or more)

Preliminary counts of the population for 166 counties and for the incorporated places of 1,000 inhabitants or more within these counties were reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. These counts are based on the 1950 Decennial Census of Population. Announcements have been made to date for a total of 456 counties, including the counties presented in this report.

The preliminary population counts shown below represent the number of persons enumerated in each county or place but not the final verified population totals. The final population total for any place may differ from the preliminary count because of the allocation to the place of residents who were enumerated elsewhere and of crews of vessels docked in the place but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

June 30, 1950

Washington 25, D. C.

Series PC-1, No. 4

POPULATION OF SELECTED COUNTIES AND INCORPORATED PLACES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices. Additional reports in this series will be issued as preliminary counts for additional counties become available. These reports will be replaced by reports in Series PC-2, which will be issued for each State and which will contain the preliminary counts for all counties and incorporated places of 1,000 or more)

Preliminary counts of the population for 182 counties and for the incorporated places of 1,000 inhabitants or more within these counties were reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. These counts are based on the 1950 Decennial Census of Population. Announcements have been made to date for a total of 638 counties, including the counties presented in this report.

The preliminary population counts shown below represent the number of persons enumerated in each county or place but not the final verified population totals. The final population total for any place may differ from the preliminary count because of the allocation to the place of residents who were enumerated elsewhere and of crews of vessels docked in the place but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

July 7, 1950

Washington 25, D. C.

Series PC-1, No. 5

POPULATION OF SELECTED COUNTIES AND INCORPORATED PLACES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices. Additional reports in this series will be issued as preliminary counts for additional counties become available. These reports will be replaced by reports in Series PC-2, which will be issued for each State and which will contain the preliminary counts for all counties and incorporated places of 1,000 or more)

Preliminary counts of the population for 155 counties and for the incorporated places of 1,000 inhabitants or more within these counties were reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. These counts are based on the 1950 Decennial Census of Population. Announcements have been made to date for a total of 793 counties, including the counties presented in this report.

The preliminary population counts shown below represent the number of persons enumerated in each county or place but not the final verified population totals. The final population total for any place may differ from the preliminary count because of the allocation to the place of residents who were enumerated elsewhere and of crews of vessels docked in the place but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

July 12, 1950

Washington 25, D. C.

Series PC-1, No. 6

POPULATION OF SELECTED COUNTIES AND INCORPORATED PLACES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices. Additional reports in this series will be issued as preliminary counts for additional counties become available. These reports will be replaced by reports in Series PC-2, which will be issued for each State and which will contain the preliminary counts for all counties and incorporated places of 1,000 or more)

Preliminary counts of the population for 75 counties and for the incorporated places of 1,000 inhabitants or more within these counties were reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. These counts are based on the 1950 Decennial Census of Population. Announcements have been made to date for a total of 868 counties, including the counties presented in this report.

The preliminary population counts shown below represent the number of persons enumerated in each county or place but not the final verified population totals. The final population total for any place may differ from the preliminary count because of the allocation to the place of residents who were enumerated elsewhere and of crews of vessels docked in the place but not included in the preliminary count, and because of other revisions.

¹ Total population of Gladewater city, partly in Gregg County and partly in Upshur County, is 5,310 for 1950 (preliminary) and 4,454 for 1940.

² Total population of Kilgore city, partly in Gregg County and partly in Rusk County, is 9,693 for 1950 (preliminary) and 6,708 for 1940.

³ Supersedes figure shown in Series PC-1, No. 3, for Alleghany County. Figures for places of 1,000 or more in Alleghany County are shown in Series PC-1, No. 3.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

July 17, 1950

Washington 25, D. C.

Series PC-1, No. 7

POPULATION OF SELECTED COUNTIES AND INCORPORATED PLACES

APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices. Additional reports in this series will be issued as preliminary counts for additional counties become available. These reports will be replaced by reports in Series PC-2, which will be issued for each State and which will contain the preliminary counts for all counties and incorporated places of 1,000 or more)

Preliminary counts of the population for 200 counties and for the incorporated places of 1,000 inhabitants or more within these counties were reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. These counts are based on the 1950 Decennial Census of Population. Announcements have been made to date for a total of 1,068 counties, including the counties presented in this report.

The preliminary population counts shown below represent the number of persons enumerated in each county or place but not the final verified population totals. The final population total for any place may differ from the preliminary count because of the allocation to the place of residents who were enumerated elsewhere and of crews of vessels docked in the place but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 8, 1950

Washington 25, D. C.

Series PC-1, No. 8

POPULATION OF SELECTED COUNTIES AND INCORPORATED PLACES

APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices. Additional reports in this series will be issued as preliminary counts for additional counties become available. These reports will be replaced by reports in Series PC-2, which will be issued for each State and which will contain the preliminary counts for all counties and incorporated places of 1,000 or more)

Preliminary counts of the population for 151 counties and for the incorporated places of 1,000 inhabitants or more within these counties were reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. These counts are based on the 1950 Decennial Census of Population. Announcements have been made to date for a total of 1,219 counties, including the counties presented in this report.

The preliminary population counts shown below represent the number of persons enumerated in each county or place but not the final verified population totals. The final population total for any place may differ from the preliminary count because of the allocation to the place of residents who were enumerated elsewhere and of crews of vessels docked in the place but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

July 26, 1950

Washington 25, D. C.

Series PC-2, No. 1

POPULATION OF IDAHO, BY COUNTIES: APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Idaho as of April 1, 1950, was 585,092, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 60,219, or 11.5 percent, over the 524,873 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

July 27, 1950

Washington 25, D. C.

Series PC-2, No. 2

POPULATION OF WEST VIRGINIA, BY COUNTIES: APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of West Virginia as of April 1, 1950, was 1,999,097, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 97,123 or 5.1 percent, over the 1,901,974 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

July 31, 1950

Washington 25, D. C.

Series PC-2, No. 3

POPULATION OF MONTANA, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Montana as of April 1, 1950, was 587,337, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peël, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 27,881, or 5.0 percent, over the 559,456 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 3, 1950

Washington 25, D. C.

Series PC-2, No. 4

POPULATION OF MARYLAND, BY COUNTIES: APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Maryland as of April 1, 1950, was 2,324,243, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 502,999, or 27.6 percent, over the 1,821,244 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State; each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

² Total population of Salem city, partly in Marion County and partly in Polk County, is 43,064 for 1950 (preliminary) and 30,908 for 1940; part in Polk County was West Salem in 1940.

³ Total population of Willamina city, partly in Polk County and partly in Yamhill County, is 1,071 for 1950 (preliminary) and 677 for 1940; part of Willamina city in Polk County had no population in 1940.

⁴ Not reported separately in 1940.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 10, 1950

Washington 25, D. C.

Series PC-2 No. 6

POPULATION OF NEVADA, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Nevada as of April 1, 1950, was 158,283, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 48,036, or 43.6 percent, over the 110,247 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 10, 1950

Washington 25, D. C.

Series PC-2, No. 7

POPULATION OF VIRGINIA, BY COUNTIES: APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Virginia as of April 1, 1950, was 3,270,322, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 592,549, or 22.1 percent, over the 2,677,773 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 10, 1950

Washington 25, D. C.

Series PC-2, No. 8

POPULATION OF DELAWARE, BY COUNTIES: APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Delaware as of April 1, 1950, was 316,609, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 50,104, or 18.8 percent, over the 266,505 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

Area	Preliminary count, April 1, 1950	April 1, 1940	Percent of change, 1940 to 1950
State total.....	316,609	266,505	18.8

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 11, 1950

Washington 25, D. C.

Series PC-2, No. 9

Revised copy follows
this copy

POPULATION OF FLORIDA, BY COUNTIES: APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Florida as of April 1, 1950, was 2,735,413, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 837,999, or 44.2 percent, over the 1,897,414 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

October 9, 1950

Washington 25, D. C.

Series PC-2, No. 9 Rev.

Original copy precedes
this copy

POPULATION OF FLORIDA, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Florida as of April 1, 1950, was 2,743,736, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 846,322, or 44.6 percent, over the 1,897,414 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION**PRELIMINARY COUNTS**

August 14, 1950

Washington 25, D. C.

Series PC-2, No. 10

POPULATION OF NORTH CAROLINA, BY COUNTIES:
APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of North Carolina as of April 1, 1950, was 4,038,814, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 467,191, or 13.1 percent, over the 3,571,623 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 15, 1950

Washington 25, D. C.

Series PC-2 No. 11

POPULATION OF ALABAMA, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Alabama as of April 1, 1950, was 3,052,754, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 219,793, or 7.8 percent, over the 2,832,961 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 16, 1950

Washington 25, D. C.

Series PC-2, No. 12

POPULATION OF TENNESSEE, BY COUNTIES: APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Tennessee as of April 1, 1950, was 3,282,271, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 366,430, or 12.6 percent, over the 2,915,841 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION**PRELIMINARY COUNTS**

August 17, 1950

Washington 25, D. C.

Series PC-2, No. 13

POPULATION OF VERMONT, BY COUNTIES
APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Vermont as of April 1, 1950, was 375,833, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 16,602, or 4.6 percent, over the 359,231 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, each town, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION**PRELIMINARY COUNTS**

August 18, 1950

Washington 25, D. C.

Series PC-2, No. 14

POPULATION OF SOUTH CAROLINA, BY COUNTIES:
APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of South Carolina as of April 1, 1950, was 2,107,432, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 207,628, or 10.9 percent, over the 1,899,804 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

Area	Preliminary count, April 1, 1950	April 1, 1940	Percent of change, 1940 to 1950

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 18, 1950

Washington 25, D. C.

Series PC-2, No.15

POPULATION OF CONNECTICUT, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Connecticut as of April 1, 1950, was 1,995,263, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 286,021, or 16.7 percent, over the 1,709,242 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, each town, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 18, 1950

Washington 25, D. C.

Series PC-2, No. 16

POPULATION OF ARIZONA, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Arizona as of April 1, 1950, was 745,259, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 245,998, or 49.3 percent, over the 499,261 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 21, 1950

Washington 25, D. C.

Series PC-2, No. 17

POPULATION OF NORTH DAKOTA, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of North Dakota as of April 1, 1950, was 617,965, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a loss of 23,970, or 3.7 percent, from the 641,935 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 22, 1950

Washington 25, D. C.

Series PC-2, No. 19

POPULATION OF COLORADO, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Colorado as of April 1, 1950, was 1,818,048, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 194,752, or 17.3 percent, over the 1,123,296 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 23, 1950

Washington 25, D. C.

Series PC-2, No. 20

POPULATION OF INDIANA, BY COUNTIES

APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Indiana as of April 1, 1950, was 3,921,213, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 493,417, or 14.4 percent, over the 3,427,796 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

Area	Preliminary count, April 1, 1950	April 1, 1940	Percent of change, 1940 to 1950
State total.....	3,921,213	3,427,796	14.4
Adams County.....	22,395	21,254	5.4
Berne town.....	2,273	2,075	9.5

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 23, 1950

Washington 25, D. C.

Series PC-2, No. 21

POPULATION OF NEBRASKA, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Nebraska as of April 1, 1950, was 1,318,079, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 2,245, or 0.2 percent, over the 1,315,834 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

Area	Preliminary count, April 1, 1950	April 1, 1940	Percent of change, 1940 to 1950
State total.....	1,318,079	1,315,834	0.2

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 23, 1950

Washington 25, D. C.

Series PC-2, No. 22

POPULATION OF RHODE ISLAND, BY COUNTIES APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Rhode Island as of April 1, 1950, was 779,931, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 66,585, or 9.3 percent, over the 713,346 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of

persons enumerated in the State, each county, each town, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.

POPULATION OF WYOMING, BY COUNTIES
APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Wyoming as of April 1, 1950, was 288,800 according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 38,058, or 15.2 percent, over the 250,742 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

August 28, 1950

Washington 25, D. C.

Series PC-2, No. 25

POPULATION OF OKLAHOMA, BY COUNTIES
APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Oklahoma as of April 1, 1950, was 2,223,650, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a loss of 112,784, or 4.8 percent, from the 2,336,434 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, and because of other revisions.
