¹ According to the new urban definition, the urban population comprises persons residing in urban territory but not necessarily in an urban place, which is defined as an incorporated place of 2,600 or more, or an unincorporated place of 2,600 or more located outside an urbanized area. Under the old definition, incorporated places of 2,600 or more and places urban under special rule are classified as urban places. In Montana there were no places urban under special rule.
