TABLE 104.-POPULATION, DWELLINGS, AND FAMILIES, FOR PLACES HAVING 2,500 INHABITANTS OR MORE: 1900.

[The word "dwelling" means occupied dwelling. This table includes all incorporated places having 2,500 inhabitants or more, so far as they have been returned by the census enumerators, separate from the population of the townships, precincts, districts, etc., of which they form a part. It also includes two unincorporated places in Alaska, one unincorporated place in Hawaii, and all towns in the New England states which have a population of 2,500 or more, but which do not contain an incorporated place with that amount of population.]
