¹The difference between the totals stated in the table for 1880 and those published in the reports of the Tenth Census is caused by the elimination of data which was duplicated in the Tenth Census under the head of "Mixed Textiles," such data having been also included in the totals of that census for the different branches of the textile industries.

CITIES SHOWN SEPARATELY FOR 1880, 1890, AND 1900.

The difference between the totals stated in the table for 1880 and those published in the reports of the Tenth Census is caused by the elimination of data which was duplicated in the Tenth Census under the head of "Mixed Textiles," such data having been also included in the totals of that census for the different branches of the textile industries.
