## THIRTEENTH CENSUS OF THE UNITED STATES: 1910

DEPARTMENT OF COMMERCE AND LABOR

BULLETIN

BUREAU OF THE CENSUS E. DANA DURAND, DIRECTOR

# POPULATION : ALABAMA

### COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Alabama gave the number of inhabitants by counties and minor civil divisions, decennial increase and density of population, and the proportion urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of the bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for cities of 25,000 inhabitants or more; Table III for cities of 10,000 to 25,000; Table IV for places. of 2,500 to 10,000; and Table V for wards of cities of 50,000 or more.

A series of summary tables reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classificaation according to nativity and parentage is scarcely necessary for the other races, since it is well known that nearly all negroes and Indians are native born of native parentage, and that nearly all Chinese and Japanese are either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents native of the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being treated as rural.

With regard to marital condition, school attendance, and illiteracy, material differences appear among age groups, necessitating the presentation of data by age; and for these subjects, in the statements of age in groups from one year to another, both years are always inclusive.

The census inquiry as to school attendance was merely as to whether the person had attended any kind of school at any time from September 1, 1909, to the date of enumeration, April 15, 1910.

The Census Bureau treats as illiterate any person unable to write, regardless of his ability to read; the returns relate only to persons 10 years of age or over.

Color and nativity (Table 1).—Of the total population of Alabama, 1,228,832, or 57.5 per cent, are whites, and 908,282, or 42.5 per cent, negroes. The corresponding proportions in 1900 were: whites, 54.7; negroes, 45.2. In each of 21 counties negroes constitute half or more of the population, and in 11 of them the proportion is fully three-fourths. (See map, p. 7.)

Native whites of native parentage constitute 55.1 per cent of the total population of the state, and 95.8 per cent of the white population. Native whites of foreign or mixed parentage constitute only 1.5 per cent of the total population, and foreign-born whites 0.9 per cent.

Of the urban population, 49.8 per cent consists of native whites of native parentage, 5.1 per cent of native whites of foreign or mixed parentage, 2.9 per cent of foreign-born whites, and 42.3 per cent of negroes. For the rural population the corresponding percentages are 56.2, 0.8, 0.5, and 42.5.

Sex (Table 2).—In the population of the state there are 1,074,209 males and 1,063,884 females, or 101 males to each 100 females, as compared with a ratio of 100.5 in 1900. For the whites there are 103.8 males to 100 females, and for the negroes 97.2. For all native whites combined the ratio is 103.1, as compared with 165.9 for the foreign-born whites. In the urban population there are 95.9 males to 100 females, as compared with 102.1 in the rural districts.

State of birth (Tables 3 and 4).—Of the total native population, that is, that born in the United States, 87.7 per cent was born in Alabama and 12.3 per cent in other states; of the native white population, 15.9 per cent was born in other states, and of the native negro, 7.5 per cent. Persons born outside the state constitute a much larger proportion of the native population of urban than of rural communities.

13 - 1 - 12

33326°—12

4 - 12

Foreign nationalities (Table 5).—Of the foreign-born white population of Alabama, persons born in Germany represent 19 per cent; Italy, 14.2; England, 12.4; Russia, 8.1; Ireland, 6.2; Scotland, 5.9; Austria, 4.8; Canada, 4.3; Sweden, 4; all other countries, 21.2 per cent. Of the total white stock of foreign origin, which includes persons born abroad or natives having one or both parents born abroad, Germany contributed 23.6 per cent; England, 13.6; Ireland, 11.8; Italy, 9.1; Scotland, 6.9; Russia, 5.1; Canada, 3.9; France, 3.4; Austria, 3.2 per cent.

Voting and militia ages (Table 6).—The number of males 21 years of age and over is 513,111, representing 24 per cent of the population. Of such males, 58.3 per cent are white and 41.7 per cent negroes. Native whites represent 56.2 per cent of the total number and foreign-born whites 2.1 per cent. Of the foreign-born white males of voting age, 45 per cent are naturalized.

Age (Tables 7 and 8).—Of the total population, 39.7 per cent are under 15 years of age, 20.6 per cent are from 15 to 24 years, inclusive, 24.5 per cent are from 25 to 44, and 15 per cent are 45 years of age and over. The foreign-born white, or immigrant, population comprises comparatively few children, the larger proportion of this class—80.6 per cent of the total—being 25 years of age and over, and only 6.6 per cent being under 15. The negro population comprises a somewhat smaller proportion of children under 5 than the native white population of native parentage.

The urban population shows a smaller proportion of children than the rural, and a larger proportion of persons in the prime of life. Immigration to the city explains this at least in part. Of the urban population, 32.8 per cent are from 25 to 44 years of age, inclusive; and of the rural population, 22.8 per cent.

School attendance (Table 9).-The total number of persons of school age-that is, from 6 to 20 years. inclusive-is 750,357, of whom 385,449, or 51.4 per cent, attended school. In addition to these, 5,042 persons under 6 and 6,354 of 21 and over attended school. For boys between the ages of 6 and 20 the percentage of school attendance was 51.2, as compared with 51.5 for girls. For children between 6 and 14 years the percentage attending school was 61.1. The percentage for children of this age was highest among native whites of foreign or mixed parentage, 78.1 per cent, followed by foreign-born whites, 70.2 per cent; native whites of native parentage, 70 per cent; and negroes, 49.3 per cent. (See Table I, p. 9.) In urban communities the percentage of children of that age attending school was 70.7, as compared with 59.6 in rural communities.

Illiteracy (Table 10).—There are 352,710 illiterates in the state, representing 22.9 per cent of the total population 10 years of age and over, as compared with 34 per cent in 1900. The percentage of illiteracy is 40.1 among negroes, 9.9 among native whites, and 11.3 among foreign-born whites. It is 10.1 for native whites of native parentage, as against 2.3 for native whites of foreign or mixed parentage. Illiterates are relatively fewer in urban than in rural communities, 13 per cent as against 25.2. This difference between urban and rural appears in each class of the population except foreign-born whites, most of whom arrive in this country when past the school age, and among whom the percentage of illiteracy is practically the same in urban as in rural communities.

For persons between the ages of 10 and 20, whose literacy largely depends upon present school facilities and school attendance, the percentage of illiteracy is 16.4. (See Table I, p. 9.)

Marital condition (Table 11).—Of the total number of males 15 years of age and over in Alabama, 34.5 per cent are single, 60 per cent married, 4.9 per cent widowed, and 0.4 per cent divorced. The corresponding percentages for females are 26.3, 60.3, 12.4, and 0.9.

That the percentage single is so much smaller for women than for men is due to the fact that they marry younger. Thus, 19.1 per cent of the females from 15 to 19 years of age are married, as compared with 2.2 per cent of the males; and 61.7 per cent of the females from 20 to 24 years are married, as compared with 38 per cent of the males. In the next age group, 25 to 34 years, the difference largely disappears. That there is a larger proportion of widows than of widowers probably indicates that men are more apt to remarry than women, and furthermore that, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of persons over 15 years of age who are married are as follows: Foreign-born whites, 64 per cent for males, 71.2 per cent for females; native whites of native parentage, 60.3 and 62.4 per cent, respectively; native whites of foreign or mixed parentage, 52.6 and 52.7 per cent, respectively; negroes, 59.7 per cent for males and 57.7 per cent for females. The large proportion married among foreign-born whites is due to their greater average age; in the age group 25 to 44 years the proportion married is lower for foreignborn whites than for native whites of native parentage. The percentage married, both for males and females, is higher in rural than in urban communities.

Dwellings and families.—The total number of dwellings in Alabama is 441,249, and the number of families 454,767, indicating that in very few cases do more than one family occupy a dwelling. (See Table I, p. 9.) The average number of persons per dwelling is 4.8, and the average number per family, 4.7.

Cities of over 25,000.—In addition to Table II (p. 22), which contains statistics for each city of 25,000 inhabitants or more, there are special tables which present additional statistics for such cities. Table 12 shows the countries of origin of the foreign white stock of Birmingham. Table 2 shows the sex distribution, Table 13 the age distribution, and Table 14 the marital condition, of the population of Birmingham, Mobile, and Montgomery.

Ο

#### COUNTIES.

BLOUNT—Part taken to form part of Cullman in 1877 and parts annexed to Cullman between 1880 and 1890 and in 1901.

BULLOCK-Part of Montgomery annexed in 1877.

CALHOUN-Part of Cleburne annexed in 1907; part annexed to Cleburne in 1907. CHILTON-Part of Dallas annexed in 1875.

CLAY-Part annexed to Talladega in 1877; part of Talledaga annexed in 1895.

CLEBURNE-Part of Calhoun annexed in 1907; part annexed to Calhoun in 1907.

COLDERT-Part annexed to Franklin between 1890 and 1900; part of Lawrence annexed between 1890 and 1900.

CULLMAN-Organized from parts of Blount, Marshall, Morgan, and Winston in 1877, and parts of Blount annexed between 1880 and 1890 and in 1901.

DALE-Part taken to form part of Houston in 1903. (See also note in next column.) DALLAS-Part annexed to Chilton in 1875.

ELMORE-Part of Montgomery annexed in 1877.

FRANKLIN-Part of Colbert annexed between 1890 and 1900.

GENEVA-Part taken to form part of Houston in 1903. (See also note in next column.)

HENRY-Part taken to form part of Houston in 1903. (See also note in next column.)

HOUSTON-Organized from parts of Dale, Geneva, and Henry in 1903. (See also note in next column.)

JEFFERSON-Part of Shelby annexed between 1880 and 1890; part annexed to Walker between 1890 and 1900.

LAMAR-Name changed from Sanford between 1870 and 1880.

LAWRENCE-Part annexed to Colbert between 1890 and 1900.

MARSHALL-Part taken to form part of Cullman in 1877.

MONTGOMERY-Parts annexed to Bullock and Elmore in 1877.

MORGAN-Part taken to form part of Cullman in 1877.

SHELBY-Part annexed to Jefferson between 1880 and 1890.

TALLADEGA-Part of Clay annexed in 1877; part annexed to Clay in 1895.

WALKER-Part of Jefferson annexed between 1890 and 1900.

WINSTON-Part taken to form part of Cullman in 1877.

NOTE.—Dale, Geneva, Henry, and Houston Counties combined—Total popu-lation: 1910, 101,195; 1900, 76,432; increase, 1900–1910, 24,763; per cent of increase, 32.4. Urban population: 1910, 7016; same places in 1900, 3,275; per cent of increase, 114.2. Rural population: 1910, 94,179; same territory in 1900, 73,157; per cent of increase, 28.7. Urban population, 1900, 3,275; rural population, 1900, 78,157. Per cent in places of 2,500 or more in 1910, 6.9. Per cent in places of 2,500 or more in 1900, 4.3.

#### CITIES.

ANNISTON-Part of precinct 20 (Oxanna town) annexed in 1901.

BIRMINGHAM—Parts of precincts 21 and 37 annexed in 1903; parts of precincts 10 and 84 annexed in 1909, and parts of precincts 9, 10, 11, 21, 29 (including Pratt city), 34, 30, 37, 42, and 45 (including Ensley city) annexed in 1910. DECATUR—Part of precinct 1 annexed in 1910.

MOBILE-Precinct 27 and territory not located by precincts annexed in 1908. MONTGOMERY-Precinct 7 annexed in 1903.

SELMA-Parts of precinct 4 annexed in 1901 and 1907.

### THIRTEENTH CENSUS OF THE UNITED STATES: 1910

BULLETIN

BUREAU OF THE CENSUS E. DANA DURAND, DIRECTOR

# **POPULATION : ARIZONA**

#### COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Arizona gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

DEPARTMENT OF

COMMERCE AND LABOR

Description of the tables.—The greater part of this second bulletin consists of three general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for the two cities of over 10,000 inhabitants; and Table III for places of 2,500 to 10,000.

A series of summary tables (numbered 1 to 12) reproduces from the general tables the more important state totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races; since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).—Of the total population of Arizona, 82,468, or 40.4 per cent, are native whites of native parentage; 42,176, or 20.7 per cent, are native whites of foreign or mixed parentage; 46,824, or 22.9 per cent, are foreign-born whites; and 29,201, or 14.3 per cent, are Indians. The corresponding percentages in 1900 were 36.5, 20.9, 18.2, and 21.5, respectively. In 8 of the 13 counties at least 20 per cent of the population is white of foreign or mixed parentage, and in 7 counties more than 20 per cent is foreign-born white. In Santa Cruz County 42.3 per cent of the population is foreign-born white, and only 22.8 per cent is native white of native parentage. (See maps on a following page.)

Of the urban population, 42.1 per cent are native whites of native parentage; of the rural, 39.6 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 26.1 and 18.2 per cent, respectively. The percentage of foreign-born whites is 27.2 in the urban population and 21 in the rural; the percentage of Indians is 1.2 in the urban and 20.1 in the rural. The Indian population is almost exclusively rural, only 2.6 per cent living in urban communities.

Sex (Table 2).—In the total population of the state there are 118,574 males and 85,780 females, or 138.2 males to 100 females. In 1900 the ratio was 140.4 to 100. Among native whites the ratio is 129.3; among foreign-born whites, 188.4; and among the Indians, 106.4 to 100. In the urban population there are 126 males to 100 females, and in the rural, 144.2.

State of birth (Tables 3 and 4).—Of the native population—that is, population born in the United States—50.7 per cent were born in Arizona and 49.3 per cent outside the state; of the native white population, 59.5 per cent were born outside the state; of the native Indians, 1.9; and of the native negroes, 85.5 per cent.

Foreign nationalities (Table 5).—Of the foreignborn white population of Arizona, persons born in Mexico represent 62.9 per cent; England, 7.5; Germany, 3.9; Canada, 3.9; Ireland, 3.3; Italy, 3.3; Austria, 3.2; Spain, 1.8; Sweden, 1.8; Scotland, 1.2; Finland, 1.2; all other countries, 6. Of the total white stock of

48900°—12

foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Mexico contributed 57.4 per cent; England, 8.2; Germany, 6.3; Ireland, 5.5; Canada, 4.4; Italy, 2.5; Austria, 2.2; Sweden, 1.8; Scotland, 1.7; Spain, 1.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 74,051, representing 36.2 per cent of the population. Of such males, 38.8 per cent are native whites of native parentage, 14.4 per cent native whites of foreign or mixed parentage, 34.7 per cent foreign-born whites, 9 per cent Indians, 2 per cent Chinese and Japanese, and 1 per cent negroes. Of the 25,682 foreign-born white males of voting age, 5,912, or 23 per cent, are naturalized. Males of militia age—18 to 44—number 58,962.

Age (Tables 7 and 8).—Of the total population, 12.1 per cent are under 5 years of age, 19.6 per cent from 5 to 14 years, inclusive, 18.7 per cent from 15 to 24, 33.7 per cent from 25 to 44, and 15.6 per cent 45 years of age and over. The proportion of children is highest among native whites of foreign or mixed parentage, and next highest in the Indian population. The foreignborn white population comprises comparatively few children, only 11 per cent of this class being under 15 years of age, while 70 per cent are 25 years of age and over. Of the native whites of native parentage, less than one-half (47.3 per cent) are 25 and over, and of the native whites of foreign or mixed parentage only a little more than one-third (35.3 per cent).

The urban population shows a smaller proportion of children than the rural, and a larger proportion of persons in the prime of life. Of the urban population, 37.1 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 32.1 per cent.

School attendance (Table 9).-The total number of persons of school age-that is, from 6 to 20 years, inclusive-is 56,897, of whom 30,355, or 53.4 per cent, attended school. In addition to these, 490 persons under 6 and 501 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 52.5; for girls, 54.3. For children from 6 to 14 years, inclusive, the percentage attending school was 67.2. The percentage for children of this age among native whites of native parentage was 80.4; among native whites of foreign or mixed parentage, 72.1; among foreign-born whites, 61.6; among Indians, 34.1. Of the small number of negro children aged 6 to 14 years 81.5 per cent were attending school. (See Table I.) The percentage at school for children aged 6 to 14 is higher in urban than in rural communities.

Illiteracy (Table 10).—There are 32,953 illiterates in the state, representing 20.9 per cent of the total population 10 years of age and over, as compared with 29 per cent in 1900. The percentage of illiteracy is 72.9 in the Indian population, 31.5 among foreignborn whites, 7.2 among negroes, and 4.2 among native whites.

For all classes combined the percentage illiterate is 9.9 in the urban population, and 26.1 in the rural. For each element of the population the percentage illiterate is higher in rural than in urban communities.

For persons from 10 to 20 years, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage illiterate is 18. (See Table I.)

Marital condition (Table 11).—In the population 15 years of age and over, 45.8 per cent of the males are single, and 22.2 per cent of the females. The percentage married is 47.7 for males and 65.7 for females, and the percentage widowed 4.4 and 10.5, respectively. The percentages of those reported as divorced, 0.8 and 1, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men, though partly accounted for by the excess of males in the total population of the state, is due largely to the fact that women marry younger than men. Thus 20.3 per cent of the females and only 2 per cent of the males from 15 to 19 years of age are married; 64.5 per cent of the females and 20.6 per cent of the males from 20 to 24 years; 82.5 per cent of the females and 51.9 per cent of the males from 25 to 34 years; and 83.2 per cent of the females and 66.5 per cent of the males 35 to 44 years of age. In the age group 45 and over the difference practically disappears, the percentage married being 61.3 for females and 62.5 for males. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is in fact more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 47.9 for males and 68.2 for females; native whites of native parentage, 46.5 and 66.4, respectively; native whites of foreign or mixed parentage, 40.7 and 60.2; Indians, 61.6 and 67.6. and the second 
These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for females is higher in rural than in urban communities; for males the percentages are practically the same.

Dwellings and families.—The total number of dwellings in Arizona is 45,386, and the total number of families 47,927, there being 105.6 families to each 100 dwellings. (See Table I.) The average number of persons per dwelling is 4.5, and the average number per family, 4.3.

O

#### COUNTIES,

APACHE.--Organized from part of Yavapai in 1879; part taken to form part of Graham in 1881; part taken to form Navajo in 1895.

COCHISE .- Organized from part of Pima in 1881.

COCONTNO .- Organized from part of Yavapai in 1891.

GILA .--- Organized from parts of Maricopa and Pinal in 1881.

GRAHAM .- Organized from parts of Apache and Pima in 1881.

MARICOPA.—Organized from part of Yavapai in 1871; part of Pima annexed in 1873; parts taken to form part of Pinal in 1875 and part of Gila in 1881. NAVAJO.—Organized from part of Apache in 1895.

PIMA.—Part taken to form part of Pinal in 1875; parts annexed to Maricopa in 1873 and Pinal in 1877; parts taken to form Cochise and part of Graham in 1881 and Santa Cruz in 1899.

PINAL.-Organized from parts of Maricopa, Pima, and Yavapai in 1875; part of Pima annexed in 1877; part taken to form part of Gila in 1881. SANTA CRUZ.—Organized from part of Pima in 1899.

YAVAPAI.—Parts taken to form Maricopa in 1871, Apache in 1879, Coconino in 1891, and part of Pinal in 1875.

Norm 1.—Population for Gila County and estimated population (2,272) for that part of San Carlos Indian Reservation now in Gila County—1900, 7,245; increase,

1900-1910, 9,103; per cent of increase, 125.6. Rural population-1910, 9,265; same ter-ritory in 1900, 5,750; per cent of increase, 1900-1910, 61.1. Rural population-1900, 7,245.

NOTE 2.—Population for Graham County and estimated population (793) for that part of San Carlos Indian Reservation now in Graham County—1900, 14,955; increase, 1900-1910, 9,044; per cent of increase, 60.5. Rural population—1910, 19,125; same territory in 1900, 14,955; per cent of increase, 1900-1910, 27.9. Rural popula-tion—1900, 14,955.

Norz 3.—In computing this increase the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make that total comparable with the total for 1890 which does not include the population of Indian reservations. The population thus deducted in the soveral counties was as follows: Apache, 5,341; Coconino, 1,113; Gila, 708; Maricopa, 2,451; Navajo, 5,027; Pima, 1,543; Pinal, 2,954; Yuma, 558.

YUMA .--- Incorporated in 1902.

## THIRTEENTH CENSUS OF THE UNITED STATES: 1910

### DEPARTMENT OF COMMERCE AND LABOR

# BULLETIN

BUREAU OF THE CENSUS E. DANA DURAND, DIRECTOR

# **POPULATION : ARKANSAS**

COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Arkansas gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportion urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census, except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of four general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for Little Rock, the only city of more than 25,000 inhabitants; Table III for cities of 10,000 to 25,000; and Table IV for places of 2,500 to 10,000.

A series of summary tables (numbered 1 to 14) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural. The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time from September 1, 1909, to the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age and over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).—Of the total population of Arkansas, 1,131,026, or 71.8 per cent, are whites, and 442,891, or 28.1 per cent, negroes. The corresponding percentages in 1900 were 72 and 28. In 14 of the 75 counties more than half of the population are negroes, the highest percentages being 84.6 in Crittenden County, 80.4 in Chicot, 79.4 in Desha, 78.6 in Phillips, and 78.4 in Lee; in 26 counties, on the other hand, negroes form less than 5 per cent of the total. (See map on a following page.)

Native whites of native parentage constitute 68.4 per cent of the total population of the state, and 95.3 per cent of the white population. Native whites of foreign or mixed parentage constitute only 2.3 per cent of the total population, and foreign-born whites 1.1 per cent.

Of the urban population, 61 per cent are native whites of native parentage; of the rural population, 69.5 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 6.7 and 1.7 per cent, respectively. The percentage of foreign-born whites is 3 in the urban population and 0.8 in the rural; the percentage of negroes is 29.2 in the urban and 28 in the rural.

Sex (Table 2).—In the total population of the state there are 810,026 males and 764,423 females, or 106 males to 100 females. In 1900 the ratio was 106.1 to 100. Among the whites there are 107.7 males to 100 females; among the negroes 101.7. For all native whites combined the ratio is 107 to 100, as compared with 168.3 to 100 for the foreign-born whites. In the urban population there are 100.4 and in the rural 106.8 males to 100 females, the urban population being very nearly evenly divided by sex, while in the rural the males outnumber the females.

State of birth (Tables 3 and 4).—Of the native population—that is, population born in the United States— 67.8 per cent were born in Arkansas and 32.2 per cent outside the state; of the native white population, 31.8 per cent were born outside the state, and of the native negro, 33.1 per cent. Persons born outside the state constitute a much larger proportion of the native population in urban than in rural communities.

13-4-12

9-12

Foreign nationalities (Table 5).—Of the foreignborn white population, persons born in Germany represent 34.4 per cent; Italy, 10; England, 9; Austria, 7.5; Ireland, 6.4; Canada, 6.3; Switzerland, 4.8; Russia, 4.5; Scotland, 2.6; France, 2.3; Sweden, 2.3; other countries, of which 8 are specified in Table 5, 10.2 per cent. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 38.5 per cent; England, 10.7; Ireland, 10.4; Canada, 5.7; Italy, 5; Austria, 4.8; Switzerland, 3.7; Scotland, 3.2; France, 2.6; Russia, 2.6 per cent.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 395,824, representing 25.1 per cent of the population. Of such males, 71.8 per cent are white and 28.1 per cent negroes. Native whites represent 69.4 per cent of the total number and foreign-born whites 2.5 per cent. Of the 9,718 foreign-born white males of voting age, 5,284, or 54.4 per cent, are naturalized. Males of militia age—18 to 44—number 311,792.

Age (Tables 7, 8, and 12).—Of the total population, 14.7 per cent are under 5 years of age, 24.7 per cent from 5 to 14 years, inclusive, 20.6 per cent from 15 to 24, 25.1 per cent from 25 to 44, and 14.7 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 5 per cent of this class being under 15 years of age, while more than five sixths (85.4 per cent) are 25 years of age and over. The negro population comprises a somewhat smaller proportion of children under 5 than the native white population of native parentage.

The urban population shows a smaller proportion of children than the rural, and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 33.2 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 23.9 per cent.

School attendance (Table 9).-The total number of persons of school age-that is, from 6 to 20 years, inclusive-is 551,672, of whom 324,035, or 58.7 per cent, attended school. In addition to these, 4,324 persons under 6 and 5,436 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 58.7; for girls, 58.8. For children from 6 to 14 years, inclusive, the percentage attending school was 70.1. The percentage for children of this age was highest in the small group of native whites of foreign or mixed parentage, 81.2, followed by native whites of native parentage, 74.7; negroes, 58.2; and foreign-born whites, 55.8. (See Table I.) In urban communities the percentage of children of that age attending school was 82.3; in rural communities, 68.8.

Illiteracy (Table 10).—There are 142,954 illiterates in the state, representing 12.6 per cent of the total population 10 years of age and over, as compared with 20.4 per cent in 1900. The percentage of illiteracy is 26.4 among negroes, 8.9 among foreign-born whites, 7.1 among native whites of native parentage, and 2.8 among native whites of foreign or mixed parentage.

Illiterates are relatively fewer in urban than in rural communities, the percentages being 6.4 and 13.6, respectively. This difference between urban and rural communities appears in each class of the population, although in other sections of the country the percentage for foreign-born whites, most of whom arrive in this country when past the school age, is practically the same in urban as in rural communities.

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 7.8. (See Table I.)

Marital condition (Tables 11 and 13).—In the population 15 years of age and over, 34.3 per cent of the males are single and 23.7 per cent of the females. The percentage married is 58.9 for males and 64 for females; and the percentage widowed 5.9 and 11.3, respectively. The percentages divorced, 0.5 and 0.8, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due largely to the fact that they marry younger. Thus, 21.1 per cent of the females from 15 to 19 years of age are married, as compared with 2 per cent of the males; and 65.2 per cent of the females from 20 to 24 years are married, as compared with 35.9 per cent of the males. For those from 25 to 34 the percentages are, respectively, 83.3 and 73.7. In the next age group, 35 to 44 years, the difference practically disappears. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For each of the main elements of the population the percentage of married persons among those over 15 years of age is as follows: Foreign-born whites, 63.9 for males, 69 for females; native whites of native parentage, 59.2 and 65.5, respectively; native whites of foreign or mixed parentage, 53.8 and 58.4, respectively; negroes, 58.1 for males and 60.9 for females.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married, for each sex, is higher in rural than in urban communities.

Dwellings and families.—The total number of dwellings in Arkansas is 327,625, and the total number of families 333,368, indicating that in very few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.8, and the average number per family 4.7.

#### NOTES REGARDING CHANGES IN BOUNDARIES, ETC.

#### COUNTIES.

AREANSAS.-Part taken to form part of Lincoln in 1871 and part annexed to Jefferson between 1880 and 1890; part of Desha annexed between 1880 and 1890. BAXTER .- Organized from parts of Fulton, Izard, Marion, and Searcy in 1873. BRADLEY .- Part taken to form part of Cleveland in 1873.

CHICOT.-Part annexed to Desha in 1879.

CLARK .- Parts annexed to Hot Spring in 1872 and Pike in 1873 and 1876.

CLAY,-Organized from parts of Greene and Randolph in 1873 and part of Greene annexed between 1890 and 1900.

CLEBURNE .- Organized from parts of Independence, Van Buren, and White in 1883.

CLEVELAND .- Organized as Dorsey, from parts of Bradley, Dallas, Jefferson, and Lincoln in 1873; name changed in 1885.

COLUMBIA.—Part taken to form part of Nevada in 1871 and part annexed to Lafayette in 1901.

CONWAY .- Part taken to form part of Faulkner in 1873; part of Perry annexed in 1873

CRAWFORD .- Part of Franklin annexed between 1890 and 1900.

CRITTENDEN .- Part taken to form part of Lee and part annexed to St. Francis in 1873.

DALLAS .- Part taken to form part of Cleveland in 1873.

DESHA.-Part taken to form part of Lincoln in 1871; parts of Chicot and Lincoln annexed in 1879; part annexed to Arkansas County between 1880 and 1890. DREW .- Part taken to form part of Lincoln in 1871.

FAULKNER.-Organized from parts of Conway and Pulaski in 1873.

FRANKLIN.-Part taken to form part of Logan in 1871; part of Madison annexed in 1885; part annexed to Crawford between 1890 and 1900,

FULTON .- Part taken to form part of Baxter and part annexed to Izard in 1873. GARLAND .- Organized from parts of Hot Spring, Montgomery, and Saline in 1873. GREENE. — Part taken to form part of Clay in 1873; part of Randolph annexed in 1873; part annexed to Clay between 1800 and 1900.

HEMPSTEAD .- Parts taken to form parts of Nevada and Howard in 1871 and 1873, respectively.

HOT SPENCE — Parts of Clark and Montgomery annexed in 1872 and 1873, respec-tively; part taken to form part of Garland in 1873 and part annexed to Saline in 1875. HOWARD.—Organized from parts of Hempstead, Pike, Polk, and Sevier in 1873; part annexed to Sevier between 1890 and 1900.

INDEPENDENCE.—Part taken to form part of Stone and part annexed to Izard in 1873; part annexed to Sharp in 1875; and part taken to form part of Cleburne in 1883.

IZARD.—Parts taken to form parts of Baxter and Stone in 1873; parts of Fulton and Independence annexed in 1873. JEFFERSON,—Parts taken to form parts of Lincoln and Cleveland in 1871 and 1873, respectively; part of Arkansas County annexed between 1880 and 1890.

JOHNSON.-Part taken to form part of Logan in 1871; part of Pope annexed in 1877. LAFAYETTE .- Part taken to form Miller in 1875; part of Columbia annexed in 1901. LEE.-Organized from parts of Crittenden, Monroe, Phillips, and St. Francis in 1873.

LINCOLM.—Organized from parts of Arkansas, Desha, Drew, and Jofferson in 1871; part taken to form part of Cleveland in 1873 and part annexed to Desha in 1879. LOGAN.-Organized from parts of Franklin, Johnson, Scott, and Yell in 1871; part of Scott annexed in 1903.

LONGER.—Organized from parts of Prairie and Pulaski in 1873; part annexed to Pulaski in 1875; part of Prairie annexed between 1880 and 1890.

MADISON .- Part annexed to Franklin in 1885.

MARION.-Part takèn to form part of Baxter in 1873; part of Searcy annexed in 1875.

MILLER.-Organized from part of Lafayette in 1875.

MISSISSIPPI.-Island No. 25 ceded from Lauderdale, Tenn., and annexed in 1905. MONROR.—Part taken to form part of Lee and parts annexed to Phillips and St. Francis in 1873; part of Prairie annexed between 1880 and 1890.

MONTGOMERY .- Part taken to form part of Garland and part annexed to Hot Spring in 1873.

NEVADA.-Organized from parts of Columbia, Hempstead, and Ouachita in 1871. OUACHITA .- Part taken to form part of Nevada in 1871.

PERRY .-- Part annexed to Conway in 1873,

PHILLIPS.-Part taken to form part of Lee in 1873; part of Monroe annexed in 1873. PIRE.—Part taken to form part of Howard in 1873, parts of Monroe annexed in 1873, and 1876.

POLK .- Part taken to form part of Howard in 1873.

POPE .- Part annexed to Johnson in 1877.

PRAIRIE.—Part taken to form part of Lonoke in 1873; parts of White and Wood-ruff annexed in 1875; parts annexed to Lonoke and Monroo between 1880 and 1890. PULASKI.—Parts taken to form parts of Faulkner and Lonoke in 1873 and parts annexed to Saline in 1873 and 1875; parts of Lonoke and Saline annexed in 1875. RANDOLFH.—Part taken to form part of Clay and part annexed to Greene in 1873.

ST. FRANCIS.-Part taken to form part of Lee in 1873; parts of Crittenden and Monroe annexed in 1873.

SALINE.—Part taken to form part of Garland in 1873; part of Pulaski annexed in 1873 and parts of Pulaski and Hot Spring annexed in 1875; part annexed to Pulaski in 1875.

Scorr.—Part taken to form part of Logan in 1871 and part annexed to Logan in 1903.

SEARCY .-- Parts taken to form parts of Baxter and Stone in 1873 and part annexed to Marion in 1875. SEBASTIAN.-Part of Indian Territory annexed in 1905.

SEVIER.—Part taken to form part of Howard in 1873; part of Howard annexed between 1890 and 1900.

SHARP .- Part of Independence annoxed in 1875.

STONE .- Organized from parts of Independence, Izard, Searcy, and Van Buren in 1873. VAN BUREN.-Parts taken to form part of Stone in 1873 and part of Cleburne in 1883.

WHITE .- Part annexed to Prairie in 1875 and part taken to form part of Cleburne

WOODRUFF.-Part annexed to Prairie in 1875.

#### CITIES

ARGENTA.--Incorporated from that part of Little Rock city (ward 8) in Hill township, in 1904; consolidated with Baring Cross town in 1905. FORT SMFR.--Part of Indian Territory annoxed in 1905 and part of Upper town-

ship annexed in 1909.

HOT SPRINGS .- Part of Hot Springs township annexed in 1906.

LITTLE ROCK .- Part taken to form Argenta city in 1904.

PINE BLUFF .- Parts of Vaugine township annexed in 1903 and 1904.

in 1883.

Ο

YELL.-Part taken to form part of Logan in 1871.

## THIRTEENTH CENSUS OF THE UNITED STATES: 1910

DEPARTMENT OF COMMERCE AND LABOR BULLETIN

BUREAU OF THE CENSUS E. DANA DURAND, DIRECTOR

# **POPULATION : CALIFORNIA**

### COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for California gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for cities of more than 25,000 inhabitants; Table III for cities of 10,000 to 25,000; Table IV for places of 2,500 to 10,000; and Table V for wards or assembly districts of the three cities of more than 50,000.

A series of summary tables (numbered 1 to 17) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had 13-5-12 5540 attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1) .- Of the total population of California, 1,106,533, or 46.5 per cent, are native whites of native parentage; 635,889, or 26.8 per cent. are native whites of foreign or mixed parentage; and 517,250, or 21.8 per cent, are foreign-born whites. The corresponding percentages in 1900 were 43.4, 29.7, and 21.3, respectively, the proportion of native whites of native parentage increasing somewhat during the decade. In 1910 Japanese constituted 1.7 per cent of the population; Chinese, 1.5; negroes, 0.9; and Indians, 0.7. In 8 of the 58 counties the foreign-born whites represent as much as onefourth of the population, the percentage being highest (32) in San Mateo. The proportion of native whites of foreign or mixed parentage exceeds one-fourth in 24 counties and is highest in San Francisco County (36.9 per cent). (See maps on a following page.)

Of the urban population, 44.4 per cent are native whites of native parentage; of the rural, 50 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 28.8 and 23.5 per cent, respectively; for foreign-born whites 22.6 and 20.4 per cent. The percentage of Chinese and Japanese is 3 in the urban and 3.8 in the rural.

Sex (Tables 2 and 14).—In the total population of the state there are 1,322,978 males and 1,054,571 females, or 125.5 males to 100 females. In 1900 the ratio was 123.5 to 100. Among native whites the ratio is 108.7 to 100 and among foreign-born whites, 169.6 to 100. In the urban population there are 113.6 males to 100 females, and in the rural, 147.8.

State of birth (Tables 3 and 4).—Of the native population—that is, population born in the United States— 50.5 per cent were born in California and 49.5 per cent outside the state; of the native white population, 49.9 per cent were born outside the state; of the native negro, 75.6 per cent; and of the native Indian, 6.4 per cent. Persons born outside the state constitute a larger proportion of the native population in urban than in rural communities.

er Foreign nationalities (Tables 5 and 12).—Of the foreign-born white population of California, persons born in Germany represent 14.8 per cent; Italy, 12.3; Ireland, 10.1; England, 9.4; Canada, 8.6: Mexico, 6.5; 55465°-12—1 1—13 Sweden, 5.1; Portugal, 4.3; France, 3.4; Austria, 3.3; Russia, 3.2; all other countries, 18.8 per cent. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 17.9 per cent; Ireland, 13.8; England, 10; Italy, 8.9; Canada, 8.4; Portugal, 4.5; Mexico, 4.4; Sweden, 4; France, 2.8; Scotland, 2.8; Switzerland, 2.4; Russia, 2.4; Denmark, 2.3 per cent.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 920,397, representing 38.7 per cent of the population. Of such males, 40 per cent are native whites of native parentage, 19.7 per cent native whites of foreign or mixed parentage, 32.3 per cent foreign-born whites, 6.5 per cent Chinese and Japanese, 0.9 per cent negroes, and 0.5 per cent Indians. Of the 297,365 foreign-born white males of voting age, 137,274, or 46.2 per cent, are naturalized. Males of militia age— 18 to 44—number 665,522.

Age (Tables 7, 8, 13, and 14).—Of the total population, 8.1 per cent are under 5 years of age, 14.7 per cent from 5 to 14 years, inclusive, 18 per cent fr om15 to 24, 35.7 per cent from 25 to 44, and 23.1 per cent 45 years and over. The proportion of children is low among the foreign-born whites, negroes, Chinese, and Japanese. Only 4.2 per cent of the foreign-born whites are under 15 years of age, while 82.9 per cent are 25 years of age and over. Of the native whites of foreign or mixed parentage, 47.5 per cent are 25 and over, and of the native whites of native parentage, 52.9 per cent.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 37.3 per cent are from 25 to 44 years of age, inclusive, and of the rural, 32.9 per cent.

School attendance (Table 9).-The total number of persons of school age-that is, from 6 to 20 years, inclusive-is 555,554, of whom 361,077, or 65 per cent, attended school. In addition to these, 6,788 children under 6 and 9,801 persons of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 63.1; for girls, 67. For children from 6 to 14 years, inclusive, the percentage attending school was 86.9. The percentage for children of this age among native whites of native parentage was 87.4; among native whites of foreign or mixed parentage, 88.1; among foreignborn whites, 82.3; among negroes, 88.4; among Indians, 61.4; among Chinese, 70.1; and among Japanese, 61.5. (See Table 9.) For all classes combined, the percentage attending school is somewhat higher in urban than in rural communities.

Illiteracy (Table 10).—There are 74,902 illiterates in the state, representing 3.7 per cent of the total population 10 years of age and over, as compared with 4.8 per cent in 1900. The percentage of illiteracy is 0.5 among native whites, 10 among foreign-born whites, 7.1 among negroes, 49 among Indians, 1.5.5 among Chinese, and 8.6 among Japanese.

For all classes combined, the percentage of illitorial initial is 2.4 in urban communities and 5.9 in rural. From each class separately, the rural percentage exercises the urban, the differences in some cases being vertex marked.

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present science facilities and school attendance, the percentage of illiteracy is 1.7. (See Table I.)

Marital condition (Tables 11 and 16).—In the popullation 15 years of age and over, 45.8 per cent of the males are single and 27.9 per cent of the females. The percentage married is 47.3 for males and 58.4 for females; and the percentage widowed 4.4 and 12.2, respectively. The percentages of those reported as divorced, 1 and 1.3, respectively, are believed to be too small, because of the probability that many clivorced persons class themselves as single or widowerd.

That the percentage single is so much smaller for women than for men is due partly to the excess ...f males in the total population, and partly to the furth that women marry younger. Thus 9.1 per cent ...f the females from 15 to 19 years of age are married, compared with 0.6 per cent of the males; and 47.2 per cent of the females from 20 to 24 years are marries, as compared with 14.8 per cent of the males. In this next age group, 25 to 34 years, the percentages are 72.4 and 46, respectively. In the age group 35 to -1-1 the difference is less marked, while among those agent 45 and over the percentage for males exceeds that for females. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband there by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 49.8 for males and 65.1 for females; native whites of native parentage, 49.7 and 57.6, respectively; native whites of foreign or mixed parentage, 42.4 and 53.5; negrocs, 48.9 and 55.8; Indians, 50.3 and 59.2; Chinese, 44.7 and 69; Japanese, 28 and 86.8.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for males is higher in the urban population, for females in the rural.

Dwellings and families.—The total number of dwellings in California is 513,481, and the total number of families 563,636, there being 109.8 families to each 100 dwellings. (See Table I.) The average number of persons per dwelling is 4.6, and the average number per family, 4.2.

#### NOTES REGARDING CHANGES IN BOUNDARIES, ETC.

#### COUNTIES.

COLUSA-Part taken to form Glenn in 1891. DEL NORTE-Part annexed to Siskivou between 1880 and 1890. FRESNO-Part taken to form Madera in 1893 and part annexed to Kings in 1909. GLENN-Organized from part of Colusa in 1891. HUMBOLDT-Part of Klamath annexed in 1874. IMPERIAL-Organized from part of San Diego in 1907. (See also Note 1.) KINGS-Organized from part of Tulare in 1893 and part of Fresno annexed in 1909 LAKE-Part annexed to Napa in 1872. LOS ANGELES-Part taken to form Orange in 1889. MADERA-Organized from part of Fresno in 1893.

MODOC-Organized from part of Siskiyou in 1874.

MONTEREY-Part taken to form San Benito in 1874.

NAPA-Part of Lake annexed in 1872.

ORANGE-Organized from part of Los Angeles in 1889.

RIVERSIDE-Organized from parts of San Bernardino and San Diego in 1893.

SAN BENITO-Organized from part of Monterey in 1874.

SAN BERNARDINO-Part taken to form part of Riverside in 1893.

SAN DIEGO-Part taken to form part of Riverside in 1893; part taken to form Imperial in 1907. (See also Note 1.) SANTA BARBARA-Part taken to form Ventura in 1871.

SISITYOU-Pert taken to form Modoe in 1874; part of Klamath annexed in 1874 and part of Del Norte annexed between 1880 and 1800.

TULARE-Part taken to form Kings in 1893.

VENTURA-Organized from part of Santa Barbara in 1871.

INCORPORATED PLACES.

ALHAMBRA-Incorporated in 1903.

BAKERSFIELD-Part of township 3 (Kern City) annexed in 1909.

BERKELEY-Parts of Oakland township annexed in 1906 and 1908.

COALINGA-Incorporated in 1906.

FRESNO-Part of township 3 annexed in 1910. GLENDALE-Incorporated in 1906.

Lodi-Incorporated in 1906.

LOS ANGELES-Parts of Ballona, Burbank, Cahuenga, and San Antonio town-ships annexed between 1890 and 1900; part of Ballona township annexed in 1906; part of Wilmington township (including San Pedro city) annexed in 1909, and parts of Burbank and Cahuenga townships annexed in 1910. MILL VALLEY-Incorporated in 1900.

OAKLAND-Parts of Brooklyn and Oakland townships annexed in 1909.

OCEAN PARK-Incorporated in 1904.

ONTARIO-Part of Ontario township annexed in 1901.

OROVILLE-Incorporated in 1906.

OXNARD-Incorporated in 1903.

PASADENA-Parts of Pasadena township annexed in 1904 and 1906.

PORTERVILLE-Incorporated in 1902.

RICHMOND-Incorporated in 1908.

ROSEVILLE-Incorporated in 1909.

SAN LEANDRO-Part of Brooklyn township annexed in 1909.

NOTE 1.—Imperial and San Diego Counties combined.—Total population: 1910, 75,256; 1900, 35,090; increase, 1900–1910, 40,166; per cent of increase, 114.5. Urban population—1910, 39,578; same places in 1900, 17,700; per cent of increase, 123.6. Rural population—1910, 35,678; same territory in 1900, 17,390; per cent of increase, 105.2. Urban population—1900, 17,700; rural population—1900, 17,390. Per cent in places of 2,500 or more in 1910, 52.6. Per cent in places of 2,500 or more in 1900, 50.4.

Nore 2.—In computing this increase the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make that total comparable with the total for 1890, which does not include the population of Indian reservations. The population thus deducted in the several counties was as follows: Humboldt, 1,112; Mendocino, 599; Riverside, 203; San Diego, 817; Tulare, 143.

### THIRTEENTH CENSUS OF THE UNITED STATES: 1910

DEPARTMENT OF COMMERCE AND LABOR BULLETIN

BUREAU OF THE CENSUS E. DANA DURAND, DIRECTOR

# POPULATION : COLORADO

#### COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM, C. HUNT, Chief Statistician for Population

The first population bulletin for Colorado gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportion urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for the three cities of more than 25,000 inhabitants; Table III for Trinidad, the only city of 10,000 to 25,000; Table IV for places of 2,500 to 10,000; and Table V for wards of Denver, the only city of more than 50,000 inhabitants.

A series of summary tables (numbered 1 to 15) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural. The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time from September 1, 1909, to the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).-Of the total population of Colorado, 475,136, or 59.5 per cent, are native whites of native parentage; 181,428, or 22.7 per cent, are native whites of foreign or mixed parentage; 126,851, or 15.9 per cent, are foreign-born whites; and 11,453, or 1.4 per cent, are negroes. The corresponding percentages in 1900 were 57.7, 23.6, 16.8, and 1.6, respectively, the comparison indicating very slight changes in the color, nativity, and parentage composition of the population. Among the individual counties the proportion of whites of foreign birth ranges from less than 5 per cent in 3 counties to 43.8 per cent in San Juan, and the proportion of native whites of foreign or mixed parentage from 7 per cent in Costilla County to 43.6 per cent in Gilpin. (See maps on a following page.)

Of the urban population, 56.9 per cent are native whites of native parentage; of the rural population, 62.1 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 24.7 and 20.7 per cent, respectively. The percentage of foreign-born whites is 15.7 in the urban population and 16 in the rural; the percentage of negroes is 2.3 in the urban and 0.5 in the rural.

Sex (Table 2).—In the total population of the state there are 430,697 males and 368,327 females, or 116.9 males to 100 females. In 1900 the ratio was 120.9 to 100. Among native whites the ratio is 109.7; among foreign-born whites 160.1. In the urban population there are 104.4 males to 100 females, and in the rural, 131.5.

State of birth (Tables 3 and 4).—Of the native population—that is, population born in the United States—34.9 per cent were born in Colorado and 65.1 per cent outside the state; of the native white population, 64.9 per cent were born outside the state, and of the native negro, 81 per cent. Persons born outside the state constitute a somewhat larger proportion of the native population in urban than in rural communities.

Foreign nationalities (Tables 5 and 12).—Of the foreign-born white population, persons born in Germany represent 13.5 per cent; Italy, 11.3; Russia, 10.7; Austria, 10.3; England, 10.2; Sweden, 9.8;

13 - 6 - 12

Canada, 7.5; Ireland, 6.9; Scotland, 3.4; Denmark, 2.2; Mexico, 2; all other countries, 12.4 per cent. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 18.1 per cent; England, 11.9; Ireland, 10.7; Sweden, 8.2; Canada, 7.8; Italy, 7.8; Russia, 7.3; Austria, 6.9; Scotland, 3.8; Denmark, 1.9 per cent.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 271,648, representing 34 per cent of the population. Of such males, 54.2 per cent are native whites of native parentage, 17.2 per cent native whites of foreign or mixed parentage, 26 per cent foreign-born whites, and 1.6 per cent negroes. Of the 70,514 foreign-born white males of voting age, 35,245, or 50 per cent, are naturalized. Males of militia age—18 to 44—number 203,982.

Age (Tables 7, 8, and 13).—Of the total population, 10.3 per cent are under 5 years of age, 18.2 per cent from 5 to 14 years, inclusive, 18.8 per cent from 15 to 24, 33.1 per cent from 25 to 44, and 19.2 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 5.6 per cent of this class being under 15 years of age, while more than four-fifths (81.1 per cent) are 25 years of age and over. Of the native whites of foreign or mixed parentage, only 41.8 per cent are 25 and over, and of the native whites of native parentage, 48.5 per cent.

The urban population shows a somewhat smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 35.5 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 30.7 per cent.

School attendance (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 215,940, of whom 147,626, or 68.4 per cent, attended school. In addition to these, 2,483 persons under 6 and 3,303 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 67.4; for girls, 69.3. For children from 6 to 14 years, inclusive, the percentage attending school was 86.7. The percentage for children of this age among native whites of foreign or mixed parentage was 88.4; among native whites of native parentage, 86.4; among negroes, 85.4; and among foreign-born whites, 81.7. (See Table I.) In urban communities the percentage of children of that age attending school was 89.3, in rural communities, 84.6.

Illiteracy (Table 10).—There are 23,780 illiterates in the state, representing 3.7 per cent of the total population 10 years of age and over, as compared with 4.2 per cent in 1900. The percentage of illiteracy is 11.3 among foreign-born whites, 8.6 among negroes, and 1.6 among native whites, these percentages being lower than the corresponding figures for 1900 for each class except the foreign-born whites, whose percentage of illiteracy in 1900 was 8.1. For all classes combined, the proportion of illiterates is lower in urban than in rural communities, the percentages being 2.4 and 5.2, respectively.

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 1.6. (See Table I.)

Marital condition (Tables 11 and 14).—In the population 15 years of age and over, 41.2 per cent of the males are single, and 25.8 per cent of the females. The percentage married is 53.2 for males and 62.8 for females, and the percentage widowed, 4.3 and 10.1, respectively. The percentages of those reported as divorced, 0.9 and 1.2, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is partly accounted for by the excess of males in the total population, but is due largely to the fact that women marry younger. Thus 12.4 per cent of the females from 15 to 19 years of age are married, as compared with 0.8 per cent of the males, and 53.8 per cent of the females from 20 to 24 years are married, as compared with 19.9 per cent of the males. In the next age group, 25 to 34 years, the percentages are 78 for females and 56.5 for males, while in the age group 35 to 44 the difference is much less, and of those aged 45 and over a larger percentage are married among males than among females. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 57.6 for males and 72 for females; native whites of native parentage, 54.1 and 62.5, respectively; native whites of foreign or mixed parentage, 46.1 and 56.5, respectively; negroes, 54.8 for males and 57.2 for females.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for males is higher in urban communities, but for females it is higher in rural.

Dwellings and families.—The total number of dwellings in Colorado is 183,874, and the total number of families, 194,467, indicating that in very few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.3, and the average number per family, 4.1.
