

## POPULATION : MISSISSIPPI

## COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Mississippi gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

**Description of the tables.**—The greater part of this second bulletin consists of three general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for cities of more than 10,000 inhabitants; and Table III for cities of 2,500 to 10,000 inhabitants.

A series of summary tables (numbered 1 to 12) reproduces from the general tables the more important state totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910. The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

**Color and nativity** (Table 1).—Of the total population of Mississippi, 786,111, or 43.7 per cent, are whites, and 1,009,487, or 56.2 per cent, negroes. The corresponding percentages in 1900 were 41.3 and 58.5, respectively. In 38 of the 79 counties the population is more than one-half negro, and in 17 more than three-fourths negro, the highest percentage of negroes being that for Issaquena County (94.2). (See map on page 7.)

Native whites of native parentage constitute 42.1 per cent of the total population of the state, and 96.3 per cent of the white population. Native whites of foreign or mixed parentage constitute only 1.1 per cent of the total population, and foreign-born whites 0.5 per cent.

Of the urban population, 46.7 per cent are native whites of native parentage; of the rural, 41.5 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 5 and 0.5 per cent, respectively. The percentage of foreign-born whites is 2.2 in the urban population and 0.3 in the rural; the percentage of negroes is 46 in the urban and 57.5 in the rural.

**Sex** (Table 2).—In the total population of the state there are 905,760 males and 891,354 females, or 101.6 males to 100 females. In 1900 the ratio was 101.5 to 100. Among the whites there are 104.7 males to 100 females; among the negroes, 99.2. Among native whites the ratio is 104.1 to 100, as compared with 173.7 to 100 for the foreign-born whites. In the urban population there are 90.9 males to 100 females, and in the rural, 103.1.

**State of birth** (Tables 3 and 4).—Of the total native population—that is, population born in the United States—87.5 per cent were born in Mississippi and 12.5 per cent outside the state; of the native white population, 14.7 per cent were born outside the state, and of the native negro, 10.9 per cent. Persons born outside the state constitute a much larger proportion of the native population in urban than in rural communities.

**Foreign nationalities** (Table 5).—Of the foreign-born white population of Mississippi, persons born in Italy represent 22.8 per cent; Germany, 17.7; Russia, 9.8; England, 8.2; Ireland, 8; Turkey, 5.9; Canada, 4.6; Austria, 4.4; Sweden, 3.1; France, 3.1; all other countries, 12.5 per cent. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 23 per cent; Ireland, 15.4; Italy, 13.4; England, 10.1; Russia, 5.6; France, 4.4; Canada, 3.9; Austria, 3.3; Turkey, 3; Scotland, 3; Sweden, 2.6 per cent.

**Voting and militia ages** (Table 6).—The total number of males 21 years of age and over is 426,953, representing 23.8 per cent of the population. Of such males, 45.1 per cent are whites and 54.7 per cent negroes. Native whites represent 43.9 per cent of the total number and foreign-born whites 1.2 per cent. Of the 5,235 foreign-born white males of voting age, 2,445, or 46.7 per cent, are naturalized. Males of militia age—18 to 44—number 345,745.

**Age** (Tables 7 and 8).—Of the total population, 14.4 per cent are under 5 years of age, 25.8 per cent from 5 to 14 years, inclusive, 20.7 per cent from 15 to 24, 25 per cent from 25 to 44, and 13.7 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 7.6 per cent of this class being under 15 years of age, while nearly four-fifths (79.3 per cent) are 25 years of age and over. The proportion of children under 15 is the same (40.6 per cent) for the native whites of native parentage and the negroes; the proportion under 5, however, is somewhat higher among the native whites of native parentage.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 32.4 per cent are from 25 to 44 years of age, inclusive, and of the rural, 24 per cent.

**School attendance** (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 644,805, of whom 388,072, or 60.2 per cent, attended school. In addition to these, 14,913 persons under 6 and 5,690 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 59.7; for girls, 60.7. For children from 6 to 14 years, inclusive, the percentage attending school was 72.2. The percentage for children of this age among native whites of native parentage was 84.2; among native whites of foreign or mixed parentage, 82.9; among foreign-born whites, 44; and among negroes, 63.7. (See Table I.) In urban communities the percentage of children of that age attending school was 79.9, and in rural, 71.5.

**Illiteracy** (Table 10).—There are 290,235 illiterates in the state, representing 22.4 per cent of the total population 10 years of age and over, as compared with

32 per cent in 1900. The percentage of illiteracy is 35.6 among negroes, 15.1 among foreign-born whites, and 5.2 among native whites. It is 5.3 for native whites of native parentage and 2.2 for native whites of foreign or mixed parentage.

For each class of the population the percentage of illiterates in the rural population greatly exceeds that in the urban; and for all classes combined the percentage is 23.8 in the rural population as against 13 in the urban.

For persons from 10 to 20 years, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 14.4. (See Table I.)

**Marital condition** (Table 11).—In the population 15 years of age and over, 34.3 per cent of the males are single and 25.6 per cent of the females. The percentage married is 59.5 for males and 60.7 for females, and the percentage widowed 5.2 and 12.5, respectively. The percentages of those reported as divorced, 0.5 and 0.9, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due largely to the fact that women marry younger. Thus 19.6 per cent of the females from 15 to 19 years of age are married, as compared with 2.3 per cent of the males, and 62.1 per cent of the females from 20 to 24 years are married, as compared with 38.6 per cent of the males. In the next age group, 25 to 34 years, the difference largely disappears. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 64.2 for males, 64.7 for females; native whites of native parentage, 58.6 and 61.5, respectively; native whites of foreign or mixed parentage, 55.6 and 53.6; negroes, 60.3 and 60.2.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married, both for males and females, is higher in rural than in urban communities.

**Dwellings and families**.—The total number of dwellings in Mississippi is 376,420, and the total number of families 384,724, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.8, and the average number per family, 4.7.

## NOTES REGARDING CHANGES IN BOUNDARIES, ETC.

## COUNTIES.

ALCORN.—Organized from parts of Tippah and Tishomingo in 1870.  
 AMITE.—Part taken to form part of Lincoln in 1870.  
 BENTON.—Organized from parts of Marshall and Tippah in 1870.  
 CARROLL.—Parts taken to form part of Grenada in 1870 and parts of Leflore and Montgomery in 1871.  
 CHICKASAW.—Parts taken to form part of Clay in 1872 and part of Webster in 1874.  
 CHOCTAW.—Parts taken to form parts of Grenada in 1870, part of Montgomery in 1871, and part of Webster in 1874; part of Winston annexed in 1874.  
 CLAY.—Name changed from Colfax in 1876. Organized from parts of Chickasaw, Lowndes, Monroe, and Oktibbeha in 1872.  
 COAHOMA.—Part taken to form part of Quitman in 1877.  
 COPIAH.—Part taken to form part of Lincoln in 1870.  
 COVINGTON.—Part taken to form part of Jefferson Davis in 1900. (See also Note 1.)  
 DE SOTO.—Part taken to form part of Tate in 1873.  
 FORREST.—Organized from part of Perry in 1908. (See also Note 2.)  
 FRANKLIN.—Part taken to form part of Lincoln in 1870.  
 GEORGE.—Organized from parts of Greene and Jackson in 1910. (See also Note 3.)  
 GREENE.—Part taken to form part of George in 1910. (See also Note 3.)  
 GRENADA.—Organized from parts of Carroll, Choctaw, Tallahatchie, and Yalobusha in 1870.  
 HANCOCK.—Part taken to form part of Pearl River in 1890 and part annexed to Pearl River in 1908.  
 ISSAQUENA.—Part taken to form part of Sharkey in 1876.  
 JACKSON.—Part taken to form part of George in 1910. (See also Note 3.)  
 JEFFERSON DAVIS.—Organized from parts of Covington and Lawrence in 1906. (See also Note 1.)  
 LAMAR.—Organized from parts of Marion and Pearl River in 1904. (See also Note 4.)  
 LAWRENCE.—Parts taken to form part of Lincoln in 1870 and part of Jefferson Davis in 1906. (See also Note 1.)  
 LEE.—Part annexed to Union in 1874.  
 LEFLORE.—Organized from parts of Carroll and Sunflower in 1871.  
 LINCOLN.—Organized from parts of Amite, Copiah, Franklin, Lawrence, and Pike in 1870.  
 LOWNDES.—Part taken to form part of Clay in 1872.  
 MARION.—Parts taken to form part of Pearl River in 1890 and part of Lamar in 1904. (See also Note 4.)  
 MARSHALL.—Parts taken to form part of Benton in 1870 and part of Tate in 1873.  
 MONROE.—Part taken to form part of Clay in 1872.  
 MONTGOMERY.—Organized from parts of Carroll and Choctaw in 1871; part taken to form part of Webster in 1874.  
 OKTIBBEHA.—Parts taken to form part of Clay in 1872 and part of Webster in 1874.  
 PANOLA.—Part taken to form part of Quitman in 1877.  
 PEARL RIVER.—Organized from parts of Hancock and Marion in 1890; part taken to form part of Lamar in 1904; part of Hancock annexed in 1908. (See also Note 4.)

PERRY.—Part taken to form Forrest in 1908. (See also Note 2.)  
 PIKE.—Part taken to form part of Lincoln in 1870.  
 PONTOTOC.—Part taken to form part of Union in 1870.  
 PRENTISS.—Organized from part of Tishomingo in 1870.  
 QUITMAN.—Organized from parts of Coahoma, Panola, Tallahatchie, and Tunica in 1877.  
 SHARKEY.—Organized from parts of Issaquena, Warren, and Washington in 1876.  
 SUNFLOWER.—Part taken to form part of Leflore in 1871.  
 TALLAHATCHIE.—Parts taken to form part of Grenada in 1870 and part of Quitman in 1877.  
 TATE.—Organized from parts of De Soto, Marshall, and Tunica in 1873.  
 TIPPAH.—Parts taken to form parts of Alcorn, Benton, and Union in 1870.  
 TISHOMINGO.—Parts taken to form parts of Alcorn and Prentiss in 1870.  
 TUNICA.—Parts taken to form part of Tate in 1873 and part of Quitman in 1877.  
 UNION.—Organized from parts of Pontotoc and Tippah in 1870 and part of Lee annexed in 1874.  
 WARREN.—Part taken to form part of Sharkey in 1876.  
 WASHINGTON.—Part taken to form part of Sharkey in 1876.  
 WEBSTER.—Name changed from Sumner in 1882. Organized from parts of Chickasaw, Choctaw, Montgomery, and Oktibbeha in 1874.  
 WINSTON.—Part annexed to Choctaw in 1874.  
 YALOBUSHA.—Part taken to form part of Grenada in 1870.  
 NOTE 1.—*Covington, Jefferson Davis, and Lawrence Counties combined.*—Total population: 1910, 42,849; 1900, 28,179; increase, 1900-1910, 14,670; per cent of increase, 52.1. Urban population, 1910, 2,581. Rural population, 1910, 40,268; same territory in 1900, 28,179; per cent of increase, 42.9. Rural population, 1900, 28,179. Per cent in places of 2,500 or more in 1910, 6.0.  
 NOTE 2.—*Forrest and Perry Counties combined.*—Total population: 1910, 28,407; 1900, 14,682; increase, 1900-1910, 13,725; per cent of increase, 93.5. Urban population, 1910, 11,733; same places in 1900, 4,175; per cent of increase, 181.0. Rural population, 1910, 16,674; same territory in 1900, 10,507; per cent of increase, 58.7. Urban population, 1900, 4,175; rural population, 1900, 10,507. Per cent in places of 2,500 or more in 1910, 41.3. Per cent in places of 2,500 or more in 1900, 28.4.  
 NOTE 3.—*George, Greene, and Jackson Counties combined.*—Total population: 1910, 28,100; 1900, 23,308; increase, 1900-1910, 4,792; per cent of increase, 20.6. Urban population, 1910, 6,433; same places in 1900, 2,733; per cent of increase, 135.4. Rural population, 1910, 21,667; same territory in 1900, 20,575; per cent of increase, 5.3. Rural population, 1900, 23,308. Per cent in places of 2,500 or more in 1910, 22.9.  
 NOTE 4.—*Lamar, Marion, and Pearl River Counties combined.*—Total population: 1910, 37,933; 1900, 20,198; increase, 1900-1910, 17,735; per cent of increase, 87.8. Rural population, 1910, 37,933; same territory in 1900, 20,198; per cent of increase, 87.8. Rural population in 1900, 20,198.

## CITIES.

COLLINS.—Incorporated in 1902.  
 MERIDIAN.—Parts of beat 1 annexed in 1900, 1905, and 1909.  
 MOSS POINT.—Incorporated in 1901.  
 PASCAGOULA.—Part of beat 3 (Scranton town) annexed in 1904.  
 VICKSBURG.—Parts of beat 2, including Speed's Addition (Fostoria village), annexed in 1908 and 1909.

## POPULATION : MISSOURI

## COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Missouri gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

**Description of the tables.**—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for cities of more than 25,000 inhabitants; Table III for cities of 10,000 to 25,000; Table IV for places of 2,500 to 10,000; and Table V for wards of the three cities of more than 50,000.

A series of summary tables (numbered 1 to 15) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

**Color and nativity** (Table 1).—Of the total population of Missouri, 2,387,835, or 72.5 per cent, are native whites of native parentage; 518,201, or 15.8 per cent, are native whites of foreign or mixed parentage; 228,896, or 7 per cent, are foreign-born whites; and 157,452, or 4.8 per cent, are negroes. The corresponding percentages in 1900 were 71, 16.9, 6.9, and 5.2, respectively, the comparison indicating only slight changes in the composition of the population during the decade. In 99 counties the percentage of foreign-born whites is less than 5, and in only 3—including St. Louis city, a subdivision of the state coordinate with the 114 counties—does it exceed 10, the maximum percentage, 18.3, being that for St. Louis city. The percentage of native whites of foreign or mixed parentage ranges generally higher, exceeding 10 in 31 counties. (See maps on page 37.)

Of the urban population, 55 per cent are native whites of native parentage; of the rural, 85.5 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 25.1 and 8.8 per cent, respectively. The percentage of foreign-born whites is 12.4 in the urban population and 2.9 in the rural; the percentage of negroes is 7.5 in the urban and 2.8 in the rural.

**Sex** (Table 2).—In the total population of the state there are 1,687,813 males and 1,605,522 females, or 105.1 males to 100 females. In 1900 the ratio was 105.6 to 100. The number of males to 100 females among native whites is 103; among foreign-born whites, 135.9. It is 101.3 in the urban population and 108 in the rural.

**State of birth** (Tables 3 and 4).—Of the total native population—that is, population born in the United States—72.6 per cent were born in Missouri and 27.4 per cent outside the state; of the native white population, 27.3 per cent were born outside the state, and of the native negro, 30 per cent. Persons born outside the state constitute a larger proportion of the native population in urban than in rural communities.

**Foreign nationalities** (Tables 5 and 12).—Of the foreign-born white population of Missouri, persons born in Germany represent 38.5 per cent; Ireland, 10.2; Russia, 9.3; Austria, 7.1; England, 6; Italy, 5.7; Hungary, 5; Canada, 3.4; Switzerland, 2.7; Sweden, 2.5; Scotland, 1.6; all other countries, 7.8. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 49.2 per cent; Ireland, 13.2; England, 6.5; Russia, 4.6; Austria, 4; Canada, 3.1; Italy, 2.8; Switzerland, 2.3; Hungary, 2; Sweden, 1.8; Scotland, 1.7; France, 1.5.

**Voting and militia ages** (Table 6).—The total number of males 21 years of age and over is 973,062, representing 29.5 per cent of the population. Of such males, 64.8 per cent are native whites of native parentage, 17.2 per cent native whites of foreign or mixed parentage, 12.5 per cent foreign-born whites, and 5.4 per cent negroes. Of the 121,404 foreign-born white males of voting age, 65,612, or 54 per cent, are naturalized. Males of militia age—18 to 44—number 721,166.

**Age** (Tables 7, 8, and 13).—Of the total population; 10.9 per cent are under 5 years of age, 20.1 per cent from 5 to 14 years, inclusive, 19.8 per cent from 15 to 24, 29.2 per cent from 25 to 44, and 19.7 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 4.2 per cent of this class being under 15 years of age, while 84.9 per cent are 25 years of age and over. Of the native whites of native parentage, only 43.2 per cent are 25 and over; of native whites of foreign or mixed parentage, 57.1 per cent; of negroes, 54.6 per cent.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 34.3 per cent are from 25 to 44 years of age, inclusive, and of the rural, 25.3 per cent.

**School attendance** (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 993,998, of whom 646,866, or 65.1 per cent, attended school. In addition to these, 7,640 children under 6 and 11,466 persons 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 65.4; for girls, 64.8. For children from 6 to 14 years, inclusive, the percentage attending school was 85.2. The percentage for children of this age among native whites of native parentage was 85.5; among native whites of foreign or mixed parentage, 86.7; among foreign-born whites, 80.7; and among negroes, 75.9. (See Table I.) There is little difference between urban and rural communities as regards the percentage of school attendance for the ages from 6 to 14, but for persons 15 to 20 years the percentage was 26.2 in the urban population and 41.9 in the rural.

**Illiteracy** (Table 10).—There are 111,116 illiterates in the state, representing 4.3 per cent of the total population 10 years of age and over. In 1900 the percentage of illiteracy was 6.4. It is 2.9 among

native whites, 10.1 among foreign-born whites, and 17.4 among negroes.

For all classes combined, the percentage of illiteracy is 3.3 in the urban population and 5.1 in the rural, the rural percentage being higher than the urban for each class separately except the foreign-born whites, most of whom arrive in this country when past the school age. For them the percentage is nearly the same in rural as in urban population.

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 1.5. (See Table I.)

**Marital condition** (Tables 11 and 14).—In the population 15 years of age and over, 37.2 per cent of the males are single and 28 per cent of the females. The percentage married is 56.9 for males and 60.1 for females; and the percentage widowed 4.8 and 10.8, respectively. The percentages of those reported as divorced, 0.6 and 0.8, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due largely to the fact that women marry younger. Thus 12.8 per cent of the females from 15 to 19 years of age are married, as compared with 1.2 per cent of the males, and 51.7 per cent of the females from 20 to 24 years are married, as compared with 25.4 per cent of the males. In the next age group, 25 to 34 years, the difference in the percentage—76.1 for females and 64.9 for males—is not so great, while in the age group 35 to 44 the difference practically disappears. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages married among those 15 years of age and over are as follows: Foreign-born whites, 64.2 for males and 62.3 for females; native whites of native parentage, 56.7 and 61.3, respectively; native whites of foreign or mixed parentage, 54.3 and 56.3; negroes, 51.4 and 54.9.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married, for males and for females, is higher in rural than in urban communities.

**Dwellings and families.**—The total number of dwellings in Missouri is 677,196, and the total number of families 749,812, there being 110.7 families to each 100 dwellings. (See Table I.) The average number of persons per dwelling is 4.9, and the average number per family, 4.4.

PROPORTION OF FOREIGN-BORN WHITE AND NATIVE WHITE OF FOREIGN OR MIXED PARENTAGE OF MISSOURI, BY COUNTIES: 1910.

PER CENT OF FOREIGN-BORN WHITE IN TOTAL POPULATION.

PER CENT OF NATIVE WHITE OF FOREIGN OR MIXED PARENTAGE IN TOTAL POPULATION.

## POPULATION : MONTANA

## COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Montana gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

**Description of the tables.**—The greater part of this second bulletin consists of four general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for Butte, the only city of more than 25,000 inhabitants; Table III for cities of 10,000 to 25,000; and Table IV for places of 2,500 to 10,000.

A series of summary tables (numbered 1 to 14) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had

attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

**Color and nativity (Table 1).**—Of the total population of Montana, 162,127, or 43.1 per cent, are native whites of native parentage; 106,809, or 28.4 per cent, are native whites of foreign or mixed parentage; 91,644, or 24.4 per cent, are foreign-born whites; 10,745, or 2.9 per cent, are Indians; 2,870, or 0.7 per cent, are Chinese and Japanese; and 1,834, or 0.5 per cent, are negroes. In 1900 the percentage of native whites of native parentage was 38.2.

In the counties the percentage of foreign-born whites ranges from 12.9 in Gallatin to 35.3 in Silver Bow, the most populous county; it exceeds 25 in 8 of the 28 counties. Silver Bow County also has the highest percentage of native whites of foreign or mixed parentage (39.7), while Rosebud has the lowest (14.2); the proportion exceeds one-fourth in 18 counties. (See maps on page 7.)

Of the urban population, 40.3 per cent are native whites of native parentage; of the rural, 44.7 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 31.5 and 26.7 per cent, respectively. The percentage of foreign-born whites is 26 in the urban population and 23.5 in the rural. The percentage of Chinese and Japanese is 1 in the urban and 0.6 in the rural; of negroes, 1.1 in the urban and 0.2 in the rural. Practically all of the Indians are in rural communities.

**Sex (Table 2).**—In the total population of the state there are 226,872 males and 149,181 females, or 152.1 males to 100 females. In 1900 the ratio was 160.3 to 100. Among native whites the ratio is 132.1 to 100; among foreign-born whites, 238.4 to 100. In the urban population there are 130.9 males to 100 females, and in the rural, 165.4.

**State of birth (Tables 3 and 4).**—Of the total native population—that is, population born in the United States—35.3 per cent were born in Montana and 64.7 per cent outside the state; of the native white population, 66.6 per cent were born outside the state; of the native Indians, 13.5 per cent; and of the native negro, 80.9 per cent. Persons born outside the state constitute approximately the same proportion of the native population in urban as in rural communities.

**Foreign nationalities** (Table 5).—Of the foreign-born white population of Montana, persons born in Canada represent 14.7 per cent; Ireland, 10.3; England, 9.8; Germany, 9.5; Austria, 9.1; Norway, 7.8; Italy, 7.2; Sweden, 7; Finland, 4.5; Scotland, 3.7; all other countries, 16.4. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Canada contributed 14.9 per cent; Ireland, 14.3; Germany, 13.4; England, 10.4; Norway, 7; Austria, 6.5; Sweden, 5.9; Italy, 4; Scotland, 3.5; Finland, 3.3; Denmark, 2.

**Voting and militia ages** (Table 6).—The total number of males 21 years of age and over is 155,017, representing 41.2 per cent of the population. Of such males, 38.5 per cent are native whites of native parentage, 19.2 per cent native whites of foreign or mixed parentage, 38.3 per cent foreign-born whites, 1.8 per cent Indians, 1.7 per cent Chinese and Japanese, and 0.5 per cent negroes. Of the 59,313 foreign-born white males of voting age, 27,635, or 46.6 per cent, are naturalized. Males of militia age—18 to 44—number 123,232.

**Age** (Tables 7, 8, and 12).—Of the total population, 10.2 per cent are under 5 years of age, 17 per cent from 5 to 14 years, inclusive, 19.4 per cent from 15 to 24, 36.4 per cent from 25 to 44, and 16.2 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 4 per cent of this class being under 15 years of age, while 78.8 per cent are 25 years of age and over. Of the native whites of foreign or mixed parentage, only 37.7 per cent are 25 and over, and of the native whites of native parentage, only 47.5 per cent.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Of the urban population, 39.3 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 34.9 per cent.

**School attendance** (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 93,771, of whom 60,678, or 64.7 per cent, attended school. In addition to these, 936 persons under 6 and 1,141 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 62; for girls, 67.7. For children from 6 to 14 years, inclusive, the percentage attending school was 82.7. The percentage for children of this age among native whites of foreign or mixed parentage was 86; among native whites of native parentage, 83.5; among negroes, 83.1; among foreign-born whites, 76.1; and among Indians, 47.2. (See Table I.) In urban communities the percentage of children of that age attending school was 86.6, and in rural, 80.8; for persons from 15 to 20 it was 40 and 35.7, respectively.

**Illiteracy** (Table 10).—There are 14,457 illiterates in the state, representing 4.8 per cent of the total population 10 years of age and over, as compared with

6.1 per cent in 1900. The percentage of illiteracy is 9.4 among foreign-born whites, 0.4 among native whites, 55.8 among Indians, and 7 among negroes.

For all classes combined, the percentage of illiterates is 3.3 in urban communities and 5.6 in rural. For each class separately the percentage is somewhat higher in rural than in urban communities.

For persons from 10 to 20 years, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 2.3. (See Table I.)

**Marital condition** (Tables 11 and 13).—In the population 15 years of age and over, 52.4 per cent of the males are single and 26.3 per cent of the females. The percentage married is 42.5 for males and 65.1 for females, and the percentage widowed 3 and 7.5, respectively. The percentages of those reported as divorced, 0.7 and 0.8, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due partly to the excess of males in the total population and partly to the fact that women marry younger. Thus 11.3 per cent of the females from 15 to 19 years of age are married, as compared with 0.5 per cent of the males, and 54.7 per cent of the females from 20 to 24 years of age are married, as compared with 12.5 per cent of the males. For those from 25 to 34 years the percentages are 80.4 and 42.5, respectively, and in the next age group, 35 to 44 years, 85.4 and 62.8. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 43.9 for males and 73.7 for females; native whites of native parentage, 43.5 and 64.9, respectively; native whites of foreign or mixed parentage, 36.5 and 57; Indians, 64.6 and 69.7; negroes, 43.1 and 57.4.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for males is higher in urban communities, but for females it is higher in rural.

**Dwellings and families.**—The total number of dwellings in Montana is 82,811, and the total number of families 86,602, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.5, and the average number per family, 4.3.

## NOTES REGARDING CHANGES IN BOUNDARIES, ETC.

## COUNTIES.

BROADWATER.—Organized from parts of Jefferson and Meagher in 1897.  
 CARBON.—Organized from parts of Park and Yellowstone in 1895.  
 CASCADE.—Organized from parts of Chouteau, Lewis and Clark, and Meagher in 1887 and part of Meagher annexed between 1890 and 1900.  
 CHOUTEAU.—Parts taken to form Teton in 1893 and part of Cascade in 1887.  
 CUSTER.—Name changed from Bighorn in 1877; part taken to form part of Yellowstone in 1881, and part, including Northern Cheyenne Indian Reservation and part of Crow Indian Reservation, taken to form Rosebud in 1901. (See also Note 1.)  
 DAWSON.—Part taken to form Valley in 1893.  
 DEER LODGE.—Parts taken to form Silver Bow in 1881, Granite in 1893, and Powell in 1901, and parts annexed to Flathead and Lewis and Clark between 1890 and 1900; part of Silver Bow annexed in 1903. (See also Note 2.)  
 FERGUS.—Organized from part of Meagher in 1885.  
 FLATHEAD.—Organized from part of Missoula in 1893 and part of Deer Lodge annexed between 1890 and 1900; part taken to form Lincoln in 1909. (See also Note 3.)  
 GALLATIN.—Parts taken to form Park in 1887 and part of Yellowstone in 1881.  
 GRANITE.—Organized from part of Deer Lodge in 1893.  
 JEFFERSON.—Part taken to form part of Broadwater in 1897.  
 LEWIS AND CLARK.—Part taken to form part of Cascade in 1887; parts of Deer Lodge and Meagher annexed between 1890 and 1900.  
 LINCOLN.—Organized from part of Flathead in 1909. (See also Note 3.)  
 MEAGHER.—Parts taken to form Fergus in 1885, part of Cascade in 1887, part of Sweet Grass in 1895, and part of Broadwater in 1897; parts annexed to Cascade and Lewis and Clark between 1890 and 1900.  
 MISSOULA.—Parts taken to form Flathead and Ravalli in 1893 and Sanders in 1906. (See also Note 4.)  
 PARK.—Organized from part of Gallatin in 1887; parts taken to form parts of Carbon and Sweet Grass in 1895.  
 POWELL.—Organized from part of Deer Lodge in 1901. (See also Note 2.)  
 RAVALLI.—Organized from part of Missoula in 1893.  
 ROSEBUD.—Organized from part of Custer County, including Northern Cheyenne Indian Reservation and part of Crow Indian Reservation, in 1901. (See also Note 1.)  
 SANDERS.—Organized from part of Missoula in 1906. (See also Note 4.)  
 SILVER BOW.—Organized from part of Deer Lodge in 1881; part annexed to Deer Lodge in 1903.  
 SWEET GRASS.—Organized from parts of Meagher, Park, and Yellowstone in 1895.

TETON.—Organized from part of Chouteau in 1893.

VALLEY.—Organized from part of Dawson in 1893.

YELLOWSTONE.—Organized from parts of Custer and Gallatin in 1881; parts taken to form parts of Carbon and Sweet Grass in 1895. (See also Note 1.)

NOTE 1.—Custer, Rosebud, and Yellowstone Counties combined.—Total population: 1910, 45,052; 1900, including population (2,660) of Crow Indian Reservation, 10,763; increase, 1900-1910, 28,289; per cent of increase, 168.8. Urban population—1910, 14,728; same places in 1900, 5,159; per cent of increase, 185.5. Rural population—1910, 30,324; same territory in 1900, including population (2,660) of Crow Indian Reservation, 11,604; per cent of increase, 161.3. Urban population—1900, 3,221; rural population—1900, including population (2,660) of Crow Indian Reservation, 13,542. Per cent in places of 2,500 or more in 1910, 32.7. Per cent in places of 2,500 or more in 1900, 19.2.

NOTE 2.—Deer Lodge and Powell Counties combined.—Total population: 1910, 18,892; 1900, 17,393; increase, 1900-1910, 1,499; per cent of increase, 8.6. Urban population—1910, 12,704; same places in 1900, 10,777; per cent of increase, 17.9. Rural population—1910, 6,188; same territory in 1900, 6,616; per cent of decrease, 6.6. Urban population—1900, 9,453; rural population—1900, 7,940. Per cent in places of 2,500 or more in 1910, 67.2. Per cent in places of 2,500 or more in 1900, 54.3.

NOTE 3.—Flathead and Lincoln Counties combined.—Total population: 1910, 22,423; 1900, 9,375; increase, 1900-1910, 13,048; per cent of increase, 139.2. Urban population—1910, 5,549; same places in 1900, 2,526; per cent of increase, 119.7. Rural population—1910, 16,874; same territory in 1900, 6,849; per cent of increase, 146.4. Urban population—1900, 2,526; rural population—1900, 6,849. Per cent in places of 2,500 or more in 1910, 24.7. Per cent in places of 2,500 or more in 1900, 20.9.

NOTE 4.—Missoula and Sanders Counties combined.—Total population: 1910, 27,300; 1900, 13,954; increase, 1900-1910, 13,346; per cent of increase, 95.6. Urban population—1910, 12,859; same places in 1900, 4,366; per cent of increase, 194.8. Rural population—1910, 14,440; same territory in 1900, 9,588; per cent of increase, 50.4. Urban population—1900, 4,366; rural population—1900, 9,598. Per cent in places of 2,500 or more in 1910, 47.1. Per cent in places of 2,500 or more in 1900, 31.3.

NOTE 5.—In computing this increase the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make that total comparable with the total for 1890, which does not include the population of Indian reservations. The population thus deducted in the several counties was as follows: Chouteau, 1,312; Custer, 1,454; Flathead, 13; Missoula, 2,129; Teton, 2,256; and Valley, 1,946.

## CITIES.

ANACONDA.—Part annexed to school district 10 in 1904.

BUTTE.—Parts of election precincts 6 and 34 annexed in 1902 and parts of precincts 35, 37, and 45 annexed in 1903.

## POPULATION : NEBRASKA

## COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Nebraska gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

**Description of the tables.**—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for the three cities of more than 25,000 inhabitants; Table III for Grand Island, the only city of 10,000 to 25,000 inhabitants; Table IV for places of 2,500 to 10,000; and Table V for wards of Omaha, the only city of more than 50,000.

A series of summary tables (numbered 1 to 15) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

**Color and nativity** (Table 1).—Of the total population of Nebraska, 642,075, or 53.9 per cent, are native whites of native parentage; 362,353, or 30.4 per cent, are native whites of foreign or mixed parentage; 175,865, or 14.8 per cent, are foreign-born whites; and 7,689, or 0.6 per cent, are negroes. The corresponding percentages in 1900 were 51.9, 30.6, 16.6, and 0.6, respectively, the proportion of native whites of native parentage having increased somewhat during the decade.

In 7 of the 92 counties foreign-born whites constitute as much as one-fifth of the population, the proportion being highest (23.6 per cent) in Colfax County. In 54 counties, however, more than one-fourth of the population are native whites of foreign or mixed parentage, the maximum percentage (52.9) being that for Cuming County. (See maps, page 30.)

Of the urban population, 51.8 per cent are native whites of native parentage; of the rural population, 54.6 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 27.6 and 31.3 per cent, respectively. The percentage of foreign-born whites is 18.3 in the urban population and 13.5 in the rural; the percentage of negroes is 2.1 in the urban and 0.1 in the rural.

**Sex** (Table 2).—In the total population of the state there are 627,782 males and 564,432 females, or 111.2 males to 100 females. In 1900 the ratio was 112.5 to 100. Among native whites the ratio is 107.1 to 100; and among foreign-born whites, 136.7 to 100. In the urban population there are 106.3 males to 100 females, and in the rural, 113.

**State of birth** (Tables 3 and 4).—Of the native population—that is, population born in the United States—58.6 per cent were born in Nebraska and 41.4 per cent outside the state. Of the native white population, 41.1 per cent were born outside the state, and of the native negro, 78.2 per cent. Persons born outside the state constitute a much larger proportion of the native population in urban than in rural communities.

**Foreign nationalities** (Tables 5 and 12).—Of the foreign-born white population of Nebraska, persons born in Germany represent 32.6 per cent; Austria, 13.9; Sweden, 13.2; Denmark, 7.8; Russia, 7.4; Ireland, 4.6; England, 4.6; Canada, 4.2; Italy, 2.2; Greece, 2; all other countries, 7.9. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 37.5 per cent; Austria, 11.7; Sweden, 10.9; Ireland, 7; Denmark, 6; England, 5.7; Russia, 4.6; Canada, 4.5; Scotland, 1.6; Norway, 1.4; Switzerland, 1.2.

**Voting and militia ages** (Table 6).—The total number of males 21 years of age and over is 353,626, representing 29.7 per cent of the population. Of such males, 47.7 per cent are native whites of native parentage, 24.3 per cent native whites of foreign or mixed parentage, 26.7 per cent foreign-born whites, and 0.9 per cent negroes. Of the 94,345 foreign-born white males of voting age, 57,270, or 60.7 per cent, are naturalized. Males of militia age—18 to 44 years—number 267,497.

**Age** (Tables 7, 8, and 13).—Of the total population, 11.8 per cent are under 5 years of age, 20.9 per cent from 5 to 14 years, inclusive, 20.7 per cent from 15 to 24, 27.7 per cent from 25 to 44, and 18.7 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 3.4 per cent of this class being under 15 years of age, while 86.5 per cent are 25 years of age and over. Of the native whites of foreign or mixed parentage only 35.8 per cent are 25 and over, and of the native whites of native parentage, only 41.1 per cent.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 32.7 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 25.9 per cent.

**School attendance** (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 373,868, of whom 261,219, or 69.9 per cent, attended school. In addition to these, 9,077 persons under 6 and 5,533 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 69.6; for girls, 70.2. For children from 6 to 14 years, inclusive, the percentage attending school was 90.2. The percentage for children of this age among native whites of foreign or mixed parentage was 90.8; among native whites of native parentage, 90.1; among negroes, 87.9; and among foreign-born whites, 85.1. (See Table I.) The percentage attending school for children from 6 to 14 was 91.9 in the urban communities, and 89.7 in the rural; for persons from 15 to 20, the percentages were 37.2 and 40.6, respectively.

**Illiteracy** (Table 10).—There are 18,009 illiterates in the state, representing 1.9 per cent of the total population 10 years of age and over, as compared with 2.3 per cent in 1900. The percentage of illiteracy is 7.1

among foreign-born whites, 0.6 among native whites, and 7.2 among negroes.

For all classes combined the percentage of illiterates is 2.6 in urban communities and 1.7 in rural. For each of the native white classes the rural percentage exceeds the urban, although the differences are inconsiderable; for the foreign-born whites, however, the urban percentage (10.1) exceeds the rural (5.7).

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is very slight, only 0.5. (See Table I.)

**Marital condition** (Tables 11 and 14).—In the population 15 years of age and over, 40.9 per cent of the males are single and 29.4 per cent of the females. The percentage married is 54.2 for males and 61.9 for females; and the percentage widowed 3.8 and 7.8, respectively. The percentages of those reported as divorced, 0.6 both for males and for females, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due partly to the excess of males in the population and partly to the fact that women marry younger. Thus 9.1 per cent of the females from 15 to 19 years of age are married, as compared with 0.5 per cent of the males; and 48.9 per cent of the females from 20 to 24 years are married, as compared with 19.1 per cent of the males. For those from 25 to 34 years the percentages are 78.5 and 60.6, respectively, while those from 35 to 44 are 86.6 and 79.2. Among those 45 and over the percentage married is higher for males than for females. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 66.6 for males and 74.5 for females; native whites of native parentage, 54.2 and 61.8, respectively; native whites of foreign or mixed parentage, 44.2 and 54; negroes, 48.1 and 59.2; Indians, 60.3 and 65.5.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for males is slightly higher, and for females decidedly higher, in the rural than in the urban population.

**Dwellings and families.**—The total number of dwellings in Nebraska is 258,967, and the total number of families 265,549, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.6, and the average number per family, 4.5.

TABLE 1.—COLOR, NATIVITY, AND PARENTAGE.

### NOTES REGARDING CHANGES IN BOUNDARIES, ETC.

COUNTIES.

ANTELOPE.—Organized from unorganized territory in 1871.  
 BANNER.—Organized from part of Cheyenne in 1888.  
 BLAINE.—Organized from unorganized territory in 1886.  
 BOONE.—Organized from unorganized territory in 1871.  
 BOXBUTTE.—Organized from part of Dawes in 1886.  
 BOYD.—Formerly part of Dakota; annexed to Nebraska between 1880 and 1890; unorganized territory in 1890; organized as Boyd in 1891.  
 BROWN.—Organized from unorganized territory in 1883; parts taken to form Keyapaha in 1884 and Rock in 1888.  
 CHERRY.—Organized from unorganized territory in 1883.  
 CHEYENNE.—Parts taken to form Banner, Deuel, Kimball, and Scotts Bluff in 1888 and Morrill in 1909. (See also Note 1.)  
 CUSTER.—Organized from unorganized territory in 1877.  
 DAKOTA.—Part ceded from Union County, South Dakota, in 1908.  
 DAWES.—Organized from part of Sioux in 1885; part taken to form Boxbutte in 1886.  
 DEUEL.—Organized from part of Cheyenne in 1888; part taken to form Garden in 1910.  
 DUNDY.—Organized from unorganized territory in 1873.  
 FRONTIER.—Organized from unorganized territory in 1872.  
 FURNAS.—Organized from unorganized territory in 1873.  
 GARDEN.—Organized from part of Deuel in 1910. (See also Note 2.)  
 GARFIELD.—Organized from part of Wheeler in 1884.  
 GOSPER.—Organized from unorganized territory in 1873.  
 GRANT.—Organized from unorganized territory in 1887.  
 GREELEY.—Organized from unorganized territory in 1871.  
 HARLAN.—Organized from unorganized territory in 1871.  
 HAYES.—Organized from unorganized territory in 1877.  
 HITCHCOCK.—Organized from unorganized territory in 1873.  
 HOLT.—Organized from unorganized territory in 1876.  
 HOOKER.—Organized from unorganized territory in 1889.  
 HOWARD.—Organized from unorganized territory in 1871.  
 JEFFERSON.—Part taken to form Thayer in 1872.  
 KEITH.—Organized from part of Lincoln in 1873; part taken to form Perkins in 1887.  
 KEYAPAHA.—Organized from part of Brown in 1884.

KIMBALL.—Organized from part of Cheyenne in 1888.  
 KNOX.—Name changed from L'Eau qui Court in 1873.  
 LINCOLN.—Part taken to form Keith in 1873.  
 LOGAN.—Organized from unorganized territory in 1885.  
 LOUP.—Organized from unorganized territory in 1883.  
 MCPHERSON.—Organized from unorganized territory in 1887; Arthur annexed between 1890 and 1900.  
 MORRILL.—Organized from part of Cheyenne in 1909. (See also Note 1.)  
 NANCE.—Organized from the Pawnee Indian Reservation in 1879.  
 PERKINS.—Organized from part of Keith in 1887.  
 PHELPS.—Organized from unorganized territory in 1873.  
 REDWILLOW.—Organized from unorganized territory in 1873.  
 ROCK.—Organized from part of Brown in 1888.  
 SCOTTS BLUFF.—Organized from part of Cheyenne in 1888.  
 SHERIDAN.—Organized from part of Sioux in 1885.  
 SHERMAN.—Organized from unorganized territory in 1873.  
 SIOUX.—Organized from unorganized territory in 1877; parts taken to form Dawes and Sheridan in 1885.  
 THAYER.—Organized from part of Jefferson in 1872.  
 THOMAS.—Organized from unorganized territory in 1887.  
 THURSTON.—Name changed from Blackbird in 1889.  
 VALLEY.—Organized from unorganized territory in 1871.  
 WHEELER.—Organized from unorganized territory in 1877; part taken to form Garfield in 1884.

NOTE 1.—*Cheyenne and Morrill Counties combined.*—Total population: 1910, 9,135; 1900, 5,570; increase, 1900-1910, 3,565; per cent of increase, 64. Rural population—1910, 9,135; same territory in 1900, 5,570; per cent of increase, 64. Rural population—1900, 5,570.

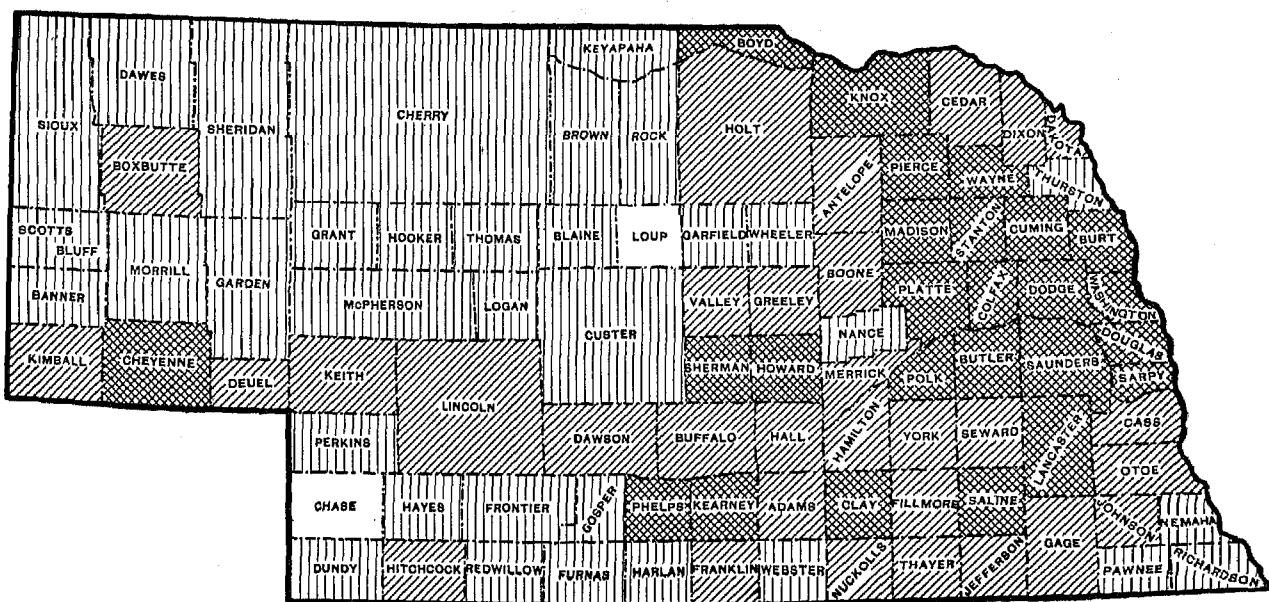

NOTE 2.—*Deuel and Garden Counties combined.*—Total population: 1910, 5,324; 1900, 2,630; increase, 1900-1910, 2,694; per cent of increase, 102.4. Rural population—1910, 5,324; same territory in 1900, 2,630; per cent of increase, 102.4. Rural population—1900, 2,630.

CITIES.

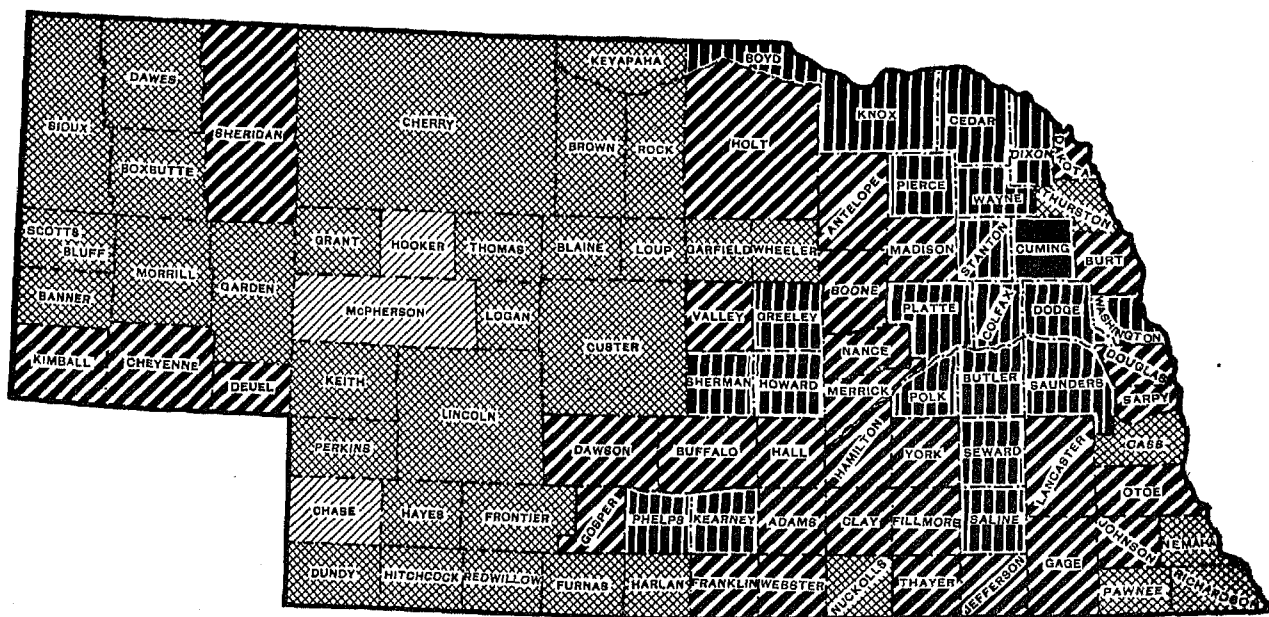

LINCOLN.—Parts annexed to Garfield precinct in 1901 and 1906, Lancaster precinct in 1900 and 1906, West Lincoln precinct in 1903, 1904, and 1906, and Yankee Hill precinct in 1901; parts of Garfield precinct annexed in 1906 and 1910, part of Lancaster precinct in 1906, and part of Yankee Hill precinct in 1909.

PROPORTION OF FOREIGN-BORN WHITE AND NATIVE WHITE OF FOREIGN OR MIXED PARENTAGE OF NEBRASKA, BY COUNTIES: 1910.

PER CENT OF FOREIGN-BORN WHITE IN TOTAL POPULATION: 1910.

PER CENT OF NATIVE WHITE OF FOREIGN OR MIXED PARENTAGE IN TOTAL POPULATION: 1910.

## POPULATION : NEVADA

## COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Nevada gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

**Description of the tables.**—The greater part of this second bulletin consists of three general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for Reno, the only city of more than 10,000 inhabitants; and Table III for Sparks, a city of 2,500 inhabitants.

A series of summary tables (numbered 1 to 12) reproduces from the general tables the more important state totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had at-

tended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

**Color and nativity** (Table 1).—Of the total population of Nevada, 35,326, or 43.1 per cent, are native whites of native parentage; 20,951, or 25.5 per cent, are native whites of foreign or mixed parentage; 17,999, or 22 per cent, are foreign-born whites; and 5,240, or 6.4 per cent, are Indians. The corresponding percentages in 1900 were 35.7, 27.7, 20.3, and 12.3, the proportion of native whites of native parentage having increased during the decade. In 1910 Chinese and Japanese each constituted 1.1 per cent of the population and negroes 0.6 per cent. By counties the percentage of foreign-born whites ranges from 12.9 in Churchill to 30.1 in White Pine, and the percentage of native whites of foreign or mixed parentage from 18.4 in Churchill to 41.3 in Storey. (See maps on page 7.)

Of the urban population, 49.8 per cent, approximately one-half, are native whites of native parentage; of the rural population, a smaller proportion, 41.8 per cent. The percentage of native whites of foreign or mixed parentage is 26 in the urban population and 25.4 in the rural; of foreign-born whites, 19.3 in the urban and 22.5 in the rural; all other classes combined, comprising negroes, Indians, Chinese, and Japanese, 4.8 in the urban and 10.2 in the rural.

**Sex** (Table 2).—In the total population of the state there are 52,551 males and 29,324 females, or 179.2 males to 100 females. In 1900 the ratio was 153 to 100. Among native whites the ratio is 153.4 to 100 and among foreign-born whites 331.4 to 100. In the urban population there are 133.1 males to 100 females, and in the rural, 190.4.

**State of birth** (Tables 3 and 4).—Of the total native population—that is, population born in the United States—34.8 per cent were born in Nevada and 65.2 per cent outside the state; of the native white population, 70.2 per cent were born outside the state; of the native Indian, 9.3 per cent; and of the native negro, 91.1 per cent.

**Foreign nationalities** (Table 5).—Of the foreign-born white population of Nevada, persons born in Italy represent 15.7 per cent; Germany, 10.6; Canada,

10.2; England, 10; Ireland, 9.5; Greece, 5.8; Austria, 4.6; Spain, 4.3; Mexico, 4; Sweden, 3.9; France, 3.6; Denmark, 3.4; all other countries, 14.3. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Ireland contributed 15.4 per cent; Germany, 13.7; England, 12.9; Canada, 10.5; Italy, 10.3; Scotland, 3.6; Denmark, 3.4; Sweden, 3.1; Greece, 2.7; Austria, 2.7; France, 2.6; Spain, 2.3.

**Voting and militia ages** (Table 6).—The total number of males 21 years of age and over is 40,026, representing 48.9 per cent of the population. Of such males, 38 per cent are native whites of native parentage, 21.6 per cent native whites of foreign or mixed parentage, and 31.9 per cent foreign-born whites, while 8.5 per cent are in all other classes combined, comprising negroes, Indians, Chinese, and Japanese. Of the 12,767 foreign-born white males of voting age, 5,606, or 43.9 per cent, are naturalized. Males of militia age—18 to 44—number 29,383.

**Age** (Tables 7 and 8).—Of the total population, 7.8 per cent are under 5 years of age, 12.9 per cent from 5 to 14 years, inclusive, 16.2 per cent from 15 to 24, 41.2 per cent from 25 to 44, and 21.2 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 1.9 per cent of this class being under 15 years of age, while more than four-fifths (82 per cent) are 25 years of age and over. Of the native whites of foreign or mixed parentage, 57.9 per cent are 25 and over, and of the native whites of native parentage, 55.6 per cent.

The age composition of the urban population does not differ materially from that of the rural. Of the urban population, 41.1 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 41.2 per cent.

**School attendance** (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 16,132, of whom 10,141, or 62.9 per cent, attended school. In addition to these, 196 children under 6 and 220 persons 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 59.3; for girls, 66.9. For children from 6 to 14 years, inclusive, the percentage attending school was 83.2. The percentage for children of this age among native whites of native parentage was 86.3; among native whites of foreign or mixed parentage, 88.8; among foreign-born whites, 76.7. (See Table I.) The percentage attending school for children from 6 to 14 was 85.6 in the urban population and 82.8 in the rural; for persons from 15 to 20 the corresponding percentages were 43.3 and 32.4, respectively.

**Illiteracy** (Table 10).—There are 4,702 illiterates in the state, representing 6.7 per cent of the total population 10 years of age and over, as compared with 13.3 per cent in 1900. The percentage of illiteracy is 0.4

among native whites, 7.6 among foreign-born whites, 71.7 among Indians, and 5.5 among negroes.

For all classes combined, the percentage of illiterates is 2.6 in the urban population and 7.5 in the rural. For each class separately, except the Indians, the percentage is higher in rural communities than in urban.

For persons from 10 to 20 years, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 6.2. (See Table I.)

**Marital condition** (Table 11).—In the population 15 years of age and over, 51.3 per cent of the males are single and 21 per cent of the females. The percentage married is 41.4 for males and 67.1 for females, and the percentage widowed 4.6 and 10.1, respectively. The percentages of those reported as divorced, 1.4 and 1.3, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due partly to the excess of males in the total population and partly to the fact that women marry younger. Thus 13.4 per cent of the females from 15 to 19 years of age are married, as compared with 0.6 per cent of the males, and 58.2 per cent of the females from 20 to 24 years of age are married, as compared with 12.7 per cent of the males. In the next age group, 25 to 34 years, the percentages are 80.9 and 39.4, respectively; in the age group 35 to 44 they are 84.7 and 55.6; and for persons 45 and over, they are 63.9 and 54.4. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 38.5 for males and 71.2 for females; native whites of native parentage, 42.6 and 67, respectively; native whites of foreign or mixed parentage, 39.9 and 65.4; Indians, 61.9 and 67.1; negroes, 44.5 and 45.5.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for males is higher in the urban population than in the rural, but for females it is higher in the rural.

**Dwellings and families.**—The total number of dwellings in Nevada is 23,044, and the total number of families 23,677, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 3.6, and the average number per family, 3.5.

## NOTES REGARDING CHANGES IN BOUNDARIES, ETC., OF COUNTIES.

CLARK.—Organized from part of Lincoln in 1909. (See also Note 1.)

ELKO.—Part of Lander annexed in 1871.

ESMERALDA.—Part of Nye annexed in 1875.

EUREKA.—Organized from part of Lander in 1873.

HUMBOLDT.—Part annexed to Lander in 1873.

LANDER.—Part annexed to Elko in 1871; part taken to form Eureka in 1873; part of Humboldt annexed in 1873.

LINCOLN.—Part taken to form Clark in 1909. (See also Note 1.)

NYE.—Parts annexed to Esmeralda and White Pine in 1875.

WASHOE.—Reop annexed in 1883.

WHITE PINE.—Part of Nye annexed in 1875.

NOTE 1.—*Clark and Lincoln Counties combined.*—Total population: 1910, 6,810; 1900, 3,284; increase, 1900-1910, 3,526; per cent of increase, 107.4. Rural population—1910, 6,810; same territory in 1900, 3,284; per cent of increase, 107.4. Rural population—1900, 3,284.

NOTE 2.—In computing this increase the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make that total comparable with the total for 1890, which does not include the population of Indian reservations. The population thus deducted in the several counties was as follows: Elko, 439; Esmeralda, 392; Lincoln, 137; Washoe, 705.

## POPULATION : NEW HAMPSHIRE

## COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for New Hampshire gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

**Description of the tables.**—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for the two cities of more than 25,000 inhabitants; Table III for cities of 10,000 to 25,000; Table IV for cities and towns of 2,500 to 10,000; and Table V for wards of Manchester, the only city of more than 50,000 inhabitants.

A series of summary tables (numbered 1 to 14) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, it is desirable that the two classes be distinguished in presenting census data. The Bureau of the Census has undertaken to do this by classifying as urban the population of all incorporated places of 2,500 inhabitants or more. In New England, however, where many villages

of considerable size are not separately incorporated, it was deemed best to classify also towns of 2,500 inhabitants or more as urban, although this classification is not very satisfactory because such towns generally include more or less population that is essentially rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

**Color and nativity (Table 1).**—Of the total population of New Hampshire, 230,231, or 53.5 per cent, are native whites of native parentage; 103,117, or 23.9 per cent, are native whites of foreign or mixed parentage; 96,558, or 22.4 per cent, are foreign-born whites; and 564, or 0.1 per cent, are negroes. The corresponding percentages in 1900 were 58.9, 19.5, 21.4, and 0.2, respectively, the number and proportion of native whites of native parentage having decreased during the decade. The percentage of foreign-born whites in the different counties ranges from 8.2 in Carroll to 27.5 in Coos and 34.4 in Hillsborough. (See maps on a following page.)

Of the urban population, 41 per cent are native whites of native parentage; of the rural, 71.5 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 29.3 and 16.1 per cent, respectively. The percentage of foreign-born whites is 29.5 in the urban population and 12.2 in the rural.

**Sex (Table 2).**—In the total population of the state there are 216,290 males and 214,282 females, or 100.9 males to 100 females. In 1900 the ratio was 99.6 to 100. Among native whites the ratio is 98.3 to 100; among foreign-born whites, 110.4 to 100. In the urban population there are 96.8 males to 100 females, and in the rural, 107.2.

**State of birth (Tables 3 and 4).**—Of the native population—that is, population born in the United States—74.5 per cent were born in New Hampshire and 25.5 per cent outside the state. Persons born outside the state constitute a slightly larger proportion of the native population in urban than in rural communities.

**Foreign nationalities (Table 5).**—Of the foreign-born white population of New Hampshire, persons born in Canada represent 59.9 per cent (those of French parentage, 42.3, and all others, 17.6); Ireland, 11; England, 5; Russia, 4.5; Greece, 2.7; Austria, 2.5;

Italy, 2.1; Sweden, 2.1; Germany, 2.1; all other countries, 7.9. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Canada contributed 59.2 per cent (French stock, 40.7, and all others, 18.5); Ireland, 15.3; England, 5.7; Russia, 3; Germany, 2.3; Scotland, 2.2; Sweden, 1.8; Austria, 1.7.

**Voting and militia ages** (Table 6).—The total number of males 21 years of age and over is 136,668, representing 31.7 per cent of the population. Of such males, 56.1 per cent are native whites of native parentage, 13 per cent native whites of foreign or mixed parentage, 30.7 per cent foreign-born whites, and 0.1 per cent negroes. Of the 41,956 foreign-born white males of voting age, 16,415, or 39.1 per cent, are naturalized. Males of militia age—18 to 44—number 90,357.

**Age** (Tables 7, 8, and 12).—Of the total population, 9.2 per cent are under 5 years of age, 17 per cent from 5 to 14 years, inclusive, 17.4 per cent from 15 to 24, 29.2 per cent from 25 to 44, and 27.1 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 7.1 per cent of this class being under 15 years of age, while 73.1 per cent are 25 years of age and over. Of the native whites of native parentage, 61.5 per cent are 25 and over; of the native whites of foreign or mixed parentage, however, only 28.9 per cent are 25 and over, while practically one-half (49.8 per cent) are children under 15.

As compared with rural population, the urban shows a larger proportion of persons in the prime of life, 30.3 per cent of urban and 27.5 per cent of rural being in the age groups 25 to 44 years. There is also a slightly higher percentage of children in urban communities than in rural (26.9 as compared with 25.1).

**School attendance** (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 111,634, of whom 73,487, or 65.8 per cent, attended school. In addition to these, 2,935 persons under 6 and 1,128 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 64.9; for girls, 66.8. For children from 6 to 14 years, inclusive, the percentage attending school was 91.2. The percentage for children of this age among native whites of native parentage was 92.2; among native whites of foreign or mixed parentage, 91.3; and among foreign-born whites, 85.5. (See Table I.) There is little difference between urban population and rural as regards school attendance for children from 6 to 14 years of age, but of those from 15 to 20 years, 35.4 per cent in rural communities, as against 26 per cent in urban, were reported as attending school.

**Illiteracy** (Table 10).—There are 16,386 illiterates in the state, representing 4.6 per cent of the total population 10 years of age and over, as compared with 6.2 per cent in 1900. The percentage of illiteracy is

14.5 among foreign-born whites and 1.1 among native whites.

For all classes combined, the percentage of illiterates in urban communities (5.6) is decidedly greater than that in rural (3.2), but the percentage for foreign-born whites is higher in rural communities than in urban communities, while the percentage for native whites is the same in each case.

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is only 1.8. (See Table I.)

**Marital condition** (Tables 11 and 13).—In the population 15 years of age and over, 35.7 per cent of the males are single, and 29.7 per cent of the females. The percentage married is 56.9 for males and 56.6 for females, and the percentage widowed 6.1 and 12.6, respectively. The percentages of those reported as divorced, 1 per cent both for males and for females, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due partly to the excess of males in the total population, and partly to the fact that women marry younger. Thus 7.4 per cent of the females from 15 to 19 years of age are married, as compared with 1 per cent of the males, and 42.7 per cent of the females from 20 to 24 years are married, as compared with 22.3 per cent of the males. In the next age group, 25 to 34 years, the difference is not so great, the percentages being 70.3 for females and 60.9 for males, while in the age group 35 to 44 the difference practically disappears. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Native whites of native parentage, 60.1 for males and 56.9 for females; foreign-born whites, 59.7 and 63.1, respectively; and native whites of foreign or mixed parentage, 40.6 and 45.2.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married, both for males and for females, is higher in rural than in urban communities.

**Dwellings and families**.—The total number of dwellings in New Hampshire is 88,871, and the total number of families 103,156, there being 116.1 families to each 100 dwellings. (See Table I.) The average number of persons per dwelling is 4.8, and the average number per family, 4.2.
