

POPULATION : RHODE ISLAND

COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Rhode Island gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for the four cities and one town of more than 25,000 inhabitants; Table III for the cities and towns of 10,000 to 25,000; Table IV for towns of 2,500 to 10,000; and Table V for wards of the two cities of 50,000 or more.

A series of summary tables (numbered 1 to 15) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, it is desirable that the two classes be distinguished in presenting census data. The Bureau of the Census has undertaken to do this by classifying as urban all incorporated places of 2,500 inhabitants or more. In New

England, however, where many villages of considerable size are not separately incorporated, it was deemed best to classify also towns of 2,500 or more inhabitants as urban, although this classification is not very satisfactory because such towns generally include more or less population that is essentially rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910. The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).—Of the total population of Rhode Island, 159,821, or 29.5 per cent, are native whites of native parentage; 194,646, or 35.9 per cent, are native whites of foreign or mixed parentage; 178,025, or 32.8 per cent, are foreign-born whites; and 9,529, or 1.8 per cent, are negroes. The corresponding percentages in 1900 were 33.8, 32.7, 31.2, and 2.1, respectively, the comparison indicating a considerable decrease in the proportion of native whites of native parentage. Of the five counties, Washington is the only one in which this latter class represents as much as one-half of the population. Foreign-born whites constitute more than one-third of the population of Providence and Bristol Counties. (See maps on page 15.)

Of the urban population, 28.2 per cent are native whites of native parentage; of the rural, 66.2 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 36.5 and 16.6 per cent, respectively. The percentage of foreign-born whites is 33.4 in the urban population and 14.6 in the rural.

Sex (Table 2).—In the total population of the state there are 270,314 males and 272,296 females, or 99.3 males to 100 females. In 1900 the ratio was 96.5 to 100. Among native whites the ratio is 97.1 to 100; among foreign-born whites, 103.6 to 100. In the urban population there are 98.9 males to 100 females, and in the rural, 110.5.

State of birth (Tables 3 and 4).—Of the native population—that is, population born in the United States—73.5 per cent were born in Rhode Island and 26.5 per cent outside the state; of the native negro population, 52.8 per cent were born outside the state. Persons born outside the state constitute a larger proportion of the native population in urban than in rural communities.

Foreign nationalities (Tables 5 and 12).—Of the foreign-born white population of Rhode Island, persons born in Canada represent 23.5 per cent (those of French parentage, 19.1, and all others, 4.4); Ireland, 16.7; England, 15.6; Italy, 15.3; Russia, 5.5; Sweden, 4.2; Scotland, 3.5; Austria, 3.4; Portugal, 3.4; Germany, 2.5; all other countries, 6.4 per cent. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Canada contributed 23.7 per cent (French stock, 19.6, and all others, 4.1); Ireland, 23.7; England, 14.4; Italy, 11.5; Russia, 4; Sweden, 3.5; Scotland, 3.3; Germany, 3; Portugal, 2.8; Austria, 2.4 per cent.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 163,834, representing 30.2 per cent of the population. Of such males, 29.6 per cent are native whites of native parentage, 22 per cent native whites of foreign or mixed parentage, and 46.3 per cent foreign-born whites. Of the 75,899 foreign-born white males of voting age, 32,040, or 42.2 per cent, are naturalized. Males of militia age—18 to 44—number 125,213.

Age (Tables 7, 8, and 13).—Of the total population, 10 per cent are under 5 years of age, 17.6 per cent from 5 to 14 years, inclusive, 19.5 per cent from 15 to 24, 32 per cent from 25 to 44, and 20.8 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 7.1 per cent of this class being under 15 years of age, while 74 per cent are 25 years of age and over. Of the native whites of foreign or mixed parentage, 31.8 per cent are 25 and over, and of the native whites of native parentage, 54.4 per cent.

The urban population shows a larger proportion of persons in the prime of life than does the rural, 32.1 per cent of the former being from 25 to 44 years of age, inclusive, and 28.6 per cent of the latter. There is also a higher percentage of children under 15 in urban communities than in rural (27.6 as compared with 25.5).

School attendance (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 148,102, of whom 90,328, or 61 per cent, attended school. In addition to these, 3,861 persons under 6 and 2,053 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 61.7; for girls, 60.2. For children from 6 to 14 years, inclusive, the percentage attending school was 88.8. The percentage for children of this age among native whites of native parentage was 91.2; among native whites of foreign or mixed parentage, 89; among foreign-born whites, 82.4; among negroes, 87.7. (See Table I.) Urban and rural communities show about the same percentage of school attendance for the ages from 6 to 14, but for persons from 15 to 20 years, the percentage is considerably higher in rural communities.

Illiteracy (Table 10).—There are 33,854 illiterates in the state, representing 7.7 per cent of the total population 10 years of age and over, as compared with 8.4 per cent in 1900. The percentage of illiteracy is

1.3 among native whites, 17.3 among foreign-born whites, and 9.5 among negroes.

Owing to the relatively large proportion of foreign-born whites in urban communities, the percentage of illiterates for all classes combined is higher in the urban than in the rural population for each class separately; however, the percentage is higher in the rural.

For persons from 10 to 20 years, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 3.1. (See Table I.)

Marital condition (Tables 11 and 14).—In the population 15 years of age and over, 40.1 per cent of the males are single and 35.8 per cent of the females. The percentage married is 54 for males and 52.2 for females, and the percentage widowed 5 and 10.9, respectively. The percentages of those reported as divorced, 0.6 and 0.8, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is smaller for women than for men is due largely to the fact that women marry younger. Thus 5.6 per cent of the females from 15 to 19 years of age are married, as compared with 0.7 per cent of the males, and 36.3 per cent of the females from 20 to 24 years are married, as compared with 19 per cent of the males. In the next age group, 25 to 34 years, the difference is not so great, the percentages being 64.9 for females and 59.8 for males, while in the age groups 35 to 44 and 45 and over a larger percentage of males than of females are married. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 63.5 for males and 61.6 for females; native whites of native parentage, 54.3 and 50.1, respectively; native whites of foreign or mixed parentage, 37.8 and 40.5, respectively; negroes, 53 and 49.9.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married is slightly higher for males and decidedly higher for females in rural than in urban communities.

Dwellings and families.—The total number of dwellings in Rhode Island is 79,725, and the total number of families 117,796, there being 147.8 families to each 100 dwellings. (See Table I.) The average number of persons per dwelling is 6.8, and the average number per family, 4.6.

PER CENT OF FOREIGN-BORN WHITE IN TOTAL
POPULATION: 1910.

PER CENT OF NATIVE WHITE OF FOREIGN OR MIXED
PARENTAGE IN TOTAL POPULATION: 1910.

POPULATION : SOUTH CAROLINA

COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for South Carolina gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for the two cities of more than 25,000 inhabitants; Table III for the two cities of 10,000 to 25,000; Table IV for places of 2,500 to 10,000; and Table V for wards of Charleston, the only city of more than 50,000 inhabitants.

A series of summary tables (numbered 1 to 14) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).—Of the total population of South Carolina, 679,161, or 44.8 per cent, are whites, and 835,843, or 55.2 per cent, negroes. The corresponding percentages in 1900 were 41.6 and 58.4, respectively, the proportion of whites having increased during the decade. In 4 of the 43 counties the proportion of negroes exceeds three-fourths, and in 29 other counties it exceeds one-half, the maximum percentage of negroes being that for Beaufort County (86.9). (See map on page 7.)

Native whites of native parentage constitute 43.7 per cent of the total population of the state, and 97.5 per cent of the white population. Native whites of foreign or mixed parentage constitute only 0.8 per cent of the total population, and foreign-born whites only 0.4 per cent.

Of the urban population, 49.6 per cent are native whites of native parentage; of the rural, 42.7 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 3.4 and 0.3 per cent, respectively; for foreign-born whites, 1.8 and 0.2 per cent. The percentage of negroes is 45.2 in the urban population and 56.9 in the rural.

Sex (Table 2).—In the total population of the state there are 751,842 males and 763,558 females, or 98.5 males to 100 females. In 1900 the ratio was 98.4 to 100. Among the whites there are 102.4 males to 100 females; among the negroes, 95.4 to 100. Among native whites the ratio is 102 to 100, as compared with 159.3 to 100 for the foreign-born whites. In the urban population there are 90.2 males to 100 females, but in the rural, the sexes are nearly equal in number.

State of birth (Tables 3 and 4).—Of the total native population—that is, population born in the United States—94.8 per cent were born in South Carolina and 5.2 per cent outside the state; of the native white population, 9.4 per cent were born outside the state, and of the native negro, 1.8 per cent. Persons born outside the state constitute a larger proportion of the native population in urban than in rural communities.

Foreign nationalities (Table 5).—Of the foreign-born white population of South Carolina, persons born in Germany represent 28.8 per cent; Russia, 13; Ireland, 11.1; England, 8.3; Italy, 5.2; Turkey, 5; Greece, 4.7; Canada, 4.5; all other countries, 19.4 per cent. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 33.2 per cent; Ireland, 19.3; England, 8.9; Russia, 8.4; Scotland, 4.6; Canada, 3.6; Italy, 3.2; Turkey, 2.5; Austria, 2.4 per cent.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 335,046, representing 22.1 per cent of the population. Of such males, 49.5 per cent are whites and 50.5 per cent negroes. Native whites represent 48.5 per cent of the total number and foreign-born whites 1 per cent. Of the 3,355 foreign-born white males of voting age, 1,602, or 47.7 per cent, are naturalized. Males of militia age—18 to 44—number 276,788.

Age (Tables 7, 8, and 12).—Of the total population, 15.1 per cent are under 5 years of age, 26.5 per cent from 5 to 14 years, inclusive, 21.4 per cent from 15 to 24, 23.5 per cent from 25 to 44, and 13.5 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 4.8 per cent of this class being under 15 years of age, while 82.9 per cent are 25 years of age and over. Of the native white population of native parentage, 39.9 per cent are 25 and over; of native whites of foreign or mixed parentage, 55.2 per cent; and of negroes, 33.9 per cent.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 30.5 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 22.2 per cent.

School attendance (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 564,260, of whom 291,307, or 51.6 per cent, attended school. In addition to these, 4,566 children under 6 and 4,486 persons 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 50.7; for girls, 52.6. For children from 6 to 14 years, inclusive, the percentage attending school was 62.6. The percentage for children of this age among native whites of native parentage was 72.1; among native whites of foreign or mixed parentage, 81.4; among foreign-born whites, 72.2; and among negroes, 56.1. (See Table I.) In urban communities the percentage of children of that age attending school was 71.4, and in rural, 61.5.

Illiteracy (Table 10).—There are 276,980 illiterates in the state, representing 25.7 per cent of the total population 10 years of age and over, as compared with 35.9 per cent in 1900. The percentage of illiteracy is 38.7 among negroes, 10.3 among native whites, and 6.8 among foreign-born whites. It is 10.5 for native whites of native parentage and 1.4 for native whites of foreign or mixed parentage.

Illiterates are relatively fewer in urban than in rural communities, the percentages being 15.6 and 27.7, respectively. The rural percentage exceeds the urban for each class of the population except the foreign-born whites, most of whom arrive in this country when past the school age. Among them the percentage of illiteracy is slightly higher in the urban population than in the rural.

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 19.1. (See Table I.)

Marital condition (Tables 11 and 13).—In the population 15 years of age and over, 35.5 per cent of the males are single and 29 per cent of the females. The percentage married is 59.7 for males and 58.4 for females, and the percentage widowed 4.4 and 12.1, respectively. Although the law granting divorces in South Carolina was repealed in 1878, the number reported in 1910 as divorced is believed to be too small, because of the probability that a number of divorced persons class themselves as single or widowed.

That the percentage single is smaller for women than for men is due largely to the fact that women marry younger. Thus 17.4 per cent of the females from 15 to 19 years of age are married, as compared with 3.1 per cent of the males, and 60.5 per cent of the females from 20 to 24 years are married, as compared with 41.6 per cent of the males. In the next age group, 25 to 34 years, the difference largely disappears, and among those in the next two age groups the percentage married is higher among the males. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 58 for males and 59 for females; native whites of native parentage, 58.3 and 59.5, respectively; native whites of foreign or mixed parentage, 51.6 and 46; negroes, 61.1 and 57.8.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married, both for males and for females, is higher in rural than in urban communities.

Dwellings and families.—The total number of dwellings in South Carolina is 302,842, and the total number of families 315,204, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 5, and the average number per family, 4.8.

POPULATION—SOUTH CAROLINA.

TABLE 7.—AGE, FOR THE STATE.

Table with columns: AGE PERIOD, TOTAL POPULATION (1910, 1900, Male, Female), NATIVE WHITE (Native parentage, Foreign or mixed parentage), FOREIGN-BORN WHITE, NEGRO, INDIAN, CHINESE, AND JAPANESE. Rows include All ages, number, Under 5 years, Under 1 year, 5 to 9 years, 10 to 14 years, 15 to 19 years, 20 to 24 years, 25 to 29 years, 30 to 34 years, 35 to 39 years, 40 to 44 years, 45 to 49 years, 50 to 54 years, 55 to 59 years, 60 to 64 years, 65 to 74 years, 75 to 84 years, 85 to 94 years, 95 years and over, Age unknown, All ages, per cent.

TABLE 8.—AGE, FOR URBAN AND RURAL POPULATION.

Table with columns: AGE PERIOD, TOTAL (Male, Female), NATIVE WHITE (Male, Female), FOREIGN-BORN WHITE (Male, Female), NEGRO (Male, Female). Rows include All ages, number, Under 5 years, Under 1 year, 5 to 9 years, 10 to 14 years, 15 to 19 years, 20 to 24 years, 25 to 34 years, 35 to 44 years, 45 to 64 years, 65 years and over, Age unknown, All ages, per cent.

TABLE 9.—SCHOOL ATTENDANCE.

[Per cent not shown where base is less than 100.]

Table with columns: AGE PERIOD, TOTAL (Number, Attending school), NATIVE WHITE (Native parentage, Foreign or mixed parentage), FOREIGN-BORN WHITE, NEGRO. Rows include THE STATE (6 to 20 years, inclusive, Male, Female, 6 to 9 years, 10 to 14 years, 15 to 17 years, 18 to 20 years, Under 6 years, 21 years and over, Total attending school), URBAN POPULATION (6 to 14 years, 15 to 20 years), RURAL POPULATION (6 to 14 years, 15 to 20 years).

NOTES REGARDING CHANGES IN BOUNDARIES, ETC., OF COUNTIES.

ABBEVILLE.—Part taken to form part of Greenwood in 1897.
AIKEN.—Organized from parts of Barnwell, Edgefield, Lexington, and Orangeburg in 1871.
BAMBERG.—Organized from part of Barnwell in 1897.
BARNWELL.—Part taken to form part of Aiken in 1871; part taken to form Bamberg in 1897.
BEAUFORT.—Part taken to form Hampton in 1878.
BERKELEY.—Organized from part of Charleston in 1882; part taken to form part of Dorchester in 1897, part annexed to Charleston between 1890 and 1900, and part annexed to Orangeburg in 1910.
CALHOUN.—Organized from parts of Lexington and Orangeburg in 1908.
CHARLESTON.—Part taken to form Berkeley in 1882; part of Berkeley annexed between 1890 and 1900.
CHEROKEE.—Organized from parts of Spartanburg, Union, and York in 1897.
CLARENDON.—Part taken to form part of Florence in 1888.
COLLETON.—Part taken to form part of Dorchester in 1897.
DARLINGTON.—Parts taken to form parts of Florence and Lee in 1888 and 1902, respectively, and part annexed to Florence between 1890 and 1900.
DILLON.—Organized from part of Marion in 1910.
DORCHESTER.—Organized from parts of Berkeley and Colleton in 1897.
EDGEFIELD.—Parts taken to form parts of Aiken and Greenwood in 1871 and 1897, respectively, and part taken to form Saluda in 1896.
FLORENCE.—Organized from parts of Clarendon, Darlington, Marion, and Williamsburg in 1888, part of Darlington annexed between 1890 and 1900, and part of Williamsburg annexed in 1905.
GREENWOOD.—Organized from parts of Abbeville and Edgefield in 1897.
HAMPTON.—Organized from part of Beaufort in 1878.
KERSHAW.—Part taken to form part of Lee in 1902.
LEE.—Organized from parts of Darlington, Kershaw, and Sumter in 1902.
LEXINGTON.—Parts taken to form parts of Aiken and Calhoun in 1871 and 1908, respectively, and part annexed to Newberry in 1901.
MARION.—Part taken to form part of Florence in 1888; part taken to form Dillon in 1910.
NEWBERRY.—Part of Lexington annexed in 1901.
ORANGEBURG.—Parts taken to form part of Aiken in 1871 and part of Calhoun in 1908; part of Berkeley annexed in 1910.
SALUDA.—Organized from part of Edgefield in 1896.
SPARTANBURG.—Part taken to form part of Cherokee in 1897.
SUMTER.—Part taken to form part of Lee in 1902.
UNION.—Part taken to form part of Cherokee in 1897.
WILLIAMSBURG.—Part taken to form part of Florence in 1888 and part annexed to Florence in 1905.
YORK.—Part taken to form part of Cherokee in 1897.
NOTE 1.—*Berkeley, Calhoun, Lexington, and Orangeburg Counties combined.*—Total population: 1910, 128,054, 1900, 117,381; increase, 1900-1910, 10,673; per cent of increase, 9.1. Urban population—1910, 5,906; same places in 1900, 4,455; per cent of increase, 32.0. Rural population—1910, 122,148; same territory in 1900, 112,928; per cent of increase, 8.3. Urban population—1900, 4,455; rural population—1900, 112,926. Per cent in places of 2,500 or more in 1910, 4.6. Per cent in places of 2,500 or more in 1900, 3.8.
NOTE 2.—*Darlington, Kershaw, Lee, and Sumter Counties combined.*—Total population: 1910, 126,911, 1900, 108,321; increase, 1900-1910, 18,590; per cent of increase, 17.2. Urban population—1910, 15,467; same places in 1900, 11,142; per cent of increase, 38.3. Rural population—1910, 111,444; same territory in 1900, 97,179; per cent of increase, 14.7. Urban population—1900, 8,701; rural population—1900, 99,620. Per cent in places of 2,500 or more in 1910, 12.2. Per cent in places of 2,500 or more in 1900, 8.
NOTE 3.—*Dillon and Marion Counties combined.*—Total population: 1910, 43,211, 1900, 35,181; increase, 1900-1910, 8,030; per cent of increase, 22.8. Urban population—1910, 3,844; same places in 1900, 1,831; per cent of increase, 109.9. Rural population—1910, 39,367; same territory in 1900, 33,350; per cent of increase, 18. Rural population—1900, 35,181. Per cent in places of 2,500 or more in 1910, 8.9.

POPULATION : SOUTH DAKOTA

COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for South Dakota gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of three general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for Aberdeen and Sioux Falls, the two cities of more than 10,000 inhabitants; and Table III for cities of 2,500 to 10,000 inhabitants.

A series of summary tables (numbered 1 to 12) reproduces from the general tables the more important state totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).—Of the total population of South Dakota, 245,652, or 42.1 per cent, are native whites of native parentage; 217,491, or 37.2 per cent, are native whites of foreign or mixed parentage; and 100,628, or 17.2 per cent, are foreign-born whites. The corresponding percentages in 1900 were 33.9, 38.9, and 22, respectively, the comparison indicating a marked increase in the proportion of native whites of native parentage. The 19,137 Indians constitute 3.3 per cent of the population and the 817 negroes, 0.1 per cent. In 51 of the 67 counties, the proportion of foreign-born whites is between 10 and 25 per cent; 5 counties report no foreign-born whites, and in 4 the proportion exceeds one-fourth. In 53 counties the population is more than one-fourth native white of foreign or mixed parentage, the proportion exceeding one-half in 4 counties. (See maps on page 7.)

Of the urban population, 51.5 per cent are native whites of native parentage; of the rural, 40.6 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 31.3 and 38.1 per cent, respectively. The percentage of foreign-born whites is 16.3 in the urban population and 17.4 in the rural; of negroes 0.5 in the urban and 0.1 in the rural. The Indians are almost exclusively found in the rural population, of which they constitute 3.8 per cent.

Sex (Table 2).—In the total population of the state there are 317,112 males and 266,776 females, or 118.9 males to 100 females. In 1900 the ratio was 116.6 to 100. Among native whites the ratio is 114.5 to 100 and among foreign-born whites, 145.8. In the urban population there are 113.5 males to 100 females, and in the rural, 119.7.

State of birth (Tables 3 and 4).—Of the native population—that is, population born in the United States—46.6 per cent were born in South Dakota and 53.4 per cent outside the state; of the native white population, 54.8 per cent were born outside the state; of the native negro, 82.8 per cent; and of the native Indian, 19 per cent. Persons born outside the state constitute a larger proportion of the native population in urban than in rural communities.

Foreign nationalities (Table 5).—Of the foreign-born white population of South Dakota, persons born in Germany represent 21.4 per cent; Norway, 20.8; Russia, 13.1; Sweden, 9.9; Denmark, 6.3; Canada, 6;

Austria, 5.3; England, 4; Ireland, 3; Holland, 2.6; all other countries, 7.5 per cent. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 26 per cent; Norway, 19.1; Russia, 10.4; Sweden, 7.3; Canada, 6.3; Ireland, 5.5; Denmark, 4.7; England, 4.7; Austria, 4.2; Holland, 2.1; Scotland, 1.3; Finland, 1 per cent.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 178,189, representing 30.5 per cent of the population. Of such males, 36.9 per cent are native whites of native parentage, 29.4 per cent native whites of foreign or mixed parentage, 30.6 per cent foreign-born whites, 2.8 per cent Indians, and 0.2 per cent negroes. Of the 54,528 foreign-born white males of voting age, 32,495, or 59.6 per cent, are naturalized. Males of militia age—18 to 44—number 140,635.

Age (Tables 7 and 8).—Of the total population, 12.6 per cent are under 5 years of age, 21.8 per cent from 5 to 14 years, inclusive, 20.8 per cent from 15 to 24, 28.1 per cent from 25 to 44, and 16.5 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 4.3 per cent of this class being under 15 years of age, while 83.6 per cent are 25 years of age and over. Of the native whites of foreign or mixed parentage, 34.1 per cent are 25 and over; of the native whites of native parentage, 37.6 per cent; and of the Indians, 47.6 per cent.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Migration to urban communities explains this at least in part. Of the urban population, 33.4 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 27.3 per cent.

School attendance (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 183,979, of whom 122,642, or 66.7 per cent, attended school. In addition to these, 1,790 children under 6 and 2,471 persons 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 66.1; for girls, 67.2. For children from 6 to 14 years, inclusive, the percentage attending school was 83.3. The percentage for children of this age among native whites of foreign or mixed parentage was 84.6; among native whites of native parentage, 84.1; among foreign-born whites, 72.9; among negroes, 86.4; and among Indians, 61.2. (See Table I.) The percentage of school attendance for children from 6 to 14 was 87.2 in the urban population and 82.8 in the rural; for persons from 15 to 20, the percentages were 44 and 39.8, respectively.

Illiteracy (Table 10).—There are 12,750 illiterates in the state, representing 2.9 per cent of the total population 10 years of age and over, as compared with 5 per cent in 1900. The percentage of illiteracy is 45.5 among Indians, 5.5 among negroes, 5 among foreign-born whites, and 0.4 among native whites.

For all classes combined, the percentage of illiterates is 1.6 in urban communities and 3.1 in rural. More

than one-half of the rural illiterates, however, are Indians. For each of the native white classes the percentage of illiterates is the same in the rural as in the urban population, and for the foreign-born whites is lower in the rural.

For persons from 10 to 20 years, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is very low, being only 0.8. (See Table I.)

Marital condition (Table 11).—In the population 15 years of age and over, 44.6 per cent of the males are single and 29.3 per cent of the females. The percentage married is 50.4 for males and 63 for females, and the percentage widowed 3.6 and 6.6, respectively. The percentages of those reported as divorced, 0.6 both for males and for females, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due partly to the excess of males in the total population and partly to the fact that women marry younger. Thus 8 per cent of the females from 15 to 19 years of age are married, as compared with 0.4 per cent of the males, and 49.3 per cent of the females from 20 to 24 years are married, as compared with 15.6 per cent of the males; in the age group, 25 to 34 years, the percentages are 81.5 and 55.5, respectively. In the next age group, 35 to 44, the difference is less marked, while in the age group 45 and over the percentage married is higher among the males. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 62.3 for males and 75.4 for females; native whites of native parentage, 48.7 and 61.9, respectively; native whites of foreign or mixed parentage, 41.3 and 55.8; negroes, 47.2 and 58; Indians, 63.3 and 65.9.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for females is higher in rural than in urban communities; for males, slightly lower.

Dwellings and families.—The total number of dwellings in South Dakota is 127,739, and the total number of families 131,060, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.6, and the average number per family, 4.5.

¹ For changes in boundaries, etc., see page 23.

² For combined figures for Cheyenne River Indian Reservation, comprising Armstrong, Dewey, Schnasse, and Sterling Counties, see Note 1 on page 23.

³ For combined figures for Rosebud Indian Reservation (comprising Mellette, Todd, and parts of Bennett and Washabaugh Counties) and Tripp County, see Note 2 on page 23.

⁴ State total includes population of Cheyenne River (2,357) and Rosebud (5,201) Indian Reservations and part of Standing Rock Indian Reservation (1,658), not returned by counties in 1900, distributed by color and nativity as follows: Native white—native parentage, 359; native white—foreign or mixed parentage, 117; foreign-born white, 72; negro, 4; and Indian, 8,664.

⁵ State total includes population (19,792) of Indian reservations specially enumerated in 1890, not distributed by counties; also population (1,351) of Choteau, DeLano, Ewing, Jackson, Martin, Nowlin, Pratt, Presho, Scooby, Ziebach, and Old Harding and Todd Counties, annexed to other counties between 1890 and 1900.

⁶ State total includes population (534) of Boreman County, located within the limits of Standing Rock Indian Reservation; population (115) of Meyer County, located within the limits of Rosebud Indian Reservation; population (113) of Shannon County, part taken to form Washington County in 1883; and population (203) of old Todd County, annexed to Gregory County between 1890 and 1900; population (134) of Fort Sisseton, abandoned in 1883; and population (73) of Sisseton and Wahpeton Indian Reservation.

COMPOSITION AND CHARACTERISTICS.

POPULATION FOR THE STATE AND FOR COUNTIES.

A minus sign (-) denotes decrease.]

NOTES REGARDING CHANGES IN BOUNDARIES, ETC., OF COUNTIES.

ARMSTRONG.—Unorganized; formed in 1883; within the limits of Cheyenne River Indian Reservation. Name changed from Pyatt in 1895. (See also Note 1.)

AURORA.—Organized from parts of Cragin and Wetmore in 1879; part taken to form Jerauld in 1883.

BEADLE.—Organized from parts of Burchard, Clark, Kingsbury, and Spink in 1873; part taken to form part of Brown in 1879.

BENNETT.—Unorganized; formed in 1909 from parts of Lugenbeel, Shannon, Washabaugh, and Washington; within the limits of Pine Ridge and Rosebud Indian Reservations. (See also Note 2.)

BROOKINGS.—Parts taken to form part of Hanson in 1871 and parts of Lake and Moody in 1873.

BROWN.—Organized from parts of Beadle and Mills in 1879.

BRULE.—Organized from part of Buffalo in 1875.

BUFFALO.—Parts taken to form Campbell, Edmunds, Faulk, Hand, Hughes, Hyde, McPherson, Potter, and Walworth, S. Dak., and Bottineau, Burleigh, Kidder, Logan, McHenry, Mountrail, Rolette, Sheridan, Stevens, Walleto, Wells, and parts of Lamoure and Stutsman, N. Dak., in 1873; parts taken to form Brule, S. Dak., and De Smet, N. Dak., in 1875.

BUTTE.—Organized from part of Harding and unorganized territory in 1883 and Choteau, Ewing, Harding, Martin, Rinehart, and Wagner annexed in 1899; parts taken to form Harding (new) and Perkins in 1909. (See also Note 3.)

CAMPBELL.—Organized from part of Buffalo in 1873.

CHARLES MIX.—Part taken to form Douglas in 1873.

CLARK.—Organized from part of Hanson in 1873; parts taken to form part of Beadle in 1873 and part of Codrington in 1877.

CODRINGTON.—Organized from parts of Clark, Grant, and Hamlin in 1877; part of Sisseton and Wahpeton Indian Reservation annexed between 1880 and 1890.

CORSON.—Organized in 1909 from Boreman and parts of Dewey and Schnasse (comprising that part of Standing Rock Indian Reservation in South Dakota).

CUSTER.—Formed from unorganized territory in 1875; part taken to form Fall River in 1883.

DAVISON.—Organized from part of Hanson in 1873.

DAY.—Organized from Greeley and part of Stone in 1879; part taken to form part of Marshall in 1885; part of Sisseton and Wahpeton Indian Reservation annexed between 1880 and 1890.

DEUEL.—Part taken to form part of Hanson in 1871; parts taken to form Grant and parts of Hamlin, S. Dak., and Renville, N. Dak., in 1873.

DEWEY.—Unorganized; formed in 1873; within the limits of Cheyenne River Indian Reservation. Part taken to form part of Corson in 1909; name changed from Rusk in 1883. (See also Note 1.)

DOUGLAS.—Organized from part of Charles Mix in 1873.

EDMUNDS.—Organized from part of Buffalo in 1873.

FALL RIVER.—Organized from part of Custer in 1883.

FAULK.—Organized from part of Buffalo in 1873.

GRANT.—Organized from part of Deuel in 1873; parts taken to form part of Codrington in 1877 and part of Roberts in 1883; part of Sisseton and Wahpeton Indian Reservation annexed between 1880 and 1890.

GREGORY.—Todd (old) annexed in 1899.

HAMLIN.—Organized from parts of Deuel and Hanson in 1873; part taken to form part of Codrington in 1877.

HAND.—Organized from part of Buffalo in 1873 and part of Burchard annexed in 1879.

HANSON.—Organized from parts of Brookings, Deuel, and Minnehaha in 1871; parts taken to form Mercer, N. Dak., and Clark, Davison, Kingsbury, Miner, Spink, and Stone, and parts of Hamlin, Lake, and McCook, S. Dak., in 1873; part of Cragin annexed in 1879 and part of Jayne annexed between 1870 and 1880.

HARDING.—Organized from part of Butte in 1909. (See also Note 3.)

HUGHES.—Organized from part of Buffalo in 1873.

HUTCHINSON.—Armstrong (old) annexed in 1879 and part of Jayne annexed between 1870 and 1880.

HYDE.—Organized from part of Buffalo in 1873.

JERAULD.—Organized from part of Aurora in 1883.

KINGSBURY.—Organized from part of Hanson in 1873; part taken to form part of Beadle in 1873.

LAKE.—Organized from parts of Brookings, Hanson, and Minnehaha in 1873.

LAWRENCE.—Formed from unorganized territory in 1875; part taken to form Meade in 1889.

LINCOLN.—Part taken to form part of Turner in 1871.

LYMAN.—Formed from unorganized territory in 1873 and Pratt and Presho annexed in 1899.

MCCOOK.—Organized from parts of Hanson and Jayne in 1873 and part of Jayne annexed between 1870 and 1880.

MCPHERSON.—Organized from part of Buffalo in 1873.

MARSHALL.—Organized from parts of Day County and Sisseton and Wahpeton Indian Reservation in 1885.

MEADE.—Organized from part of Lawrence in 1889 and Delano and Scobey annexed in 1899.

MELLETTTE.—Unorganized; formed in 1909 from parts of Meyer and Washabaugh; within the limits of Rosebud Indian Reservation. (See also Note 2.)

MINER.—Organized from part of Hanson in 1873; parts annexed to Bramble and Wetmore in 1879; part taken to form Sanborn in 1883.

MINNEHAHA.—Parts taken to form part of Hanson in 1871 and parts of Lake and Moody in 1873.

MOODY.—Organized from parts of Brookings and Minnehaha in 1873.

PENNINGTON.—Formed from unorganized territory in 1875; part taken to form Ziebach in 1879; Ziebach annexed in 1899.

PERKINS.—Organized from part of Butte in 1909. (See also Note 3.)

POTTER.—Organized as Ashmore from part of Buffalo in 1873; name changed in 1875.

ROBERTS.—Organized from parts of Grant County and Sisseton and Wahpeton Indian Reservation in 1883.

SANBORN.—Organized from part of Miner in 1883.

SCHNASSE.—Unorganized; formed in 1883; within the limits of Cheyenne River Indian Reservation; part taken to form part of Corson in 1909. (See also Note 1.)

SHANNON.—Unorganized; formed in 1883; within the limits of Pine Ridge Indian Reservation; parts taken to form Washington in 1883 and part of Bennett in 1909.

SPINK.—Organized from part of Hanson in 1873; part taken to form part of Beadle in 1873.

STANLEY.—Formed from unorganized territory in 1873; Jackson, Nowlin, and part of Sterling annexed in 1899.

STERLING.—Unorganized; formed in 1883; within the limits of Cheyenne River Indian Reservation; part annexed to Stanley in 1899. (See also Note 1.)

SULLY.—Formed from unorganized territory in 1873.

TODD.—Unorganized; formed in 1909 from parts of Lugenbeel, Meyer, Tripp, and Washabaugh; within the limits of Rosebud Indian Reservation. (See also Note 2.)

TRIPP.—Organized from part of Rosebud Indian Reservation in 1909. (See also Note 2.)

TURNER.—Organized from parts of Jayne and Lincoln in 1871 and part of Jayne annexed between 1870 and 1880.

UNION.—Part ceded to Dakota County, Nebr., in 1903.

WALWORTH.—Organized from part of Buffalo in 1873.

WASHABAUGH.—Unorganized; formed in 1883; within the limits of Pine Ridge and Rosebud Indian Reservations; parts taken to form parts of Bennett, Mellette, and Todd in 1909. (See also Note 2.)

WASHINGTON.—Unorganized; formed from part of Shannon in 1883; within the limits of Pine Ridge Indian Reservation; part taken to form part of Bennett in 1909.

PINE RIDGE INDIAN RESERVATION.—Comprising Shannon, Washington, and parts of Bennett and Washabaugh Counties, but division by counties can not be made.

NOTE 1.—*Cheyenne River Indian Reservation, comprising Armstrong, Dewey, Schnasse, and Sterling Counties.*—Total population: 1910, 2,338; 1900, 2,365; decrease, 1900-1910, 20; per cent of decrease, 1.2. Rural population, 1910, 2,338; same territory in 1900, 2,365; per cent of decrease, 1.2. Rural population, 1900, 2,365.

NOTE 2.—*Rosebud Indian Reservation (comprising Mellette, Todd, and parts of Bennett and Washabaugh Counties) and Tripp County.*—Total population: 1910, 12,283; 1900, 5,201; increase, 1900-1910, 7,082; per cent of increase, 136.2. Rural population, 1910, 12,283; same territory in 1900, 5,201; per cent of increase, 136.2. Rural population, 1900, 5,201.

NOTE 3.—*Butte, Harding, and Perkins Counties combined.*—Total population: 1910, 20,569; 1900, 2,907; increase, 1900-1910, 17,662; per cent of increase, 607.6. Rural population, 1910, 20,569; same territory in 1900, 2,907; per cent of increase, 607.6. Rural population, 1900, 2,907.

NOTE 4.—In computing this increase the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make that total comparable with the total for 1890, which does not include the population of Indian reservations. The population thus deducted in two counties was as follows: Buffalo, 1,123; Lyman, 517.

NOTE 5.—*Population of that part of Standing Rock Indian Reservation now constituting Corson County.*—1900, 1,658; increase, 1900-1910, 1,271; per cent of increase, 76.7. Rural population, 1910, 2,929; same territory in 1900, 1,658; per cent of increase, 76.7. Rural population, 1900, 1,658.

POPULATION : TENNESSEE

COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Tennessee gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for cities of 25,000 inhabitants or more; Table III for places of 10,000 to 25,000; Table IV for places of 2,500 to 10,000; and Table V for wards of Memphis and Nashville, the only cities of more than 50,000.

A series of summary tables (numbered 1 to 15) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).—Of the total population of Tennessee, 1,711,432, or 78.3 per cent, are whites, and 473,088, or 21.7 per cent, negroes. The corresponding percentages in 1900 were 76.2 and 23.8, respectively. In 79 of the 96 counties less than one-fourth of the population are negroes; in Fayette and Haywood Counties, however, the proportion is more than two-thirds (75 per cent and 68.4 per cent, respectively). (See map on page 31.)

Native whites of native parentage constitute 75.7 per cent of the total population of the state and 96.7 per cent of the white population. Native whites of foreign or mixed parentage constitute only 1.7 per cent of the total population, and foreign-born whites only 0.8 per cent.

Of the urban population, 57.2 per cent are native whites of native parentage; of the rural population, 80.4 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 5.9 and 0.7 per cent, respectively. The percentage of foreign-born whites is 2.9 in the urban population and 0.3 in the rural; the percentage of negroes is 34.1 in the urban and 18.5 in the rural.

Sex (Table 2).—In the total population of the state there are 1,103,491 males and 1,081,298 females, or 102.1 males to 100 females. In 1900 the ratio was 102.2 to 100. Among the whites there are 103.3 males to 100 females, and among the negroes 97.6. For all native whites combined the ratio is 102.9 to 100, as compared with 152.4 to 100 for the foreign-born whites. In the urban population there are 95.4 males to 100 females, and in the rural 103.8.

State of birth (Tables 3 and 4).—Of the native population—that is, population born in the United States—86.5 per cent were born in Tennessee and 13.5 per cent outside the state; of the native white population, 12.6 per cent were born outside the state, and of the native negro, 16.9 per cent. Persons born outside the state constitute a much larger proportion of the native population in urban than in rural communities.

Foreign nationalities (Tables 5 and 12).—Of the foreign-born white population of Tennessee, persons born in Germany represent 21.1 per cent; Russia, 13.5; Ireland, 12.4; England, 11.1; Italy, 11; Canada, 6.2; Switzerland, 4.3; Austria, 3.5; Scotland, 3; all other countries, 14. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 25.6 per cent; Ireland, 19.6; England, 11.4; Russia, 7.5; Italy, 6.6; Canada, 5; Switzerland, 4.2; Scotland, 3.4; Austria, 2.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 552,668, representing 25.3 per cent of the population. Of such males, 78.4 per cent are whites and 21.6 per cent negroes. Native whites represent 76.6 per cent of the total number and foreign-born whites 1.8 per cent. Of the 10,112 foreign-born white males of voting age, 5,444, or 53.8 per cent, are naturalized. Males of militia age—18 to 44—number 423,088.

Age (Tables 7, 8, and 13).—Of the total population, 13.5 per cent are under 5 years of age, 23.4 per cent from 5 to 14 years, inclusive, 20.6 per cent from 15 to 24, 25.6 per cent from 25 to 44, and 16.8 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 5.1 per cent of this class being under 15 years of age, while more than five-sixths (83.9 per cent) are 25 years of age and over. The negro population comprises a somewhat smaller proportion of children under 15 than the native white population of native parentage.

The urban population shows a smaller proportion of children than the rural, and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 33.7 per cent are from 25 to 44 years of age, inclusive, and of the rural population 23.5 per cent.

School attendance (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 738,478, of whom 438,547, or 59.4 per cent, attended school. In addition to these, 5,409 persons under 6 and 7,234 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 59.2; for girls, 59.6. For children from 6 to 14 years, inclusive, the percentage attending school was 72.1. The percentage for children of this age among native whites of native parentage was 75.2; among native whites of foreign or mixed parentage, 83.6; among foreign-born whites, 78.9; and among negroes, 60.1. (See Table I.) In urban communities the percentage of children of that age attending school was 77.5; in rural communities, 71.1.

Illiteracy (Table 10).—There are 221,071 illiterates in the state, representing 13.6 per cent of the total population 10 years of age and over, as compared with 20.7 per cent in 1900. The percentage of illiteracy is 27.3 among negroes, 9.7 among native whites, and 8.3 among foreign-born whites. It is 9.9 for native whites of native parentage, as against 1.8 for native whites of foreign or mixed parentage.

Illiterates are relatively fewer in urban than in rural communities, the percentages being 8.9 and 15, respectively. The rural percentage exceeds the urban for each class of the population except the foreign-born whites, most of whom arrive in this country when past the school age, and among whom the percentage of illiteracy is the same in urban as in rural communities.

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 8. (See Table I.)

Marital condition (Tables 11 and 14).—In the population 15 years of age and over, 35 per cent of the males are single and 27.3 per cent of the females. The percentage married is 59.1 for males and 60 for females, and the percentage widowed 5.2 and 11.7, respectively. The number reported as divorced, comprising 0.4 per cent of the males and 0.8 per cent of the females, is believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due largely to the fact that women marry younger. Thus, 18.3 per cent of the females from 15 to 19 years of age are married, as compared with 3.1 per cent of the males; and 58.1 per cent of the females from 20 to 24 years are married, as compared with 35.4 per cent of the males. In the next age group, 25 to 34 years, the percentages are 77.2 and 71.6, respectively, while in the age groups 35 to 44 and 45 and over the percentage married is higher among the males. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 63.2 for males, 62.2 for females; native whites of native parentage, 59.9 and 61.6, respectively; native whites of foreign or mixed parentage, 53.8 and 53.4, respectively; negroes, 56.4 for males and 55.5 for females.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married, both for males and females, is higher in rural than in urban communities.

Dwellings and families.—The total number of dwellings in Tennessee is 444,814, and the total number of families 462,553, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.9, and the average number per family, 4.7.

COMPOSITION AND CHARACTERISTICS.

PER CENT OF NEGROES IN TOTAL POPULATION OF TENNESSEE: 1910.

NOTES REGARDING CHANGES IN BOUNDARIES, ETC.

THE STATE

Island No. 25 ceded to Arkansas in 1905

COUNTIES.

BEDFORD.—Part taken to form part of Moore in 1872.
BLOUNT.—Part taken to form part of Loudon in 1870.
BRADLEY.—Part taken to form part of James in 1871.
CARTER.—Part taken to form part of Unicoi in 1875.
CHESTER.—Organized from parts of Hardeman, Henderson, McNairy, and Madison in 1882 and parts of Henderson and McNairy annexed in 1886 and 1887, respectively.
CLAIBORNE.—Part annexed to Union in 1873.
CLAY.—Organized from parts of Jackson and Overton in 1870.
COFFEY.—Part of Grundy annexed in 1874.
CROCKETT.—Organized from parts of Dyer, Gibson, Haywood, and Madison in 1872.
DICKSON.—Part taken to form part of Houston in 1871.
DYER.—Parts taken to form parts of Lake and Crockett in 1870 and 1872, respectively.
FENTRESS.—Part taken to form part of Pickett in 1881.
FRANKLIN.—Part taken to form part of Moore in 1872.
GIBSON.—Part taken to form part of Crockett in 1872.
GILES.—Part annexed to Marshall in 1870.
GRAINGER.—Part taken to form part of Hamblen in 1870 and part annexed to Union in 1873.
GRUNDY.—Part annexed to Coffey in 1874.
HAMBLEN.—Organized from parts of Grainger, Hawkins, and Jefferson in 1870.
HAMILTON.—Part taken to form part of James in 1871.
HANCOCK.—Part annexed to Hawkins in 1870.
HARDEMAN.—Part taken to form part of Chester in 1882.
HAWKINS.—Part taken to form part of Hamblen in 1870; part of Hancock annexed in 1870.
HAYWOOD.—Part taken to form part of Crockett in 1872.
HENDERSON.—Part taken to form part of Chester in 1882 and part annexed to Chester in 1886.
HICKMAN.—Part annexed to Lewis in 1897.
HOUSTON.—Organized from parts of Dickson, Humphreys, Montgomery, and Stewart in 1871.
HUMPHREYS.—Part taken to form part of Houston in 1871.
JACKSON.—Part taken to form part of Clay in 1870.
JAMES.—Organized from parts of Bradley and Hamilton in 1871.
JEFFERSON.—Part taken to form part of Hamblen in 1870.
LAKE.—Organized from parts of Dyer and Obion in 1870.
LAUDERDALE.—Island No. 25 ceded to Arkansas in 1905.

LEWIS.—Parts of Hickman and Wayne annexed in 1897.
LINCOLN.—Part taken to form part of Moore in 1872.
LOUDON.—Organized from parts of Blount, McMinn, Monroe, and Roane in 1870.
McMINN.—Part taken to form part of Loudon in 1870.
McNAIRY.—Part taken to form part of Chester in 1882 and part annexed to Chester in 1887.
MACON.—Part taken to form part of Trousdale in 1870; part of Sumner annexed in 1873.
MADISON.—Parts taken to form part of Crockett in 1872 and part of Chester in 1882.
MARSHALL.—Part of Giles annexed in 1870.
MONROE.—Part taken to form part of Loudon in 1870.
MONTGOMERY.—Part taken to form part of Houston in 1871.
MOORE.—Organized from parts of Bedford, Franklin, and Lincoln in 1872.
OBION.—Part taken to form part of Lake in 1870; part of Weakley annexed in 1870.
OVERTON.—Parts taken to form parts of Clay and Pickett in 1870 and 1881, respectively.
PERRY.—Part of Wayne annexed in 1909.
PICKETT.—Organized from parts of Fentress and Overton in 1881.
ROANE.—Part taken to form part of Loudon in 1870.
SMITH.—Part taken to form part of Trousdale in 1870.
STEWART.—Part taken to form part of Houston in 1871.
SUMNER.—Part taken to form part of Trousdale in 1870 and part annexed to Macon in 1873.
TROUSDALE.—Organized from parts of Macon, Smith, Sumner, and Wilson in 1870.
UNICOI.—Organized from parts of Carter and Washington in 1875.
UNION.—Parts of Claiborne and Grainger annexed in 1873.
WASHINGTON.—Part taken to form part of Unicoi in 1875.
WAYNE.—Part annexed to Lewis in 1897 and part to Perry in 1909.
WEAKLEY.—Part annexed to Obion in 1870.
WILSON.—Part taken to form part of Trousdale in 1870.

INCORPORATED PLACES.

CHATTANOOGA.—Parts of old Civil Districts Nos. 5 and 10 annexed in 1905 and part of No. 6 annexed in 1907.
CLEVELAND.—Part of Civil District No. 1 annexed in 1000.
KNOXVILLE.—North Knoxville and West Knoxville towns annexed between 1890 and 1900.
LENOIR CITY.—Incorporated in 1907.
MEMPHIS.—Part of Civil District No. 18 (Lenox town) annexed in 1909.
NASHVILLE.—Parts of old Civil Districts Nos. 9, 10, 13, 17, and 18 annexed in 1906 and part of new No. 11 annexed in 1907; part annexed to new No. 6 in 1907.
PARK CITY.—Incorporated in 1907.

POPULATION : TEXAS

COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Texas gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for cities of more than 25,000 inhabitants; Table III for cities of 10,000 to 25,000; Table IV for places of 2,500 to 10,000; and Table V for wards of cities of more than 50,000.

A series of summary tables (numbered 1 to 15) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).—Of the total population of Texas, 3,204,848, or 82.2 per cent, are whites, and 690,049, or 17.7 per cent, negroes. The corresponding percentages in 1900 were 79.6 and 20.4, respectively. Twenty-eight of the 245 counties report no negroes; in 137 other counties the percentage of negroes is less than 12.5; in 30 it is between 12.5 and 25; in 42, between 25 and 50, and in 8 the proportion exceeds one-half. (See map on page 65.)

Native whites of native parentage constitute 66.8 per cent of the total population of the state, and 81.2 per cent of the white population. Native whites of foreign or mixed parentage constitute only 9.3 per cent of the total population, and foreign-born whites only 6.2 per cent.

Of the urban population, 59.5 per cent are native whites of native parentage; of the rural, 69.1 per cent. The corresponding proportions for native whites of foreign or mixed parentage, are 12.2 and 8.4 per cent, respectively. The percentage of foreign-born whites is 9.2 in the urban population and 5.2 in the rural; the percentage of negroes is 19.1 in the urban and 17.3 in the rural.

Sex (Tables 2 and 12).—In the total population of the state there are 2,017,626 males and 1,878,916 females, or 107.4 males to 100 females, the ratio being the same in 1910 as it was in 1900. Among the whites there are 109 males to 100 females; among the negroes the population is about equally divided between the sexes. Among native whites the ratio is 107.3 to 100, as compared with 132.6 to 100 for the foreign-born whites. In the urban population there are 101.7 males to 100 females, and in the rural, 109.3.

State of birth (Tables 3 and 4).—Of the total native population—that is, population born in the United States—74.7 per cent were born in Texas and 25.3 per cent outside the state; of the native white population, 28.2 per cent were born outside the state, and of the native negro, 12.5 per cent. Persons born outside the state constitute a larger proportion of the native population in urban than in rural communities.

Foreign nationalities (Table 5).—Of the foreign-born white population of Texas, persons born in Mexico represent 51.8 per cent; Germany, 18.7; Austria, 8.6; England, 3.5; Italy, 3; Russia, 2.4; Ireland, 2.2; Sweden, 2; all other countries, 7.7 per cent. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Mexico contributed 38.7 per cent; Germany, 28.5; Austria, 8.8; England, 4.4; Ireland, 3.8; Italy, 2.3; Sweden, 1.9; Russia, 1.8; Canada, 1.6 per cent.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 1,003,357, representing 25.7 per cent of the population. Of such males, 83.3 per cent are whites and 16.6 per cent negroes. Native whites represent 72.1 per cent of the total number and foreign-born whites 11.2 per cent. Of the 112,152 foreign-born white males of voting age 43,381, or 38.7 per cent, are naturalized. Males of militia age—18 to 44—number 804,980.

Age (Tables 7, 8, and 13).—Of the total population, 13.8 per cent are under 5 years of age, 24.8 per cent from 5 to 14, inclusive, 20.9 per cent from 15 to 24, 25.9 per cent from 25 to 44, and 14.4 per cent 45 and over. The foreign-born white population comprises comparatively few children, only 11.5 per cent of this class being under 15, while 72.4 per cent are 25 years of age and over. Of the native whites of native parentage and of the negroes, only 38.6 per cent are 25 and over. The negro population comprises a somewhat smaller proportion of children under 5 than the native white population of native parentage.

The urban population shows a smaller proportion of children than the rural, and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 32.7 per cent are from 25 to 44 years of age, inclusive, and of the rural, 23.7 per cent.

School attendance (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 1,363,713, of whom 790,736, or 58 per cent, attended school. In addition to these, 6,740 children under 6 and 12,601 persons 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 57.7; for girls, 58.3. For children from 6 to 14 years, inclusive, the percentage attending school was 70.2. The percentage for children of this age among native whites of native parentage was 74.3; among native whites of foreign or mixed parentage, 60.3; among foreign-born whites, 38.4; among negroes, 64.5. (See Table I.) In urban communities the percentage of children of that age attending school was 74.3, and in rural, 69.2.

Illiteracy (Table 10).—There are 282,904 illiterates in the state, representing 9.9 per cent of the total population 10 years of age and over, as compared with 14.5 per cent in 1900. The percentage of illiteracy is 30 among foreign-born whites, 24.6 among negroes, and 4.3 among native whites. It is 3.3 for native whites of native parentage, and 11.6 for native whites of foreign or mixed parentage.

For all classes combined, the percentage of illiterates is 7.1 in the urban population and 10.9 in the rural. For each class separately, also, the percentage of illiterates in the rural population greatly exceeds that in the urban.

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 6.7. (See Table I.)

Marital condition (Tables 11 and 14).—In the population 15 years of age and over, 37.2 per cent of the males are single and 26 per cent of the females. The percentage married is 57.2 for males and 62.7 for females; and the percentage widowed 4.6 and 10.2, respectively. The percentages of those reported as divorced, 0.5 and 0.8, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due largely to the fact that women marry younger. Thus 17.9 per cent of the females from 15 to 19 years of age are married, as compared with 1.9 per cent of the males, and 61 per cent of the females from 20 to 24 years are married, as compared with 31.6 per cent of the males. In the next age group, 25 to 34 years, the difference in the percentages is less marked, and in the age group 35 to 44 it is very slight, while among those 45 and over the percentage married is higher for the males. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 62.8 for males, 67.5 for females; native whites of native parentage, 57.5 and 64.2, respectively; native whites of foreign or mixed parentage, 49.3 and 57.1; negroes, 57 and 57.8.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married, both for males and for females, is higher in rural than in urban communities.

Dwellings and families.—The total number of dwellings in Texas is 779,177, and the total number of families 798,426, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 5, and the average number per family, 4.9.

POPULATION—TEXAS.

TABLE 13.—AGE, FOR CITIES OF 25,000 OR MORE.

Table with columns for AGE PERIOD, TOTAL (Male/Female), NATIVE WHITE (Male/Female), FOREIGN-BORN WHITE (Male/Female), NEGRO (Male/Female) for cities: Austin, Dallas, El Paso, Fort Worth, Galveston, Houston, San Antonio, Waco.

TABLE 14.—MARITAL CONDITION, FOR CITIES OF 25,000 OR MORE.
