

APPENDIX

FARM POPULATION OF SELECTED COUNTIES

WITH

COMPOSITION, CHARACTERISTICS, AND
OCCUPATIONS, IN DETAIL

BASED ON A SPECIAL TABULATION OF CENSUS SCHEDULES BY THE
DIVISION OF FARM POPULATION AND RURAL LIFE
BUREAU OF AGRICULTURAL ECONOMICS
DEPARTMENT OF AGRICULTURE

THE TABULATION WAS PLANNED AND INITIATED BY C. J. GALPIN
ECONOMIST IN CHARGE OF THE DIVISION OF FARM POPULATION
AND RURAL LIFE, AND CARRIED OUT UNDER THE DIRECTION OF
VEDA B. LARSON, JUNIOR ECONOMIST IN THE SAME DIVISION

FARM POPULATION OF EIGHT SELECTED COUNTIES

The special tabulation upon which the tables in this appendix are based has already been discussed in Chapter VIII (pp. 135 to 176), to which the reader is referred for explanation of the special classifications used and for other general information with regard to the data. The eight selected counties were as follows:

Otsego County, N. Y.	Cass County, N. Dak.
Dane County, Wis.	Wake County, N. C.
New Madrid County, Mo.	Ellis County, Texas
Scott County, Mo.	King County, Wash.

For each of the eight counties there are 30 tables, presenting the farm population figures in detail. The material contained in these tables is clearly indicated by the titles of the tables as they appear in the table of contents, page viii. In general, Tables 1 to 6, inclusive, present the data classified by tenure group, residence, color and nativity, and sex, with cross classifications in considerable detail; Tables 7 to 11, inclusive, give the age distribution in addition to those classifications just mentioned; Tables 12 and 13 are devoted to illiteracy; and Tables 14 and 15 to school attendance, again in combination with the primary classifications of Tables 1 to 6. The new element in Table 16 is marital condition; in Table 17, ownership of homes; in Table 18, birthplace; and in Table 19, parentage and birthplace of father. Tables 20 to 25, inclusive, show the farm population 10 years of age and over by occupation; Tables 26 and 27 present occupation data for women 15 years of age and over; Tables 28 and 29 give occupation figures for children from 10 to 17 years of age; and Table 30 shows the farm laborers alone under various significant classifications.
