## CHAPTER XVI.—GENERAL STATISTICS OF POPULATION, BY COUNTIES.

### INTRODUCTION.

For convenience in reference, some of the more significant county statistics are brought together in this chapter. The complete and detailed county figures, covering the subjects of color or race, nativity and parentage, sex, age, school attendance, illiteracy, and dwellings and families, and, for the foreign-born white, citizenship and country of birth, are given in Volume III. No statistics as to marital condition, state of birth of the native population, year of immigration of the foreign born, country of origin of the foreign white stock, mother tongue of the foreign white stock, or inability to speak English have been compiled for counties.

**Nativity and parentage.**—In classifying the population by nativity all persons born in the United States or in any of the outlying possessions are regarded as native and all other persons as foreign born. The classification by parentage includes three groups, as follows: (1) Native parentage—both parents born in the United States or in any of the outlying possessions; (2) foreign parentage—both parents born outside the United States or outlying possessions; (3) mixed parentage—one parent native and the other foreign born. In this chapter the second and third groups have been combined.

**School attendance.**—The Fourteenth Census inquiry as to school attendance was as to whether the person enumerated had attended school, college, or any kind of educational institution at any time between September 1, 1919, and the census date, January 1, 1920. The number of persons shown by the report as attending school in 1920 is not, therefore, identical with the number simultaneously in attendance at any time

in 1919 or 1920. It merely represents all those students who attended day or night school at any time between the dates specified.

**Illiteracy.**—The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write in any language, not necessarily English, regardless of ability to read. In general, the illiterate population as shown by the census reports should be understood as comprising only those persons who have had no schooling whatever.

**Naturalization.**—The process of naturalization comprises (1) the declaration of intention to become a citizen of the United States, or "first papers," and, (2) after the lapse of at least two years and not more than seven years, the granting of the final citizenship papers. At the time the process of naturalization is completed the applicant must have resided at least five years continuously in the United States and at least one year continuously in the state of which he seeks to become a citizen. In some cases, however, the requirement of five years' continuous residence in the United States is waived on account of military or naval service.

Under the provisions of the naturalization laws at the time the Fourteenth Census was taken, the citizenship status of a married woman was the same as that of her husband; for an unmarried woman the process of naturalization was the same as for a man; a foreign-born widow or foreign-born divorced wife of a citizen of the United States retained the citizenship status of her former husband so long as she continued to reside in this country; and a foreign-born widow or foreign-born divorced wife of an alien might become naturalized in the same manner as a man.
