ABSTRACT OF THE FOURTEENTH CENSUS.

LETTER OF TRANSMITTAL.

DEPARTMENT OF COMMERCE,
BUREAU OF THE CENSUS,
Washington, D. C., January 25, 1922.

SIR:

I transmit herewith Part 1 of Volume VI of the Reports of the Fourteenth Decennial Census. Volume VI consists of three parts, presenting detailed statistics, respectively, for (1) the Northern states, (2) the Southern states, and (3) the Western states and the outlying possessions. Each part contains a general summary for the United States and a brief summary for the three sections, in addition to the separate reports, with statistics by counties, for the states in the area to which it especially relates. The three parts of Volume VI, together with Volumes V and VII, contain the results of the 1920 census of agriculture. Volume V contains the general report and analytical tables and Volume VII contains the reports for irrigation and drainage. The census of agriculture was taken in conformity with "An act to provide for the Fourteenth and subsequent decennial censuses," approved March 3, 1919.

The collection and compilation of the statistics of agriculture and the preparation of the reports have been under the supervision of William Lane Austin, chief statistician for agriculture, assisted by Leon E. Truesdell and Samuel H. DeVault, special agents for agriculture. The chiefs of the division for agriculture during the decennial census period were Arthur J. Hirsch, Thomas A. Devor, Bowen Crandall, and Sherman S. Slick.

Respectfully,

W. M. STEUART,
Director of the Census.

Hon. HERBERT HOOVER,
Secretary of Commerce.
