¹ In Virginia 24 independent cities have the status of counties, and their figures are not included in the totals of the counties in which they are situated. For instance Campbell County contains the town of Altavista but the independent city of Lynchburg is not included in the county figures, even though it is situated in Campbell County. In this table, the independent cities are listed immediately preceding the counties in which they are situated.
² The sales figure includes a large proportion of Country Buying reported as sales by retailers.
³ For combined figures for this city (town) see summary at end of the table.
