¹ In addition to the number of normal or private families, the count of families in censuses prior to 1930 has included certain aggregates of population, such as institutions, hotels, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

² Based on the number of private families and the population in such families, including lodgers and resident servants.

¹ In addition to the number of normal or private families, the count of families in censuses prior to 1930 has included certain aggregates of population, such as institutions, hotels, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

² Based on the number of private families and the population in such families, including lodgers and resident servants.

¹ In addition to the number of normal or private families, the count of families in censuses prior to 1930 has included certain aggregates of population, such as institutions, hotels, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

² Based on the number of private families and the population in such families, including lodgers and resident servants.
