¹ In addition to the number of normal or private families, the count of families in censuses prior to 1930 has included certain aggregates of population, such as institutions, hotels, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

² Based on the number of private families and the population in such families, including lodgers and resident servants.

TABLE 2.—TENURE OF HOMES, FARM AND NONFARM, FOR THE STATE: 1890 TO 1930.

(Figures for 1930 and 1900 represent private-family homes alone; those for 1920, 1910, and 1890 include the premises occupied by the small number of institutions and other quasi-family groups which were counted as families in the respective censuses. In 1890 the "tenure unknown" was distributed between "owned" and "rented")

¹ In addition to the number of normal or private families, the count of families in censuses prior to 1930 has included certain aggregates of population, such as institutions, hotels, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

² Based on the number of private families and the population in such families, including lodgers and resident servants.
