TABLE 2.—TENURE OF HOMES, FARM AND NONFARM, FOR THE STATE: 1890 TO 1930

Figures for 1930 and 1900 represent private amily homes alone; those for 1920, 1910, and 1890 include the premises occupied by the small number of institutions and other quasi-family groups which were counted as families in the respective censuses. In 1890 the "tenure unknown" was distributed between "owned" and "rented"]

¹ Exclusive of 8,264 persons (mostly Indians) for whom the family data are not available.

² In addition to the number of normal or private families, the count of families in censuses prior to 1930 has included certain aggregates of population, such as institutions, botales, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

³ Based on the number of private families and the population in such families, including lodgers and resident servants.

In addition to the number of normal or private families, the count of families in censuses prior to 1930 has included certain aggregates of population, such as institutions, hotels, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

Based on the number of private families and the population in such families, including lodgers and resident servants.

¹ Includes Indian Territory, consolidated with Oklahoma in 1907.
2 Exclusive of 190,823 persons (16,641 in Oklahoma and 180,182 in Indian Territory) for whom the family data are not available.
3 In addition to the number of normal or private families, the count of families in censuses prior to 1936 has included certain aggregates of population, such as institutions, botels, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1936, but are included here for comparative purposes.
4 Based on the number of private families and the population in such families, including lodgers and resident servants.

In addition to the number of normal or private families, the count of families in consuses prior to 1930 has included certain aggregates of population, such as institutions, hotels, boarding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

Based on the number of private families and the population in such families, including lodgers and resident servants.

TABLE 2.—TENURE OF HOMES, FARM AND NONFARM, FOR THE STATE: 1890 TO 1930

[Figures for 1930 and 1900 represent private-family homes alone; those for 1920, 1910, and 1890 include the premises occupied by the small number of institutions and other quasi-family groups which were counted as families in the respective censuses. In 1890 the "tenure unknown" was distributed between "owned" and "rented"]

¹ In addition to the number of normal or private families, the count of families in censuses prior to 1930 has included certain aggregates of population, such as institutions, hotels, hearding houses, and construction camps. These quasi families are omitted from the general tabulation for families in 1930, but are included here for comparative purposes.

² Based on the number of private families and the population in such families, including lodgers and resident servants.

³ Figures for 1900 and 1890 include those for Allegheny city, annexed to Pittsburgh in 1907.
