W. M. Steuart, Director

FIFTEENTH CENSUS OF THE UNITED STATES

CENSUS OF AGRICULTURE

TYPES OF FARMING
IN THE UNITED STATES

BUREAU OF THE CENSUS
LIBRARY

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1933

CONTENTS

	Page
CHAPTER I. INTRODUCTION.....	1
Brief résumé of type of farming studies in the United States.....	2
Limitation of foregoing studies and method of approach used in this study.....	3
CHAPTER II. THE TYPE OF FARM CLASSIFICATION IN THE CENSUS OF AGRICULTURE OF 1930.....	5
Scope of classification.....	5
Basis of classification.....	5
Each type of farm defined.....	7
Cash-grain.....	7
Cotton.....	7
Crop-specialty.....	7
Fruit.....	7
Truck.....	7
Dairy.....	7
Poultry.....	7
Animal-specialty and stock ranch.....	7
General.....	7
Self-sufficing.....	7
Abnormal.....	7
Institution or country estate.....	7
Part-time.....	7
Boarding and lodging.....	7
Forest-product.....	7
Horse farm, feed lot, or livestock dealer.....	8
Unclassified.....	8
Method of handling special cases.....	8
Appraisal of the results by type of farm.....	9
CHAPTER III. GEOGRAPHY OF AMERICAN AGRICULTURE AND CHARACTERISTICS OF EACH TYPE OF FARMING.....	13
The use of land resources in the United States in 1929.....	13
The cropping system of the United States.....	17
Centers of production of each of the important crops.....	19
Feed grains and hay.....	19
Corn.....	19
Oats.....	25
Barley.....	25
Grain sorghums.....	25
Hay.....	25
Cash grains.....	26
Wheat.....	26
Rye.....	31
Buckwheat.....	31
Rice.....	31
Flaxseed.....	31
Special crops.....	31
Cotton.....	31
Tobacco.....	32
Potatoes (Irish or white).....	32
Sugar crops.....	32
Vegetables harvested for sale.....	38
Orchard and subtropical fruits, vineyards, and planted nut trees.....	38
Crop combinations.....	38
Livestock and livestock products.....	38
Cows and heifers kept mainly for milk.....	38
Cows and heifers kept mainly for beef.....	44
Swine.....	44
Sheep and goats.....	47
Chickens over 3 months old.....	47
Crop and livestock combinations.....	47

	Page
CHAPTER III. GEOGRAPHY OF AMERICAN AGRICULTURE, ETC.—Continued	
Geographic distribution and general characteristics of the different types of farms.....	47
General farms.....	48
Cash-grain farms.....	48
Cotton farms.....	48
Fruit farms.....	51
Truck farms.....	51
Crop-specialty farms.....	54
Dairy farms.....	54
Animal-specialty farms.....	54
Stock ranches.....	54
Poultry farms.....	59
Self-sufficing farms.....	59
Abnormal farms.....	59
Institution or country estates.....	64
Part-time farms.....	64
Boarding and lodging farms.....	64
Forest-product farms.....	64
Horse farms, feed lot and livestock dealers.....	64
Unclassified farms.....	64
CHAPTER IV. REGIONAL DIFFERENTIATION OF THE AGRICULTURE OF THE UNITED STATES.....	71
Importance of such a differentiation.....	71
Difficulties in selecting a basis for regional differentiation.....	71
Basis of differentiation used in this study.....	72
The generalized type of farming map of the United States.....	73
CHAPTER V. RELATION OF PHYSICAL AND ECONOMIC FACTORS TO THE GEOGRAPHIC DISTRIBUTION OF TYPES OF FARMING IN THE UNITED STATES.....	121
Theoretical consideration of the principles involved in the geographic specialization of agricultural production.....	121
Relation of physical factors to types of farming.....	123
The effect of climate.....	124
Effect of topography.....	128
The effect of soil.....	128
The glacial and loessial province.....	133
Glacial lake and river terrace province.....	133
Appalachian Mountains and plateau province.....	133
Limestone valleys and uplands province.....	134
Piedmont Plateau province.....	134
Atlantic and Gulf coastal plains.....	135
River flood plains.....	135
Great Plains region.....	135
Rocky Mountain region.....	136
Southwest arid region.....	136
Great basin region.....	136
Northwest intermountain region.....	137
Pacific Coast region.....	137
Relation between soil regions and type of farming regions.....	138
Effect of biological factors.....	138
Effect of economic factors.....	141
Causal factors determining types of farms regionally considered.....	145
Dairy region.....	146
Livestock producing and feeding region.....	147
Cash-grain region.....	148
Ranching or range livestock-producing regions.....	151
Cotton region.....	152
Crop-specialty regions.....	154
Fruit and vegetable regions.....	156
General farming regions.....	157
Self-sufficing and part-time farming regions.....	157
CHAPTER VI. VARIATION IN ORGANIZATION ON FARMS OF A GIVEN TYPE.....	159
Factors associated with or determining variations within types.....	159
Typical farming systems.....	162
Plantation organizations in the Mississippi-Arkansas Delta.....	164
CHAPTER VII. APPRAISAL OF RESULTS AND SOME OF THE WAYS THEY MAY BE USED.....	165

TABLES

No.	Page
1. Utilization of the total crop land in the United States.....	19
2. Characterization of type of farming areas, Pacific States.....	76
3. Characterization of type of farming areas, Mountain States.....	80
4. Characterization of type of farming areas, West South Central States.....	89
5. Characterization of type of farming areas, North Central States.....	92
6. Characterization of type of farming areas, East South Central and South Atlantic States.....	101
7. Characterization of type of farming areas, New England and Middle Atlantic States.....	110
8. Number of specified cash-grain farms in Roberts County, S. Dak., and Swisher County, Tex., classified by acreage of wheat harvested, per farm; by size of farm.....	114
9. Number of specified cash-grain farms in Hettinger County, N. Dak., classified by size of farm, according to acreage in flax harvested for grain, per farm; by acreage (groups) of spring wheat, other than durum or macaroni, harvested, per farm.....	115
10. Number of specified cash-grain farms in Fillmore County, Nebr., classified by size of farm, according to acreage in corn harvested for grain per farm; by acreage (groups) of winter wheat harvested, per farm.....	116
11. Number of specified fruit farms in selected townships of Chautauqua County, N. Y., classified by acreage in orchard fruit trees and grape vines per farm; by number (groups) of grape vines of bearing age, per farm.....	116
12. Number of specified fruit farms in selected townships of White County, Ark., classified by size of farm, with acreage of cotton harvested per farm; by acreage (groups) of strawberries harvested, per farm.....	117
13. Number of specified fruit farms in Camden and Atlantic Counties, N. J., classified by size of farm, according to acreage in small fruits harvested; by number (groups) of peach trees of bearing age, per farm.....	118
14. Number of specified crop-specialty farms in Scotts Bluff County, Nebr., classified by size of farm, according to acreage in sugar beets harvested; by acreage (groups) in potatoes, per farm.....	119
15. Number of specified crop specialty farms in Cameron County, Tex., classified by size of farm, according to acreage in truck crops harvested; by acreage (groups) in potatoes harvested, per farm.....	120
16. Number of specified sugar-beet farms in Yellowstone County, Mont., classified by size of farm, by acreage (groups) of sugar beets harvested, per farm.....	120
17. Number of specified crop-specialty farms in Santa Barbara County, Calif., classified by size of farm, according to acreage in beans, and in beans and hay harvested per farm; by acreage (groups) in beans harvested, per farm.....	166
18. Number of specified tobacco farms in Christian and Fayette Counties, Ky., classified by size of farm; by acreage (groups) of tobacco harvested per farm; by tenure of farm operator.....	166
19. Number of specified tobacco farms (flue-cured) in Pitt County, N. C.; by size of farm, by acreage (groups) of tobacco harvested, per farm; by tenure of farm operator.....	168
20. Number of specified poultry farms in Sonoma County, Calif., classified by size of farm with number of chickens raised per farm; by number (groups) of chickens over 3 months old, April 1, 1930, on hand, per farm.....	169
21. Number of specified stock ranches in Edwards Plateau grazing area of Texas classified by number of sheep shorn with number of cows and heifers, 2 years old and over, on hand, per ranch; by number (groups) of Angora goats clipped per ranch.....	170
22. Typical organization on dairy farms in representative dairy areas in specified States and counties, census of 1930.....	172
23. Typical organization on cash-grain farms in selected counties in Washington and Oregon, census of 1930.....	174
24. Typical organization on cash-grain farms in selected counties in Montana, South Dakota, and Nebraska, census of 1930.....	175
25. Typical organization on cash-grain farms in selected counties in North Dakota, census of 1930.....	176
26. Typical organization on cash-grain farms in selected counties in Kansas, census of 1930.....	177
27. Typical organization on livestock farms in selected States and counties in the Corn Belt characterized by the number of acres in corn; by number of cattle and hogs produced or purchased and fattened; and by expenditures for feed, census of 1930.....	178
28. Plantations (approximate number), with or without "home farms," classified by number of croppers per plantation in selected counties in Arkansas and Mississippi, census of 1930.....	180
29. Farms classified by proprietorship and tenant units in selected counties in Arkansas and Mississippi, census of 1930.....	181
30. Typical medium and large-scale plantations, April 1, 1930, in selected delta counties in the States of Arkansas and Mississippi.....	182

APPENDIX

Tables I-XXII.—Variations in organization of various types of farms; frequency tables showing selected types of farms classified by size of farm and the more important crop and livestock combinations found on each.

M A P S

TYPE OF FARMING AREAS IN THE UNITED STATES: 1930—(POCKET) END OF VOLUME.

Figure	Page
1. All land in farms, April 1, 1930.....	14
2. Crop land and plowable pasture land, 1929.....	15
3. Value of farm products sold, traded, or used by operator's family, 1929.....	16
4. Pasture land excluding plowable pasture, 1929.....	18
5-18. Geographic distribution of the acreage in corn, oats (threshed), barley, sorghums (acreage cut for grain), all hay, wheat, rye, buckwheat, rice, cotton, tobacco, potatoes (Irish or white), sugar beets for sugar, all vegetables harvested for sale, 1929.....	20-37
Geographic distribution of—	
19. Cows and heifers kept for milk, April 1, 1930.....	39
20. Milk produced on farms, 1929.....	40
21. Cream sold as butterfat, 1929.....	41
22. Cows and heifers kept for beef, April 1, 1930.....	42
23. Steers 2 years old and over, April 1, 1930.....	43
24. Swine (excluding pigs born since January 1, 1930), April 1, 1930.....	45
25. Chickens over 3 months old, April 1, 1930.....	46
26. General farms, 1930.....	49
27. Cash-grain farms, 1930.....	50
28. Cotton farms, 1930.....	52
29. Fruit farms, 1930.....	53
30. Truck farms, 1930.....	55
31. Crop-specialty farms, 1930.....	56
32. Dairy farms, 1930.....	57
33. Animal-specialty farms, 1930.....	58
34. Stock ranches, 1930.....	60
35. Poultry farms, 1930.....	61
36. Self-sufficing farms, 1930.....	62
37. Institutions or country estates, 1930.....	63
38. Part-time farms, 1930.....	65
39. Boarding and lodging farms, 1930.....	66
40. Forest-product farms, 1930.....	67
41. Livestock dealers, horse farms, and feed lots, 1930.....	68
42. Unclassified farms, 1930.....	69
43. Average annual precipitation.....	125
44. Average length of growing season.....	126
45a. Ratio of the corn acreage to the combined corn and wheat acreage in the North Central States for 1889.....	129
b. Ratio of the corn acreage to the combined corn and wheat acreage in the North Central States for 1909.....	130
c. Ratio of the corn acreage to the combined corn and wheat acreage in the North Central States for 1929.....	131
46. Soil regions in the United States.....	139
47. Number of dairy cows per square mile of farm land in the Chicago dairy area, by selected census periods, 1870-1930.....	143
48. Number of dairy cows per square mile of farm land around selected cities in the United States and the population of these cities, 1870-1930.....	144
