${ }^{8}$ Includes Moxicans.

${ }^{1}$ The excess of farm acreage over approxinate land area is due to the fact that the entire acreage of a farm is tabuiated as in the county in which the headruarters are located, even though a part of the farn may be situated in an adjotning county.

1For 1034, farms reporting less than 1 acre were counted as farms reporting the annual legume crop, but were not inoludad as farns reporting acres grown alone nor as farms reporting acres grown with other crops.
${ }^{8}$ Where there are less than 3 farms roporting, data are included only in the state totals.
