Not available.

Farms reporting for 1929 are for "All hay, including sorghums for forage"; but the acres for 1929 are for all hay, exclusive of sorghums.

Wild hay and "Other tame hay" not reported separately, 1934.

Farming bales of lint cotton, counting round as half bales.

Less than 1 acre.

Harvested for sale.

¹ Vegetables produced on tracts of 1 acre or more for sale or for home use.

2 Including vegetables not shown separately or not included in "Mixed vegetables."

3 Not available.

4 Green lims bears included with snap, string, or wax bears.

5 Honeydees not specified for years prior to 1939.

6 Reported in small fractions.

7 Hot included.

11 Flowers and foliage plants in greenhouses and in the open.

12 Trees, plants, vines, etc., in nurseries; flower and vegetable seeds; and bulbs.

The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters are located, even though a part of the farm may be situated in an adjoining county.

Includes Mexicans.

There less than 3 farms are reported for either color group, data are included only in the State totals.

COUNTY TABLE 1 I.—FARMS, 1940, 1935, AND 1930; FARM ACREAGE, AND VALUE OF LAND AND BUILDINGS, 1940 AND 1935; VALUE OF BUILDINGS AND IMPLEMENTS AND MACHINERY, 1940; AND CROPLAND HARVESTED, 1939; BY TENURE OF OPERATOR

For 1934, farms reporting less than 1 acre were counted as farms reporting the annual legume crop, but were not included as farms reporting acres grown with other crops.

*Where there are less than 3 farms reporting, data are included only in the State totals.

iFor 1934, farms reporting less than 1 acre were counted as farms reporting the annual legume crop, but were not included as farms reporting acres grown with other crops.

2 Where there are less than 3 farms reporting, data are included only in the State totals.

5 For 1934 data, see "Velvetbeans, vetches, Canada and other ripe field pees" below.

CENSUS OF AGRICULTURE-NEW MEXICO

Not available.

Farms reporting for 1929 are for "All hay, including sorghums for forage"; but the acres for 1929 are for all hay, exclusive of sorghums.

Wild hay and "Other tame hay" not reported separately, 1934.

Fanning bales of lint cotton, counting round as half bales.

Harvested for sale.

¹ Vegetables produced on tracts of 1 acre or more for sale or for home use.

2 Including vegetables not shown separately or not included in "Mixed vegetables."

3 Not available.

4 Green lims beans included with snap, string, or wax beans.

5 Honeydews not specified for years prior to 1899.

5 Horepore included with sweet peppers and pimientos.

7 Includes Irish and sweet potatoes grown for home use.

5 Includes flowers grown in the open.

10 Flowers and foliage plants in greenhouses and in the open.

11 Trees, plants, vines, etc., in nurseries; flower and vegetable seeds; and bulbs.

12 Value of flower and vegetable seeds.

The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters are located, even though a part of the farm may be situated in an adjoining county.

Where there are less than 3 farms reporting an item, or where less than 3 farms are reported for either color group, data are included only in the State totals.

Includes Mexicans.

¹ For 1934, farms reporting less than 1 acre were counted as farms reporting the annual legume crop, but were not included as farms reporting acres grown with other crops.

E Because of the small number of reports, data are not shown by counties.

For 1934 data, see "Velvetbeans, vetches, Canada and other ripe field peas" below.

Where there are less than 3 farms reporting, data are included only in the State totals.

COUNTY TABLE XIII.—VEGETABLES HARVESTED FOR SALE, 1939, 1934, AND 1929; VALUE OF FARM GARDEN VEGETABLES, 1939 AND 1934; AND HORTICULTURAL SPECIALTIES, 1939

¹ Where there are less than 3 farms reporting, data are included only in the State totals.

Eless than 1 acre.

Farms reporting any trees or vines, Apr. 1, 1940; or any production, 1939 (for citrus fruits, crop year specified).

[Yields for irrigated crops based on farms reporting entire crop irrigated; yields for nonirrigated crops based on farms reporting no irrigation for such crops]
