Data not shown since they are not comparable because of the wording of the inquiries on the schedule. Excludes "blackeyes." 3Not available. Not exactly comparable. Acreage includes equivalent solid acreage of that grown with other crops. Acreage for pennuts does not include the acreage cut for hay or hogged off. Sile-ported in small fractions. Buy field and seed peas included with vetches, velvetbeans, mung and horse beams. Inquiry specified velvetbeans only. None reported, 1929 or 1909. Buy lima beams included with other dry field and seed beams. Including clover seed other than red, medium, or mammoth.

For 1934, farms reporting less than 1 acre were counted as farms reporting the annual legume crop, but were not included as farms reporting acres grown with other crops.

Where there are less than 3 farms reporting, data are included only in the State totals.
