

Industry Group 1.—FOOD AND KINDRED PRODUCTS

1939 Indus- try No.	CLASSIFICATIONS, 1939	1939 Form No.	1937 Indus- try No.
	The Group as a Whole		
	This group of industries covers establishments primarily engaged in the manufacture of foods and beverages for human consumption, and certain related products such as artificial ice, chewing gum, and prepared feeds for animals and fowls.		
	MEAT PRODUCTS		
111	Meat packing, wholesale. ----- Establishments primarily engaged in the slaughtering of livestock for their own account to be sold fresh or used as material in canning, curing, making sausage, lard, and other products. Also, establishments which do no slaughtering but purchase meats from others and use as material in canning, curing, etc. The manufacturing of sausages and meat specialties from purchased meats is classified in Industry 113.	123	*123
112	Custom slaughtering, wholesale. ----- Establishments primarily engaged in the slaughtering of cattle, hogs, sheep, and other animals on a contract basis as a service to others. Hides and other by-products may be retained in partial payment for this service, and may therefore be reported as the principal product of such establishments.	123	*123
113	Sausages, prepared meats, and other meat products— not made in meat-packing establishments. ----- Establishments primarily engaged in the production of sausages, prepared meats, and meat specialties, where no slaughtering operations are performed on the premises. Sausage or meat kitchens, operated by packing houses but not located on the same premises are included in this industry. Dressing and canning of poultry, rabbits, and other small game are included in Industry 115.	128	128
114	Sausage casings—not made in meat-packing establish- ments. ----- Establishments primarily engaged in the manufacture of sausage casings from animal, artificial, or synthetic materials.	128	137
115	Poultry dressing and packing, wholesale. ----- Establishments primarily engaged in the dressing, packing, and canning of poultry, rabbits, and other small game for the wholesale trade.	126	126

	DAIRY PRODUCTS		
121	Creamery butter Establishments primarily engaged in the manufacture of creamery butter. Separating stations operated on the premises of butter factories are included in this industry. Milk and cream purchasing stations and the production of butter on farms are not considered to be manufacturing industries. Processed butter is included in Industry 125, Special dairy products.	103	103
122	Cheese Establishments primarily engaged in the manufacture of natural cheese, and which may on the same premises produce process cheese. The manufacture of process cheese from purchased natural cheese is included in Industry 125, Special dairy products.	103	107
123	Condensed and evaporated milk Establishments primarily engaged in the manufacture of condensed and evaporated milk, and related products such as dried and powdered milk and whey and ice cream mix.	103	111
124	Ice cream and ices Establishments primarily engaged in the manufacture of frozen desserts made of milk, cream, fruit juices, and flavoring extracts.	118	118
125	Special dairy products Establishments primarily engaged in the manufacture of processed butter, processed cheese, cheese pastes and spreads, malted milk, and fermented milks. Establishments classified in this industry do not manufacture creamery butter, natural cheese, or dried or powdered milk.	117	*117
	CANNED AND PRESERVED FOODS		
131	Canned fish, crustacea, and mollusks Establishments primarily engaged in the cooking and canning of fish and other sea foods. Shucking and packing of fresh oysters is not considered to be a manufacturing industry.	104	*104
132	Cured fish Establishments primarily engaged in the smoking, salting, drying or otherwise curing of fish for the wholesale trade.	104	*104
133	Canned and dried fruits and vegetables (including canned soups) Establishments primarily engaged in the drying or canning of fruits and vegetables, including the canning of soups other than chicken soup (115).	105	*105
134	Preserves, jams, jellies, and fruit butters Establishments primarily engaged in the manufacture of preserves, jams, jellies, and fruit butters.	105	*105

*Part of; see last paragraph, p. 2.

	CANNED AND PRESERVED FOODS—Continued		
135	Pickled fruits and vegetables and vegetable sauces and seasonings. ----- Establishments primarily engaged in the manufacture of pickled fruits and vegetables, relishes, vegetable sauces, and vegetable seasonings.	105	*105
136	Salad dressings. ----- Establishments primarily engaged in the manufacture of salad dressings.	105	*105
137	Quick-frozen foods. ----- Establishments primarily engaged in the quick-freezing of fruits and vegetables for ultimate delivery to the consumer in a frozen state.	105	*105
	GRAIN-MILL PRODUCTS		
141	Flour and other grain-mill products. ----- Establishments primarily engaged in the milling of grains except rice. The chief products of these establishments are flour and meal. Such flour and grain mills may produce cracked grain used as cereal or stock feed, or blended and prepared flours, principally from products ground in the same establishment.	116	*116
142	Prepared feeds (including mineral) for animals and fowls. ----- Establishments primarily engaged in the manufacture of prepared feeds for animals and fowls. Prepared feeds include those made from grain as a principal ingredient, and those made principally from ingredients other than grain, such as digestible tankage, meat, bone meal, fish meal, oils, lime, sugar, molasses, alfalfa, and ground oyster shells. Dry feed produced by establishments engaged in the milling of grain alone is classified in Industry 141.	116	114
143	Cereal preparations. ----- Establishments primarily engaged in the manufacture of cereal preparations, such as cereal-breakfast foods, coffee substitutes, hominy, prepared and self-rising flours, etc., made wholly or chiefly from grain milled by the establishment. Cracked grain is not considered to be a cereal preparation, and is included in Industry 141.	116	106
144	Rice cleaning and polishing. ----- Establishments primarily engaged in the cleaning and polishing of rice, and in manufacturing rice flour or meal.	127	127
145	Blended and prepared flour made from purchased flour. --- Establishments primarily engaged in the preparation of prepared (self-rising) or blended flour from purchased flour. Establishments classified in this industry are not engaged in grinding flour from grain.	116	*116

	BAKERY PRODUCTS		
151	Bread and other bakery products (except biscuit, crackers, and pretzels) ----- Establishments primarily engaged in the manufacture of bread, cakes, hand-made cookies, doughnuts, pies, pastries, etc. These are establishments producing "perishable" bakery products in contrast to the "dry" products classified in Industry 152.	102	*102
152	Biscuit, crackers, and pretzels ----- Establishments primarily engaged in the manufacture of biscuit, crackers, machine-made cookies, pretzels, etc., packed in containers so as to retain their palatability for an indefinite period. Establishments producing "perishable" bakery products are classified in Industry 151.	102	*102
	SUGAR		
161	Cane sugar—except refineries ----- Establishments primarily engaged in the manufacture of raw sugar, sirup, or finished cane sugar from sugar cane. Establishments engaged in the refining of sugar from purchased sirup or raw sugar are classified in Industry 162.	130	130
162	Cane-sugar refining ----- Establishments primarily engaged in the refining of purchased raw cane sirup or sugar.	131	131
163	Beet sugar ----- Establishments primarily engaged in the manufacture of sugar from sugar beets.	129	129
	CONFECTIONERY AND RELATED PRODUCTS		
171	Candy and other confectionery products ----- Establishments primarily engaged in the manufacture of candy and confections, except solid chocolate bars (172), and chewing gum (173). Salted nuts, stuffed dates, popcorn balls, and related products are included in this industry.	112	112
172	Chocolate and cocoa products ----- Establishments primarily engaged in the manufacture of chocolate from cacao beans, and the further manufacture of cocoa, cocoa butter, and solid chocolate bars. Chocolate candies (fancy package, bulk, count) are classified in Industry 171.	109	109
173	Chewing gum ----- Establishments primarily engaged in the manufacture of chewing gum from crude gum, chicle, paraffin or similar materials.	112	108

	BEVERAGES		
181	Nonalcoholic beverages Establishments primarily engaged in the manufacture of nonalcoholic beverages, whether carbonated or not, such as root beer, ginger ale, and carbonated mineral waters. The bottling of natural spring waters is not considered a manufacturing industry. Establishments primarily producing fruit and vegetable juices are included in Industry 133, producing fruit sirups for flavoring are included in Industry 195, and producing cider are included in Industry 196.	101	101
182	Malt liquors Establishments primarily engaged in the manufacture of all kinds of malt liquors, such as ale, beer, porter, stout, and of malt extract. This industry does not include bottlers of malt liquors brewed by others.	134	134
183	Malt Establishments primarily engaged in the manufacture of malt, chiefly from barley and to some extent from other grain. Malthouses operated by breweries and reported separately are included in this industry.	122	122
184	Wines Establishments primarily engaged in the production of wines both dry and sweet. Establishments primarily bottling or barreling wines produced, blended, or processed by others are not considered part of the manufacturing industries.	184	136
185	Liquors, distilled Establishments primarily engaged in the production of distilled liquors. This industry does not include rectifying and blending establishments (186) nor establishments engaged solely in bottling purchased liquors. Bottling establishments are not considered a part of the manufacturing industry.	185	133
186	Liquors, rectified or blended Establishments primarily engaged in the rectifying and blending of distilled liquors and making of cordials and alcoholic cocktails by mixing liquors and other ingredients. Rectifying plants operated by distillers are treated as separate establishments and are covered by this classification. Establishments engaged solely in bottling purchased liquors are not included. Bottling establishments are not considered a part of the manufacturing industry.	186	136

851	General commercial (job) printing ----- Establishments primarily engaged in commercial or job printing (letterpress). This industry includes general printing shops as well as shops specializing in printing newspapers and periodicals for others. Job printing by the lithographing process is included in Industry 861. Establishments specializing in printing books and pamphlets for publishers are included in Industry 833.	508	*508
	LITHOGRAPHING		
861	Lithographing and photo-lithographing (including preparation of stones or plates and dry transfers) ----- Establishments primarily engaged in the preparation of lithograph plates of stone or of metal, and printing from such plates. The greater part of the work done in the industry is lithographing done on a job or custom basis to individual order, but in some cases lithographed calendars, commercial forms, maps, illustrated cards, posters, etc., are made for sale. That branch of lithography known as offset printing is included in this classification. Lithographing of books and pamphlets for publishers is classified in Industry 833.	508	*506
	GREETING CARDS		
862	Greeting cards (except hand-painted) ----- Establishments primarily engaged in designing and manufacturing greeting, valentine, and Christmas cards, and Christmas seals, printed, lithographed, etched, and otherwise processed. This industry includes establishments designing only, or manufacturing only, or both designing and manufacturing these products. The hand painting of greeting cards is not included in the manufacturing activities.	508	{ *508 *506 *504

Industry Group 9.—CHEMICALS AND ALLIED PRODUCTS

1939 Indus- try No.	CLASSIFICATIONS, 1939	1939 Form No.	1937 Indus- try No.
	The Group as a Whole		
	This group of industries includes establishments producing basic chemicals and establishments manufacturing products by predominantly chemical operations. Establishments in the group manufacture, in general, three classes of products: (1) basic chemicals, such as acids, alkalis, salts, organic chemicals, etc.; (2) semifinished chemical products to be used in further manufacturing, such as rayon yarns, plastic materials, crude animal and vegetable oils, dry colors, pigments, etc.; (3) finished chemical products to be used for ultimate consumption, such as drugs, cosmetics, and soaps, etc., or for use as supplies in other industries, such as paints, fertilizers, explosives, etc. The manufacture of some chemicals is assigned to major groups other than this group; for example, (1) baking powder and other leavening compounds used in food manufacturing are included in Group 1; (2) embalming fluids, together with other morticians' goods, in Group 6; (3) artists' colors, together with other artists' materials, in Group 20. Salt, sodium compounds, and soluble mineral salts, produced from brine, are included in this group, but mining of natural rock salt is not considered a part of the manufacturing industries.		
	PAINTS, VARNISHES, AND COLORS		
911	Paints, varnishes, and lacquers ----- Establishments primarily engaged in the manufacture of paints in paste form or mixed ready for use, varnishes, lacquers, calcimines, enamels, etc.	626	*626
912	Colors and pigments ----- Establishments primarily engaged in the manufacture of colors and pigments, other than bone black, carbon black, and lampblack (Industry 986). Artists' oil and water colors are included in Industry 2054.	626	*626
	ANIMAL AND VEGETABLE OILS (NOT INCLUDING LUBRICANTS OR COOKING AND SALAD OILS)		
921	Cottonseed oil, cake, meal, and linters ----- Establishments primarily engaged in the manufacture of cottonseed oil, crude or refined; cake, meal, and linters. The refining of cottonseed oil into edible cooking fats and oils is included in Industry 192.	622	622
922	Linseed oil, cake, and meal -----	623	623

924	Essential oils. Establishments primarily engaged in the distilling and refining of natural essential oils and witch-hazel extract. The production of aromatic synthetic oils and perfume bases of coal-tar origin is included in Industry 999.	623	624
925	Fish and other marine oils, cake, and meal. Establishments primarily engaged in the manufacture of fish oil and meal and other marine animal oils. The refining of fish oil for medicinal purposes is included in Industry 931.	623	*625
929	Vegetable and animal oils, not elsewhere*classified. Establishments primarily engaged in the manufacture of vegetable oils, other than cottonseed (921), linseed (922), soybean (923), and essential aromatic oils (924). This industry includes the manufacture of oils from castor beans, palm kernels, peanuts, etc. The refining of these oils into edible cooking fats and oils is included in Industry 192.	623	*625
	DRUGS, MEDICINES, TOILET PREPARATIONS, INSECTICIDES, AND RELATED PRODUCTS		
931	Drugs and medicines (including drug grinding). Establishments primarily engaged in the manufacture of drugs and medicines, and biological and pharmaceutical preparations. This industry also includes the grinding of drugs and herbs.	611	{ 611 612
932	Perfumes, cosmetics, and other toilet preparations. Establishments primarily engaged in the manufacture of perfumes, cosmetics, and other toilet preparations such as toilet water, face powder, washes and lotions, hair tonic, tooth paste, and powders, etc.	611	628
933	Insecticides, fungicides, and related industrial and household chemical compounds. Establishments primarily engaged in the manufacture of insecticides, fungicides, deodorants, and disinfectants for household and industrial use; also other industrial compounds, such as boiler, insulating, metal and oil treating and waterproofing compounds, etc.	611	{ 627 1614
	SOAP AND GLYCERIN		
941	Soap and glycerin. Establishments primarily engaged in the manufacture of soap in any form, and the manufacture of crude and refined glycerin.	611	631

962	Wood naval stores. ----- <i>Establishments primarily engaged in the manufacture of turpentine, rosin, and other products by distilling soft wood.</i>	633	*633
963	Gum naval stores (processing but not gathering or ware- housing). ----- Establishments primarily engaged in the manufacture of turpentine and rosin by distilling pine gum. The manufacture of turpentine and rosin by wood dis- tillation is included in Industry 962. The gather- ing or warehousing of pine gum is not considered a part of the manufacturing industries.	317	317
	FERTILIZERS		
970	Fertilizers. ----- Establishments primarily engaged in the manufacture of commercial fertilizers and superphosphates, or mixing of fertilizer materials.	614	614
	INDUSTRIAL CHEMICALS		
980	Tanning materials, natural dyestuffs, mordants, as- sistants, and sizes. ----- Establishments primarily engaged in the manufacture of natural dyestuffs, tanning extracts from wood, bark, and other vegetable materials and mordants, assistants, and sizes. The manufacture of these products from coal-tar is included in Industry 990.	632	632
981	Coal-tar products, crude and intermediate. ----- Establishments primarily engaged in the manufacture of coal-tar crudes and intermediates.	608	*608
982	Plastic materials. ----- Establishments primarily engaged in the manufacture of plastic materials and synthetic resins such as phenolic plastics, cassin, and celluloid, etc. The manufacture of rayon and allied products is included in Industry 951. The fabrication of finished prod- ucts made of purchased plastic materials is classified in Industry 2080.	608	*608
983	Explosives. ----- Establishments primarily engaged in the manufacture of explosives, such as nitroglycerin, dynamite, blast- ing and smokeless powder, safety fuses, detonating caps, etc.	602	613
984	Salt. ----- Establishments primarily engaged in the manufacture of commercial salt from rock salt or from natural or artificial brine. The mining of rock salt is not in- cluded in the manufacturing industries.	100	630

The manufacture of fire-clay brick is included in Industry 1356, and sand-lime brick in Industry 1396.	1004	*1004
1352	Terra cotta ----- Establishments primarily engaged in the manufacture of architectural terra cotta.	1004	*1004
1353	Roofing tile ----- Establishments primarily engaged in the manufacture of roofing tile from clay.	1004	*1004
1354	Floor and wall tile (except quarry tile) ----- Establishments primarily engaged in the manufacture of floor tile, ceramic tile, mosaic tile, glazed or enameled tile including faience, white glazed or other tile used as floor or wall tile, except quarry tile.	1004	*1004
1355	Sewer pipe and kindred products ----- Establishments primarily engaged in the manufacture of sewer pipe and kindred products made of clay.	1004	*1004
1356	Clay refractories, including refractory cement (clay) ----- Establishments primarily engaged in the manufacture of fire-brick and other heat resisting clay products such as glass-house tank blocks, stoppers, floaters, and rings.	1004	*1004
1359	Clay products (except pottery) not elsewhere classified ----- Establishments primarily engaged in the manufacture of clay products such as stove lining, flue lining, chimney pipe and tops, wall coping, segment blocks, drain and quarry tile, etc.	1004	*1004
POTTERY AND RELATED PRODUCTS			
1361	Vitreous-china plumbing fixtures ----- Establishments primarily engaged in the manufacture of vitreous and semivitreous china plumbing fixtures from clay.	1004	*1017
1362	Hotel china ----- Establishments primarily engaged in the manufacture of hotel china from clay.	1004	*1017
1363	Whiteware ----- Establishments primarily engaged in the manufacture of semivitreous china types of earthenware, including cream color, white, granite, and semiporcelain ware.	1004	*1017
1364	Porcelain electrical supplies ----- Establishments primarily engaged in the manufacture of porcelain electrical insulation materials from clay.	1004	*1017

	POTTERY AND RELATED PRODUCTS—Contd.		
1365	China firing and decorating (for the trade)..... Establishments primarily engaged in the manufacture of firing and decorating china for the trade. Small establishments firing and decorating china to individual order are not included in the manufacturing industries.	100	1003
1369	Pottery products not elsewhere classified..... Establishments primarily engaged in the manufacture of pottery not elsewhere classified. This industry includes porcelain china, bone china, delft and Belleek ware; chemical porcelain, chemical stoneware, etc.	1004	*1017
	CONCRETE, GYPSUM, AND PLASTER PRODUCTS		
1371	Concrete products..... Establishments primarily engaged in the manufacture of concrete building blocks and shapes, pipes, and conduit, and similar products such as poles and piling, vaults, etc., from a combination of stone or gravel, sand, and cement. This industry does not include concrete construction work on buildings, bridges, etc.	1005	1005
1372	Gypsum products..... Establishments primarily engaged in the manufacture of plaster, plasterboard, and other products composed wholly or chiefly of gypsum.	100	1022
1373	Mineral wool..... Establishments primarily engaged in the manufacture of mineral wool for insulation made of minerals such as rock, glass, slag, etc.	1020	*1020
1374	Wallboard and wall plaster (except gypsum), building insulation (except mineral wool), and floor composition..... Establishments primarily engaged in the manufacture of wall and insulating boards (other than gypsum, 1372), nonrigid thermal insulation and floor composition except mineral wool (1373), linoleum (374), and rubber flooring (1199). The manufacture of wallboard or insulating board on paper machines without further processing is included in the paper-board industry (720).	1020	*1020
1375	Lime..... Establishments primarily engaged in the manufacture of lime, chiefly from limestone and to a small extent from shells and other substances.	1002	1013

	CUT-STONE AND STONE PRODUCTS		
1380	<p>Monuments, tombstones, cut-stone, and stone products not elsewhere classified.</p> <p>Establishments primarily engaged in cutting, shaping, and finishing marble, granite, slate, and other stone for building and miscellaneous uses, such as monuments and tombstones, stone furniture, and slate blackboards, etc., usually quarried by the same establishments engaged in cutting the stone to dimension. Establishments buying and selling finished or partly finished monuments and tombstones but doing no work on the stones other than lettering and finishing to custom order are not considered a part of the manufacturing industries. The cutting of grindstones, pulpstones, and whetstones in the quarry is not included in the manufacturing industries.</p>	1014	1014
	MISCELLANEOUS NONMETALLIC MINERAL PRODUCTS		
1391	<p>Abrasive wheels, stones, paper, cloth, and related products.</p> <p>Establishments primarily engaged in the manufacture of abrasive grinding wheels of emery, corundum, and other materials, natural or artificial; abrasive sticks, stones, bricks, paper, and cloths; buffing and polishing wheels, and abrasive grains. The cutting of grindstones, pulpstones, and whetstones in the quarry is not included in the manufacturing industries.</p>	1021	1021
1392	<p>Asbestos products (except steam packing and pipe and boiler covering).</p> <p>Establishments primarily engaged in the manufacture of asbestos textiles, asbestos building materials, and other commodities composed wholly or chiefly of asbestos, except steam and other packing and pipe and boiler covering and gaskets (1393).</p>	1001	1001
1393	<p>Steam and other packing; pipe and boiler covering.</p> <p>Establishments primarily engaged in the manufacture of packing for steam, water, and other pipe joints, and for engines, air compressors, etc.; insulating materials for covering boilers and pipes; and gaskets made of fiber, paper, or any combination of materials. Establishments primarily manufacturing cork gaskets are included in Industry 692, rubber gaskets in Industry 1199, and leather gaskets in Industry 1221. Establishments making two or more of these classes of gaskets are included in this industry.</p>	1001	1644
1394	<p>Natural graphite, ground and refined.</p> <p>Establishments primarily engaged in the extraction from the ore and refining of natural graphites (plumbago or black lead).</p>	100	1010

1396	Sand-lime brick, block and tile. -----	1005	1018
1397	Nonclay refractories. ----- Establishments primarily engaged in the manufacture of crucibles and refractories made of materials other than clay.	1004	1023
1398	Statuary and art goods (except stone and concrete)— factory production. ----- Establishments primarily engaged in factory produc- tion of such articles as statuary, vases, urns, brackets, flower boxes, fountains, plaques, mantels, columns, panels, moldings, pedestals, etc., other than those made of stone (1380) and concrete (1371), and orna- mental plaster work, architectural sculptures, small images, Scagliola, and papier-mâché articles.	100	1019

1939 INDUSTRY

**Industry Group 14.—IRON AND STEEL AND THEIR
PRODUCTS, EXCEPT MACHINERY**

1939 Indus- try No.	CLASSIFICATIONS, 1939	1939 Form No.	1937 Indus- try No.
	The Group as a Whole		
	This group of industries includes establishments engaged primarily in the production of pig iron and steel; iron and steel castings; and the rolling and forging of iron and steel into semifinished and finished rolled and forged products; and in further fabricating of the same into a great variety of finished iron and steel commodities. The manufacture of some metal products is included in this group regardless of the kind of metal used. The more important instances of such overlapping are hardware, steam fittings, stamped and pressed metal products; wire and wire products; and construction materials such as ornamental metal work, plumbers' supplies, and metal or metal-covered doors, window frames and sash. This group does not include machinery and machine tool attachments and dies (group 17), automobile vehicles (group 18), and other transportation equipment (group 19).		
	BLAST FURNACES, STEEL WORKS, AND ROLLING MILLS		
1411	Blast furnace products Establishments primarily engaged in the manufacture of pig iron and blast-furnace ferro-alloys from ore and scrap. All blast furnaces are classified in this industry.	1110	1110
1412	Steel works and rolling mills Establishments primarily engaged in the manufacture of steel or the rolling of hot iron and steel. Products include steel ingots, semifinished and finished hot-rolled steel, and the further processing of same when produced in departments operated in connection therewith. Tin plate and terneplate are manufactured exclusively and wire and wire products to a considerable extent in departments of steel works and rolling mills. The production of steel castings is classified in Industry 1423.	1112	*1112
	IRON AND STEEL FOUNDRY PRODUCTS		
1421	Gray-iron and semisteel castings Establishments primarily engaged in the manufacture of gray-iron and semisteel castings.	1102	*1131
1422	Malleable-iron castings Establishments primarily engaged in the manufacture of malleable-iron castings.	1102	*1131
1423	Steel castings Establishments primarily engaged in the manufacture of steel castings.	1102	*1112
1424	Cast-iron pipe and fittings Establishments primarily engaged in the manufacture of cast-iron pipe and cast-iron pipe fittings.	1102	1102

	TIN CANS AND OTHER TINWARE		
1430	Tin cans and other tinware not elsewhere classified. ----- Establishments primarily engaged in the manufacture of packers' cans, general line cans, plain and decorated cans, pails, boxes, and packages; milk and ice-cream cans, household and cooking tinware and finished stamped tinware not elsewhere classified.	1129	1123
	WIRE PRODUCTS		
1441	Wire drawn from purchased rods. ----- Establishments primarily engaged in the drawing of wire from purchased rods of iron, steel, and non-ferrous metals, and the further fabrication of wire products when done in the same plant. Wire departments of iron and steel rolling mills and non-ferrous rolling mills are classified in Industries 1412 and 1520, respectively.	1126	1126
1442	Nails, spikes, etc., not made in wire mills or in plants operated in connection with rolling mills. ----- Establishments primarily engaged in the manufacture of nails, spikes, staples, and tacks from purchased nail and tack plate and wire.	1101	1113
1449	Wirework not elsewhere classified. ----- Establishments primarily engaged in the manufacture, from purchased wire, of fabricated wire products such as wire fencing, wire cloth and netting, wire rope and cable, wire springs, etc. The production of insulated wire from purchased plain wire is classified in Industry 1630.	1126	1127
	CUTLERY, TOOLS, AND HARDWARE		
1451	Cutlery (except aluminum, silver, and plated cutlery) and edge tools. ----- Establishments primarily engaged in the manufacture of all kinds of edge tools such as chisels, knives, razors, and blades; scythes, axes, cutting dies (except metal-cutting dies, 1742), and cutlery (except aluminum, 1592, silver and silver-plated cutlery, 1561).	1103	1103
1452	Tools (except edge tools, machine tools, files, and saws). ----- Establishments primarily engaged in the manufacture of hand tools, such as are used by farmers, ironworkers, masons, mechanics, and plumbers. The manufacture of edge tools is included in Industry 1461, files in 1453, and saws in 1454.	1103	1125
1453	Files. ----- Establishments primarily engaged in the manufacturing and recutting of files and rasps.	1103	1105
1454	Saws. ----- Establishments primarily engaged in the manufacture of saw blades and complete hand saws.	1103	1116

	CUTLERY, TOOLS, AND HARDWARE—Con.		
1459	Hardware not elsewhere classified Establishments primarily engaged in the manufacture of door locks and lock sets, and other builders' hardware; hardware for caskets, furniture, cabinets, saddlery, harness, trunks, suitcases, and motor vehicles; locks and padlocks; vacuum bottles and jugs; and marine hardware. Some products, retailed and generally regarded as hardware, are covered by separate industry classifications, such as bolts and nuts (1491), nails and spikes (1442), cutlery (1451), and hand tools (1462).	1101	1109
	HEATING APPARATUS AND PLUMBERS' SUPPLIES		
1461	Enameled-iron sanitary ware and other plumbers' supplies (not including pipe and vitreous and semivitreous china sanitary ware) Establishments primarily engaged in the manufacture of enameled-iron sanitary ware and other plumbers' supplies such as plumbers' brass goods, etc., except pipe (1424 and 1493) and vitreous and semivitreous china sanitary ware (group 13).	1114	1114
1462	Oil burners, domestic and industrial Establishments primarily engaged in the manufacture of burners consuming distillate or fuel oil used for application to heating and cooking equipment and for industrial process equipment and for generation of steam for power. Boiler burner units and furnace burner units, complete, are included in Industries 1464 and 1465, respectively.	1119	*1119
1463	Power boilers and associated products Establishments primarily engaged in the manufacture of power boilers, smokestacks, heavy tanks, plate work (cut, punched, and shaped for assembly on job), and similar boiler-shop products.	1122	1130
1464	Steam and hot-water heating apparatus (including hot-water furnaces) Establishments primarily engaged in the manufacture of cast iron and steel steam and hot water heating boilers and parts, cast iron and nonferrous radiators; gas- and oil-fired radiators, gas and oil boiler burner units complete.	1119	*1119
1465	Stoves, ranges, water heaters, and hot-air furnaces (except electric) Establishments primarily engaged in the manufacture of stoves, ranges, warm-air furnaces, space heaters, and water heaters (except electric). Includes oil and gas warm air furnaces complete with burners.	1119	*1119

1466	Steam fittings, regardless of material. ----- Establishments primarily engaged in the manufacture of steam fittings and specialties, such as thermostats and other temperature-control devices, gages, regulators, traps, reducing valves, etc.	1119	*1119
1469	Heating and cooking apparatus, except electric, not else- where classified. ----- Establishments primarily engaged in the manufacture of heating equipment not elsewhere classified, such as incubators, brooders, incinerators, unit heaters, gas burners, portable ovens, steam tables, and other cafeteria, hotel, and kitchen apparatus.	1119	*1119
	METAL STAMPING, ENAMELING, GALVANIZ- ING, JAPANING, AND LACQUERING		
1471	Vitreous enameled products, including kitchen, house- hold, and hospital utensils. ----- Establishments primarily engaged in the manufacture of vitreous kitchen, household, and hospital utensils; table tops; refrigerator, stove, and washing-machine parts, etc. The production of enameled ware plumbing fixtures is classified in Industry 1461.	1129	*1129
1472	Automobile stampings. ----- Establishments primarily engaged in the manufacture of automobile stampings. Assembling of complete automobile parts is classified in group 18.	1129	*1129
1473	Stamped and pressed metal products (except automobile stampings). ----- Establishments primarily engaged in the manufacture of metal stampings not elsewhere classified, such as bottle caps and tops, stamped household and hospital utensils, perforated metal, stamped and pressed machine parts, etc. Custom stamping for the trade is classified in this industry.	1129	*1129
1474	Enameling, japaning, and lacquering. ----- Establishments primarily engaged in enameling, japaning, and lacquering of metal products owned by others.	1129	*1129
1475	Galvanizing and other coating—carried on in plants not operated in connection with rolling mills. ----- Establishments primarily engaged in the galvanizing or coating of steel and iron sheets or formed products with zinc; coating of steel and iron sheets or formed products with aluminum and lead; retinning of cans and utensils.	100	1108

	FABRICATED STRUCTURAL STEEL AND ORNAMENTAL METAL WORK		
1481	Fabricated structural steel and ornamental metal work, made in plants not operated in connection with rolling mills. Establishments primarily engaged in the manufacture of structural and ornamental metal work, both fer- rous and nonferrous, for buildings, bridges, and other purposes. Products include fabricated struc- tural steel stairs and staircases, fire escapes, grilles, railings, iron fences and gates, fence posts, fabricated bars and rods for reinforcing concrete, ornamental iron, steel and nonferrous metal work for buildings. The production of fabricated steel plate is included in Industry 1463.	1122	1122
1482	Doors, window sash, frames, molding, and trim (made of metal). Establishments primarily engaged in the manufacture of ferrous and nonferrous solid metal, hollow metal, and metal covered doors; and door frames, window sash and frames, store fronts, partitions, molding and trim.	1122	1104
	MISCELLANEOUS IRON AND STEEL PRODUCTS		
1491	Bolts, nuts, washers, and rivets—made in plants not operated in connection with rolling mills. Establishments primarily engaged in the manufacture of bolts, nuts, rivets, lock washers, plate washers, turnbuckles, togglebolts, etc. The production of machine screws is included in Industry 1495.	1101	1101
1492	Forgings, iron and steel—made in plants not operated in connection with rolling mills. Establishments primarily engaged in the manufacture of light and heavy drop and steam hammer forgings, such as chains, anchors, axles, frogs, and forged parts for automotive equipment, machinery, railway equipment, etc.	100	1107
1493	Wrought pipes, welded and heavy riveted—made in plants not operated in connection with rolling mills. Establishments primarily engaged in the manufacture of wrought welded pipe and tubes; lock joint and heavy riveted pipe.	1114	1128
1494	Springs, steel (except wire)—made in plants not oper- ated in connection with rolling mills. Establishments primarily engaged in the manufacture of leaf springs, hot-wound springs (for railroad equip- ment, vehicles, agricultural and mining machinery, etc.). The production of wire springs is included in Industry 1449.	1118	1118

1939 Indus- try No.	CLASSIFICATIONS, 1939	1939 Form No.	1937 Indus- try No.
	SECONDARY SMELTING AND REFINING OF NONFERROUS METALS AND ALLOYS		
1531	Secondary smelting and refining, gold, silver, and platinum. Establishments primarily engaged in smelting, refining, and alloying gold, silver, and platinum from sweepings, clippings, and scrap.	1212	1209
1532	Secondary smelting and refining of nonferrous metals, not elsewhere classified. Establishments primarily engaged in the recovery of nonferrous metals and nonferrous metal alloys from new or used scrap metals <i>without alloying</i> . The process of <i>alloying</i> is classified as part of Industry 1520. The purchase and sale or the sorting of scrap metal without processing is not to be included.	1212	1217
	CLOCKS AND WATCHES		
1541	Clocks, watches, and materials and parts (except watch-cases). Establishments primarily engaged in the manufacture of clocks (including electrical), watches, clockwork operated devices, and clock and watch materials and parts, except watch cases (1542), and crystals (glass crystals in 1330, and unbreakable crystals in 2086). The assembling of clocks and watches from purchased movements and purchased cases is included in the industry.	1202	1202
1542	Watchcases.	1202	1222
	JEWELRY		
1551	Jewelry (precious metals). Establishments primarily engaged in the manufacture of jewelry for personal adornment (including related products, such as cigarette cases and lighters, vanity cases, compacts, etc.) made from precious or semi-precious metals with or without precious stones; gold trimmings for umbrellas, canes, etc., diamond settings and mountings. Costume jewelry and nonprecious metal jewelry manufacturing is included in Industry 2071.	1210	1210
1552	Jewelers' findings and materials. Establishments primarily engaged in the manufacture of unassembled jewelry parts (except gems and stones, 1553), and stock-shop products, such as sheet, wire and tubing.	1210	1224
1553	Lapidary work. Establishments primarily engaged in the cutting and polishing of diamonds and other precious stones; drilling pearls; recutting and setting stones; preparing jewels for surveyors' and electrical instruments and for watches and chronometers, and real and imitation stones for emblems. Much of the work is done for the trade on materials owned by others.	1210	1623

1561	Silverware and plated ware ----- Establishments primarily engaged in the manufacture of knives, forks, spoons and other flatware, hollow ware, toilet ware, ecclesiastical ware, etc., made of solid silver, metal plated with silver, gold, or other metal, of nickel silver, or of pewter.	1213	1213
	ENGRAVING ON METAL, PLATING, AND POLISHING		
1571	Engraving on metal (except for printing purposes) ----- Establishments primarily engaged in engraving, chasing, and etching on jewelry and silverware, notarial seals, and other nonferrous metal products for purposes other than printing.	100	503
1572	Electroplating, plating, and polishing ----- Establishments primarily engaged in all types of electroplating, plating, and metal polishing work for the trade.	100	1205
	LIGHTING FIXTURES		
1530	Lighting fixtures ----- Establishments primarily engaged in the manufacture of lighting fixtures and other lighting equipment for homes, offices, public buildings, and outdoor use; lamps and headlights for motor vehicles, locomotives, etc., searchlights, spotlights, and floodlights; lamps and lanterns; reflectors and shades. (Electric bulbs are classified in Industry 1650).	1207	1207
	NONFERROUS METAL PRODUCTS NOT ELSEWHERE CLASSIFIED		
1591	Nonferrous metal foundries (except aluminum) ----- Nonferrous metal foundries primarily engaged in manufacturing castings (not including die-casting, 1593, 1599) of all nonferrous metals except aluminum (1592 and 1593).	1212	*1212
1592	Aluminumware, kitchen, hospital, and household (except electrical appliances) ----- Establishments primarily engaged in the manufacture of aluminum cooking ware, stamped, spun, or cast (except electric, 1620), and other ware, for use in kitchen, hospital, and household.	1212	*1201
1593	Aluminum products (including rolling and drawing and extruding), not elsewhere classified ----- Establishments primarily engaged in the manufacture of plates, sheets, rods, tubing, pipe, wire, castings, bars, airplane and engine parts, and aluminum products not elsewhere classified. The extraction of aluminum from the ore is classified in Industry 1519, and the recovery of aluminum from scrap is classified in Industry 1532.	1212	*1201

1939 Indus- try No.	CLASSIFICATIONS, 1939	1939 Form No.	1937 Indus- try No.
	The Group as a Whole		
	This group of industries includes establishments primarily engaged in manufacturing any type of machinery, apparatus, and supplies for the generation, storage, transmission, transformation, and utilization of electric energy.		
	ELECTRICAL EQUIPMENT FOR INDUSTRIAL USE		
1611	Wiring devices and supplies. ----- Establishments primarily engaged in the manufacture of wiring devices, wiring supplies, insulation and insulating materials, conduits and fittings, and lightning arresters. The production of decorative lighting outfits is included in Industry 1580 and the production of porcelain insulators is included in Industry 1364.	1303	*1303
1612	Carbon products for the electrical industry, and manufactures of carbon or artificial graphite. ----- Establishments primarily engaged in the manufacture of carbons; carbon, graphite, and metal-graphite brushes; electrodes, and miscellaneous specialties.	1303	*1303
1613	Electrical measuring instruments. ----- Establishments primarily engaged in the manufacture of measuring instruments, meter transformers, and indicating instruments.	1303	*1303
1619	Generating, distribution, and industrial apparatus, and apparatus for incorporation in manufactured products, not elsewhere classified. ----- Establishments primarily engaged in the manufacture of electrical prime movers and other electric power equipment, including steam-turbine generator sets, for employment in the generation, transmission, or utilization of electric energy. Products of this industry include motors, generators, transformers, switchboards, panelboards, and other transmission accessories (except insulated wire, 1630, and conduit, 1611); welding apparatus, etc. The production of machines operated by detachable electric motors is included in group 17.	1303	*1303
	ELECTRICAL APPLIANCES		
1620	Electrical appliances. ----- Establishments primarily engaged in the manufacture of household electrical appliances used for heating, cooking, cooling, cleaning, etc. Products of this industry include electric fans, irons, mixers, percolators and hot plates, vacuum cleaners, etc., except electric refrigerators (1784). Water heaters belong in this industry.	1303	*1303

	INSULATED WIRE AND CABLE		
1630	Insulated wire and cable. ----- Establishments primarily engaged in the manufacture of insulated or armored wire and cable for transmitting electrical energy. The manufacture of uninsulated wire is included in Industry 1441.	1303	*1303
	AUTOMOTIVE ELECTRICAL EQUIPMENT		
1640	Automotive electrical equipment. ----- Establishments primarily engaged in the manufacture of automotive electrical equipment such as ignition apparatus, spark plugs, starters, and generators, etc.	1303	*1303
	ELECTRIC LAMPS		
1650	Electric lamps. ----- Establishments primarily engaged in the manufacture of incandescent light bulbs, mercury arc, and other electric lights. The production of electric lighting equipment and fixtures is included in Industry 1580.	1303	*1303
	COMMUNICATION EQUIPMENT AND RELATED PRODUCTS		
1661	Radios, radio tubes, and phonographs. ----- Establishments primarily engaged in the manufacture of radio receiving sets, radio transmitters, television sets, radio receiving and transmitting tubes, phonographs and accessories.	1319	1319
1662	Communication equipment. ----- Establishments primarily engaged in the manufacture of telephone and telegraph equipment; electric signaling apparatus (other than railway); signals and attachments (railway); see Industry 2085, and miscellaneous radio parts except loud speakers and microphones which are included in Industry 1661.	1303	*1303
	ELECTRICAL PRODUCTS NOT ELSEWHERE CLASSIFIED		
1691	Batteries, storage and primary (dry and wet). ----- Establishments primarily engaged in the manufacture of storage batteries, dry batteries, and wet primary batteries.	1303	*1303
1692	X-ray and therapeutic apparatus and electronic tubes. ----- Establishments primarily engaged in the manufacture of electrotherapeutic and electromedical apparatus, X-ray apparatus (exclusive of tubes), non-radio electronic tubes and X-ray tubes. Dental apparatus is included in Industry 2023.	1303	*1303
1699	Electrical products not elsewhere classified. ----- Establishments primarily engaged in the manufacture of miscellaneous electrical equipment not classified in any of the above industries.	1303	*1303

Industry Group 17.—MACHINERY (EXCEPT ELECTRICAL)

1939 Indus- try No.	CLASSIFICATIONS, 1939	1939 Form No.	1937 Indus- try No.
	The Group as a Whole		
	This group of industries includes establishments primarily engaged in manufacturing machinery and equipment other than electrical (see Industry 1619), and prime movers. Machines that are powered by a removable electric motor and portable tools, both electric and pneumatic powered, generally are included in this group.		
	ENGINES AND TURBINES		
1711	Steam engines, turbines, and water wheels..... Establishments primarily engaged in the manufacture of steam engines and steam turbines and water wheels and water turbines.	1304	*1304
1712	Internal-combustion engines..... Establishments primarily engaged in the manufacture of Diesel and semi-Diesel engines and internal-combustion engines not elsewhere classified. The manufacture of aircraft engines is included in Industry 1921 and automobile engines in Industry 1810.	1304	*1304
	AGRICULTURAL MACHINERY AND TRACTORS		
1721	Tractors..... Establishments primarily engaged in the manufacture of agricultural or industrial tractors.	1301	*1301
1729	Agricultural machinery (except tractors)..... Establishments primarily engaged in the manufacture of agricultural machinery and equipment except tractors (1721) for use in the preparation or maintenance of the soil, the planting and harvesting of the crop, and machines for preparing crops for market and for use, and other operations and processes pertaining to agriculture. The manufacture of agricultural hand tools and certain forged parts such as plowshares is included in group 14.	1301	*1301
	CONSTRUCTION, MINING, AND RELATED MACHINERY		
1731	Construction and similar machinery (except mining and oil-field machinery and tools)..... Establishments primarily engaged in the manufacture of heavy machinery used by the construction industries for portable or fixed plant operation.	1324	1324 *1305
1732	Oil-field machinery and tools..... Establishments primarily engaged in the manufacture of machinery and tools for use in oil and gas fields. Similar equipment for use in drilling water wells is also included.	1305	*1305

	CONSTRUCTION, MINING, AND RELATED MACHINERY—Continued		
1733	Mining machinery and equipment. ----- Establishments primarily engaged in the manu- facture of machinery and equipment for use in min- ing, including coal-sawing machinery, coal breakers, cars and trucks, excluding dredges (1731).	1305	*1305
	METALWORKING MACHINERY		
1741	Machine tools. ----- Establishments primarily engaged in the manu- facture of power-driven machinery employing a cutting tool for work on metal called "machine tools." Bend- ing, forging, punching, and forming machinery, which shapes or forms metal without cutting, is in- cluded in Industry 1749, and machine tool accessories, dies, and machinists' precision tools in Industry 1742.	1307	*1307
1742	Machine-tool and other metalworking machinery acces- sories, metal-cutting and shaping tools, and ma- chinists' precision tools. ----- Establishments primarily engaged in the manufacture of accessories for use in machine tools, including dies, machinists' precision tools, or specialized equipment other than forged or shaped hand tools that are classified in group 14.	1307	1318
749	Metalworking machinery and equipment, not elsewhere classified. ----- Establishments primarily engaged in the manufacture of machinery for the shaping, pressing or forging of metal, where the shaping action of such machines is not dependent upon a cutting tool.	1307	{ *1307 *1306
	SPECIAL INDUSTRY MACHINERY		
1751	Food-products machinery. ----- Establishments primarily engaged in the manufacture of machinery for use by the food-products and bever- age industries in the preparation, canning, or packag- ing of foods. All refrigeration machinery is included in Industry 1784.	1305	*1305
1752	Textile machinery. ----- Establishments primarily engaged in the manufacture of machinery for the textile industry. This group does not include domestic or industrial sewing ma- chines, which are classified in Industry 1783.	1313	1313
1753	Woodworking machinery. ----- Establishments primarily engaged in the manufacture of machinery for cutting, shaping, and finishing of wood products. Hand tools, such as planes, axes, drawknives, etc., are classified in group 14.	1305	*1305
1754	Paper-mill, pulp-mill, and paper-products machinery. ----- Establishments primarily engaged in the manufacture of machinery for the paper-pulp, paper, and paper products industries. Manufacture of printing-trades machinery is classified in Industry 1755.	1305	*1305

1755	Printing-trades machinery and equipment Establishments primarily engaged in the manufacture of machinery and apparatus used by the printing and bookbinding trades. The manufacture of textile printing machinery is classified in Industry 1752.	1325	1325
1759	Special industry machinery, not elsewhere classified Establishments primarily engaged in the manufacture of special industry machinery, not elsewhere classified. Cotton-ginning machinery and specialized rubber-working machinery, etc., are included in this industry.	1305	*1305
	GENERAL INDUSTRIAL MACHINERY		
1760	Measuring and dispensing pumps Establishments primarily engaged in the manufacture of equipment commonly used in automobile service and filling stations for dispensing gasoline, oils, and grease, including grease guns.	1309	*1309
1761	Pumping equipment and air compressors Establishments primarily engaged in the manufacture of pumps, compressors, and pumping equipment of general utility to industry.	1309	*1309
1762	Elevators, escalators, and conveyors Establishments primarily engaged in the manufacture of elevators, escalators, and conveyor systems and equipment.	1305	*1305
1763	Cars and trucks, industrial Establishments primarily engaged in the manufacture of industrial cars and trucks for use in conveying ore, supplies, freight, and similar materials within the confines of a plant. This industry does not include vehicular and automotive cars and trucks classified in Industry 1810 nor tractors, Industry 1721, nor mining cars and trucks, Ind. 1733.	1305	*1305
1764	Blowers; exhaust and ventilating fans Establishments primarily engaged in the manufacture of blowing, exhaust, and ventilating equipment for general industrial use.	1305	*1305
1765	Measuring instruments, mechanical (except electrical measuring instruments, watches, and clocks) Establishments primarily engaged in the manufacture of mechanical measuring instruments, except electric meters (1613), and watches and clocks (1541).	1620	*1629
1766	Mechanical power-transmission equipment Establishments primarily engaged in the manufacture of mechanical power-transmission equipment such as clutches, drives, shafts, bearings, and parts for the same.	1305	*1326
1767	Stokers, mechanical, domestic and industrial Establishments primarily engaged in the manufacture of domestic and industrial stokers for anthracite and bituminous coal, hopper fed, and those with conveyor for direct feed from bin.	1305	*1395

1939 Indus- try No.	CLASSIFICATIONS, 1939	1939 Form No.	1937 Indus- try No.
	The Group as a Whole		
	This group includes two industries: 1810, Motor vehicles, motor-vehicle bodies, parts and accessories, and 1820, Automobile trailers for attachment to passenger cars.		
1810	Motor vehicles, motor-vehicle bodies, parts and accessories. Establishments primarily engaged in the manufacture or assembly of complete motor vehicles, motor-vehicle chassis, bodies, and such parts and accessories as gears, wheels, radiators, bumpers, shock-absorbers, frames, horns, windshield wipers, etc.; and trailers for motor-trucks and truck tractors. This industry does not include establishments manufacturing tires and tubes (1111), springs (1449, 1494), ignition apparatus, batteries, starting and lighting equipment (1640), headlights (1580), sheet-metal stampings (1472), hardware (1459), etc.	1408	{ 1408 *1407
1820	Automobile trailers (for attachment to passenger cars). Establishments primarily engaged in the manufacture or assembly of trailers for passenger cars.	1408	*140

	<p style="text-align: center;">The Group as a Whole</p> <p>This group of industries includes establishments primarily engaged in manufacturing equipment for transportation by air, land, and water. Establishments producing automobiles are included in group 18, and those producing children's vehicles in group 20.</p> <p style="text-align: center;">RAILROAD EQUIPMENT</p>		
1911	Locomotives (including frames) and parts: railroad, mining and industrial. Establishments primarily engaged in building and rebuilding rail-traction locomotives: steam, compressed air, Diesel-electric, straight-electric, gasoline-electric, straight internal-combustion, etc.	1405	1406
1912	Cars, and car equipment—railroad, street, and rapid-transit. Establishments primarily engaged in building, rebuilding, and repairing railroad, street, and rapid-transit cars for operation on rails for freight and for passenger service. Some of these cars may include an engine as an integral part of the car. Establishments manufacturing industrial and mining rail cars are included in Industry 1763.	1405	1405
	<p style="text-align: center;">AIRCRAFT AND PARTS</p>		
1921	Aircraft and parts, including aircraft engines. Establishments primarily engaged in the manufacture of complete aircraft, both heavier-than-air and lighter-than-air, including gliders, balloons, and parachutes. This industry also includes the manufacture of parts peculiarly for aircraft, such as aircraft engines, propellers, propeller blades, and pontoons.	1401	{ 1401 *1304
	<p style="text-align: center;">SHIP AND BOAT BUILDING AND REPAIRING</p>		
1931	Shipbuilding and ship repairing. Establishments primarily engaged in building and repairing ships of 5 gross tons and over of all types; steel and wood, self-propelled by sail or motive power or not self-propelled, such as barges, canal boats, lighters, etc.	1410	*1410
1932	Boat building and boat repairing. Establishments primarily engaged in building and repairing boats of less than 5 gross tons of all types, steel or wood, such as inboard and outboard motor-boats, yachts, sailboats, rowboats, lifeboats (motor-propelled and hand-propelled), canoes, etc.	1410	*1410
