TABLES FOR CITIES AND METROPOLITAN DISTRICTS

The statistics for cities of 50,000 to 100,000 inhabitants are presented in two standard tables, of which table 1 corresponds to table 1 for the State and table 2 presents city figures for items selected from those appearing in State tables 2, 3, and 5.

The statistics for cities of 100,000 or more, and for the principal metropolitan districts, are presented in a series of 5 standard tables corresponding to tables 1 to 5 for the State.

Table 5a (where shown) presents statistics for nonwhite households in cities of 100,000 inhabitants or more.

The tables are arranged by areas with all tables for any given area presented together. A single alphabetical arrangement is followed; hence the tables for any given metropolitan district appear immediately after the tables for its largest central city.

In numbering the tables, all tables for a given area have been assigned a common prefix letter. Thus "A" has been assigned to tables for the State, "B" to tables for the first city presented, etc.

The standard table titles are shown below. The page on which each table is to be found for any given area is indicated in the tabular presentation, with the prefix letter assigned to the tables for that area.

TABLES FOR CITIES AND METROPOLITAN DISTRICTS

The statistics for cities of 50,000 to 100,000 inhabitants are presented in two standard tables, of which table 1 corresponds to table 1 for the State and table 2 presents city figures for items selected from those appearing in State tables 2, 3, and 5.

The statistics for cities of 100,000 or more, and for the principal metropolitan districts, are presented in a series of 5 standard tables corresponding to tables 1 to 5 for the State.

Table 5a (where shown) presents statistics for nonwhite households in cities of 100,000 inhabitants or more.

The tables are arranged by areas with all tables for any given area presented together. A single alphabetical arrangement is followed; hence the tables for any given metropolitan district appear immediately after the tables for its largest central city.

In numbering the tables, all tables for a given area have been assigned a common prefix letter. Thus "A" has been assigned to tables for the State, "B" to tables for the first city presented, etc.

The standard table titles are shown below. The page on which each table is to be found for any given area is indicated in the tabular presentation, with the prefix letter assigned to the tables for that area.

TABLES FOR CITIES AND METROPOLITAN DISTRICTS

The statistics for cities of 50,000 to 100,000 inhabitants are presented in two standard tables, of which table 1 corresponds to table 1 for the State and table 2 presents city figures for items selected from those appearing in State tables 2, 3, and 5.

The statistics for cities of 100,000 or more, and for the principal metropolitan districts, are presented in a series of 5 standard tables corresponding to tables 1 to 5 for the State.

Statistics for nonwhite households are presented in supplementary tables; table 2a for selected cities of 50,000 to 100,000 inhabitants; table 5a for all cities of 100,000 or more.

The tables are arranged by areas with all tables for any given area presented together. A single alphabetical arrangement is followed; hence the tables for any given metropolitan district appear immediately after the tables for its largest central city.

In numbering the tables, all tables for a given area have been assigned a common prefix letter. Thus "A" has been assigned to tables for the State, "B" to tables for the first city presented, etc.

The standard table titles are shown below. The page on which each table is to be found for any given area is indicated in the tabular presentation, with the prefix letter assigned to the tables for that area.
