Foreword

The publications listed herein are those presenting reports of the Sixteenth Decennial Census of the United States, taken in 1940.

A complete listing of all other Census Bureau Publications can be obtained by writing for the catalog entitled "Census Bureau Publications". In addition, the Census Bureau issues a catalog supplement called "Monthly List of Publications Issued".

For the benefit of users of Census material, there is also available the Census Bureau Publications Subject Guide. This is an index containing analyses of all current Census publications with numerous cross references to the technical data included in the reports and releases. This index is issued quarterly.

The publications listed, bearing a price, can be purchased only from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., and check or Money Order should be sent to that official. The various series of processed publications, bearing no price, can be obtained only from the Bureau of the Census and single copies will be furnished free of charge as long as the supply lasts.
