NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 2.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR THE UNITED STATES: 1890 TO 1940

[All countries in List C are shown separately. Persons classified as of "Mixed foreign parentage" in census reports prior to 1930 have been distributed according to country of birth of father. 1940 statistics for native white or foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See text for discussion of sampling reliability. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports.]

Table 3.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK BY COUNTRY OF ORIGIN AND SEX FOR THE UNITED STATES, URBAN AND RURAL: 1940 AND 1930

[All countries in List A are shown separately for the United States as a whole; all countries in List B are shown separately for urban and rural areas. 1940 statistics for native white or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

Table 3.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN AND SEX, FOR THE UNITED STATES, URBAN AND RURAL: 1940 AND 1930—Con.

[All countries in List A are shown separately for the United States as a whole; all countries in List B are shown separately for urban and rural areas. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of male and female foreign-born, and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

Table 3.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN AND SEX, FOR THE UNITED STATES, URBAN AND RURAL: 1940 AND 1930—Con.

[All countries in List A are shown separately for the United States as a whole; all countries in List B are shown separately for urban and rural areas. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample, 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

[All countries in List A are shown separately for the United States as a whole; all countries in List B are shown separately for urban and rural areas. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample, 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

Table 3.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN AND SEX, FOR THE UNITED STATES, URBAN AND RURAL: 1940 AND 1930—Con.

[All countries in list A are shown separately for the United States as a whole; all countries in list B are shown separately for urban and rural areas. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are based on a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1.]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 3.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN AND SEX, FOR THE UNITED STATES, URBAN AND RURAL: 1940 AND 1930—Con.

[All countries in List A are shown separately for the United States as a whole; all countries in List B are shown separately for urban and rural areas. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1940 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930

[For each region and division, as a whole, countries shown separately, are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from list A; for urban and rural areas, countries shown separately are selected from list B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample; 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1.]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1]

COUNTRY OF ORIGIN OF FOREIGN STOCK

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

COUNTRY OF ORIGIN OF FOREIGN STOCK

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1]

COUNTRY OF ORIGIN OF FOREIGN STOCK

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

COUNTRY OF ORIGIN OF FOREIGN STOCK

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

COUNTRY OF ORIGIN OF FOREIGN STOCK

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS. URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 4.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, BY REGIONS AND DIVISIONS, URBAN AND RURAL: 1940 AND 1930—Con.

[For each region and division, as a whole, countries shown separately are selected from List A; for urban and rural areas, countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries shown separately. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 5.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR THE UNITED STATES, BY STATES: 1940—Con.

[Statistics shown separately for all countries in List A. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See text for discussion of sampling reliability and selection of countries shown separately.]

Table 5.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR THE UNITED STATES, BY STATES: 1940—Con.

[Statistics shown separately for all countries in List A. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See text for discussion of sampling reliability and selection of countries shown separately]

Table 6.--NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1.

COUNTRY OF ORIGIN OF FOREIGN STOCK

55

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE. URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from list B. 1940 statistics for native white of foreign or mixed parentage are based on a 3-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1.]

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE. URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign-born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 6.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR STATES WITH 50,000 OR MORE FOREIGN-BORN WHITE, URBAN AND RURAL: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]

Table 8.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR CITIES WITH 50,000 OR MORE FOREIGN-BORN WHITE: 1940 AND 1930

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign-born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "other races" in the 1930 reports. Percent not shown where less than 0.1.]

COUNTRY OF ORIGIN OF FOREIGN STOCK

77

Table 8.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR CITIES WITH 50,000 OR MORE FOREIGN-BORN WHITE: 1940 AND 1930—Con.

Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 8.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR CITIES WITH 50,000 OR MORE FOREIGN-BORN WHITE: 1940 AND 1930—Con.

Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.

COUNTRY OF ORIGIN OF FOREIGN STOCK

Table 8.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR CITIES WITH 50,000 OR MORE FOREIGN-BORN WHITE: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1.]

NATIVITY AND PARENTAGE OF THE WHITE POPULATION

Table 8.—NATIVITY AND PARENTAGE OF THE FOREIGN WHITE STOCK, BY COUNTRY OF ORIGIN, FOR CITIES WITH 50,000 OR MORE FOREIGN-BORN WHITE: 1940 AND 1930—Con.

[Countries shown separately are selected from List B. 1940 statistics for native white of foreign or mixed parentage are based on a 5-percent sample. 1940 statistics for foreign-born white are from a complete count. 1940 figures for total foreign white stock, involving the addition of native and foreign born, are composite and therefore differ from corresponding figures presented elsewhere. See introductory text for discussion of sampling reliability and selection of countries. 1930 figures have been revised to include Mexicans who were classified with "Other races" in the 1930 reports. Percent not shown where less than 0.1]
