SUGGESTED IDENTIFICATION
Vol. IV, Special Reports, Part 3, Chapter A, Nativity and Parentage.

PREFACE

This report presents statistics on the characteristics of the white population of the United States, classified by nativity and parentage. The data are based on tabulations from the Seventeenth Decennial Census of Population, conducted as of April 1, 1960. Provision for the Seventeenth Decennial Census was made in the act providing for the Fifteenth and subsequent decennial censuses, approved June 16, 1929. The major portion of the information compiled from the Census of Population of 1960 appears in Volume I, Number of Inhabitants, and in Volume II, Characteristics of the Population. These two volumes contain statistics for regions, divisions, States, and parts of States, as well as for the country as a whole.

This is one of a series of reports (Series P-8 bulletins) which comprise Population, Volume IV, Special Reports, and supplement the information contained in Population, Volumes I and II. The present bulletin is a reprint of Chapter A of Part 3, National Origin and Race, of Volume IV.

The materials presented here were prepared under the supervision of Howard G. Brunsden, Chief, Population and Housing Division, and Dr. Henry S. Shryock, Jr., Assistant Chief for Population Statistics, with the assistance of Edwin D. Goldfield, Program Coordinator. They were prepared by Dr. Henry D. Sheldon, Chief, Demographic Statistics Section, assisted by Tobia Bressler and Robert L. Rowland. The compilation of the statistics was under the direction of Robert B. Voight, Assistant Chief for Operations, assisted by Morton A. Meyer, Ruth T. Stanton, Mary E. Ivms, Lillian I. Hoffman, and Edward I. Lober. Sampling procedures were under the direction of Joseph Steinberg, Chief, Statistical Sampling Section, assisted by Joseph Waksberg and Albert Mindlin. The technical editorial work and planning were under the supervision of Mildred M. Russell, assisted by Dorothy M. Belzer. The collection of the information on which these statistics were based was under the supervision of Lowell T. Galt, then Chief, Field Division, and the tabulations were under the supervision of C. F. Van Aken, Chief, Machine Tabulation Division.
