¹ According to the new urban definition, the urban population comprises persons residing in urban territory but not necessarily in an urban place, which is defined as an incorporated place of 2,500 or more, or an unincorporated place of 2,500 or more located outside an urbanized area. Under the old definition, incorporated places of 2,500 or more and places urban under special rule are classified as urban places. In Nevada there were no places urban under special rule in 1940.
² Population of area taken to form Nevada Territory in 1861.

["Uninc." designates an unincorporated place. Counties showing totals but no minor civil division figures for 1930 were redistricted between 1930 and 1940. Minor civil division figures for other counties in 1930 do not necessarily add to county total because of reorganization of minor civil divisions. Figures for 1940 and 1930 not available for unincorporated places and places incorporated subsequent to April 1, 1940.
