1. Categories used in Series 25(96), Special Reports for Local Housing Authorities, not shown because they were adopted to describe only the housing units classified as unsubsidized or public housing, or other less common defining criteria.

2. Average intervals used in Series 25(96), Special Reports for Local Housing Authorities, not shown because of wide variation in response to varied local conditions. In all but a few of the reports, there were 50 class intervals plus "not reported." 

3. Categories used in Volume V111, Housing for Senior Citizens, not shown because of extensive detail not within the generally accepted scope of "Household composition."
