(The statistics in this series are issued in advance of publication in final reports. The series consists of 52 reports--one for the United States, each of the 50 States, and the District of Columbia. They are numbered in alphabetical order rather than in order of publication)

This report presents data on equipment-- clothes washing machines, clothes dryers, home food freezers, telephones, automobiles, air conditioning equipment, television sets, radios, and heating equipment. The information is provided for the State as a whole and each county in the State.

The data represent final tabulations from the 1960 Census of Housing. They are based on information collected from samples of housing units and, therefore, are subject to sampling variability. The figures in this report may differ from those in other reports from the 1960 Census of Housing due to processing procedures.

The statistics in this report and the definitions and explanations of the items will appear in the 1960 Census of Housing, Volume I, States and Small Areas. The individual State reports of Volume I will provide these and other data for each standard metropolitan statistical area, urbanized area, large urban place, and county in the State. A summary of all the States, SMSA's, and places of 100,000 inhabitants or more will be included in the U.S. Summary part of Volume I.

An outline of the 1960 Housing Census publication program may be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

(The statistics in this series are issued in advance of publication in final reports. The series consists of 52 reports--one for the United States, each of the 50 States, and the District of Columbia. They are numbered in alphabetical order rather than in order of publication)

This report presents data on equipment--clothes washing machines, clothes dryers, home food freezers, telephones, automobiles, air conditioning equipment, television sets, radios, and heating equipment. The information is provided for the State as a whole and each county in the State.

The data represent final tabulations from the 1960 Census of Housing. They are based on information collected from samples of housing units and, therefore, are subject to sampling variability. The figures in this report may differ from those in other reports from the 1960 Census of Housing due to processing procedures.

The statistics in this report and the definitions and explanations of the items will appear in the 1960 Census of Housing, Volume I, States and Small Areas. The individual State reports of Volume I will provide these and other data for each standard metropolitan statistical area, urbanized area, large urban place, and county in the State. A summary of all the States, SMSA's, and places of 100,000 inhabitants or more will be included in the U.S. Summary part of Volume I.

An outline of the 1960 Housing Census publication program may be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.
