Classified Index of Occupations and Industries,
Washington, D. C., 1960*

Library of Congress Card Number: A60-9481

PREFACE

The Classified Index of Occupations and Industries is designed for use in classifying the occupation and industry returns from the Population Censuses and demographic surveys conducted by the Population Division of the Bureau of the Census. The Index lists occupation and industry titles as they appear on the census and survey schedules grouped under the occupation or industry category in which each title is classified. The occupation and industry titles shown here according to the category in which each title belongs are presented in alphabetical arrangement in a companion volume, the Alphabetical Index of Occupations and Industries.

A new Index is prepared for each Decennial Census of Population and, in addition, intercensal editions are prepared when necessary. The occupational and industrial classification systems used in this Index are revisions of the 1950 systems.

The basic content of the 1960 Index, like that of other editions, is largely derived from previous editions. The 1960 Index incorporates the experience acquired from the 1950 Census, as well as from the Population Census pretests and sample population surveys conducted by the Bureau since the 1950 Census. In addition, much valuable material was obtained from sources such as the Dictionary of Occupational Titles published by the United States Employment Service and the Standard Industrial Classification published by the Bureau of the Budget.

Many individuals and organizations, both private and public, were of assistance in the preparation of the Index. Their kind cooperation is gratefully acknowledged. Special acknowledgment is due to the Inter-agency Occupations Classifications Committee of the Bureau of the Budget, and to the Committee's chairman, Dr. Gladys L. Palmer of the University of Pennsylvania, and Harold T. Goldstein, Office of the Assistant Director for Statistical Standards, who assisted in planning the industry material.

This Index was prepared in the Occupation and Industry Statistics Section under the supervision of Dr. Stuart H. Garfinkle, Chief, Economics Statistics Branch of the Population Division, by William J. Milligan, Section Chief, and Gladys M. Dodd, Classification Unit Chief, with the assistance of Laura S. Biggs, Helen M. Davenport, Mildred A. McClung, Minnetta E. Miller, Hettie E. Owens, and Mildred G. Swarthout.

September 1960.
