## COMPARABILITY OF CENSUS TRACTS, 1960 AND 1950

Only San Francisco and Oakland cities and some adjacent area were tracted for 1950. The prefix letters "OK" and "B" have been added to the Oakland and Berkeley city tracts, respectively. Shown below are the 1960 tracts that are not comparable to the 1950 tracts.

### NOTE ON BIAS IN SAMPLE STATISTICS

Sample statistics of certain census tracts may be subject to substantial bias as the result of (a) under- or overenumeration in the sample, or (b) inadequate reporting of information for sample items. Among tracts with 1,000 inhabitants or more, there was one case where one or more component ED's (comprising more than 20 percent of the total population of the tract) had allocation rates of 50 percent or more for a majority of the sample items. In tract OK-20, 63 percent of the population was in such ED's. The extent to which cancellation and replication of sample items may have affected the quality of sample tract statistics, however, has not been determined. Further information on editing procedures is available in the section on editing in the text of this report and that of chapters C and D of 1960 Census of Population, Volume I, Characteristics of the Population.

Table P-1.—GENERAL CHARACTERISTICS OF THE POPULATION, BY CENSUS TRACTS: 1960

[Asterisk (\*) denotes statistics based on 25-percent sample. Population per household not shown where less than 50 persons in households. Median not shown where base is less than 200]
