NOTE: The introductory text on pages 1 to 12 is a standard statement prepared for all tracted areas in the United States. For Honolulu, however, the references in the text to 1950 data are not always applicable because the 1950 tract program for Honolulu differed in some respects from the program for cities on the mainland. The following exceptions should be noted for Honolulu: Items included in 1950 but omitted for 1960 are exterior material, refrigeration equipment, and electricity. In 1950, three categories for persons per room were presented; in 1960, four are shown. Categories on number of units in structure in 1950 are comparable with those in 1960; type of structure was not enumerated in Honolulu in 1950. In the value and rent data, farm units were included in 1950 but not in 1960.

COMPARABILITY OF CENSUS TRACTS, 1960 AND 1950

The entire Honolulu SMSA was tracted for 1950. The numbering system has been revised since 1950, hence the comparability for all tracts is being shown.
