NOTE ON BIAS IN SAMPLE STATISTICS

Sample statistics of certain census tracts may be subject to substantial bias as the result of (a) shortage in the sample or (b) inadequate reporting of information for sample items. In Houston Tract 26 included one ED in which the allocation rate was 50 percent or more for a majority of the sample items. This ED comprised 39.7 percent of the total population for the tract. The extent of cancellation and replication of sample persons is not reflected in this indicator. Further information on editing procedure is given on page 8 of this report.

(Asterisk (*) denotes statistics based on 25-percent sample. Population per household not shown where less than 50 persons in households. Median not shown where base is less than 200)
