ROBERT W. BURGESS, *Director (to March 3, 1961)*

## DESCRIPTION OF THIS BINDING

The PHC(1) series consists of reports for 180 areas. In this binding, the reports are arranged alphabetically in 11 parts, as shown below. The reports appear as originally issued, except that (1) the prefatory and introductory materials have been cut out of all except the first report in each bound part (and the reports for Honolulu and the three Puerto Rican SMSA's) in order to save space and (2) for those reports containing maps on separate sheets, the maps have been inserted in the box at the back of the particular part. Of the 180 areas covered in this series, all are standard metropolitan statistical areas except two, Middlesex and Somerset Counties, N.J., which are not part of an SMSA. For 136 of the 178 SMSA's, the entire area is tracted; for 17, only the central city (or cities) is tracted; and for the remaining 25, the central city (or cities) and part of the balance of the SMSA are tracted. In 13 of the reports, tracts adjacent to the SMSA are also shown.
