PC(Pl)-40

Pennsylvania

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 11,239,301, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 741,289, or 7.1 percent, over the 10,498,012 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, each incorporated place of 1,000 or more, and each minor civil division. The preliminary figures will be

superseded by the final counts to be shown in Advance Report PC(A1)-40, which will be issued between August 1960 and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

PC (P1)-41

Rhode Island

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 841,852, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 49,956, or 6.3 percent, over the 791,896 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, each incorporated place of 1,000 or more, and each minor civil division. The preliminary figures will be

superseded by the final counts to be shown in Advance Report PC(A1)-41, which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

PC(Pl.)-43

South Dakota

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 676,738, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 23,998, or 3.7 percent, over the 652,740 inhabitants of the State enumerated in the 1950 Census.

to be shown in Advance Report PC(A1)-43, which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 3,536,240, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 244,522, or 7.4 percent, over the 3,291,718 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

to be shown in Advance Report PC(A1)-44, which will be issued between August and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

1960 Census of Population

PRELIMINARY REPORTS

POPULATION COUNTS FOR STATES

August 1960

PC(P1)-45

Texas

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 9,488,620, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 1,777,426, or 23.0 percent, over the 7,711,194 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

to be shown in Advance Report PC(A1)-45, which will be issued between August and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

PC(Pl)-46

Utah

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 886,926, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 198,064, or 28.8 percent over the 688,862 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

to be shown in Advance Report PC(A1)-46, which will be issued between August 1960 and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

PC(P1)-48

Virginia

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 3,903,555, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 584,875, or 17.6 percent, over the 3,318,680 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

to be shown in Advance Report PC(A1)-48, which will be issued between August and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

August 1960

PC(P1)-49

Washington

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 2,829,871, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 450,908, or 19.0 percent, over the 2,378,963 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

to be shown in Advance Report PC(A1)-49, which will be issued between August and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

PC (P1)-50

West Virginia

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 1,847,936, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a loss of 157,616, or 7.9 percent, from the 2,005,552 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

to be shown in Advance Report PC(A1)-50, which will be issued between August and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

August 1960

PC(P1)-51

Wisconsin

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 3,930,312, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 495,737, or 14.4 percent, over the 3,434,575 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

to be shown in Advance Report PC(A1)-51, which will be issued between August and November 1960. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the State as of April 1, 1960, was 327,531, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 37,002, or 12.7 percent, over the 290,529 inhabitants of the State enumerated in the 1950 Census.

This report presents preliminary counts for the State, each county, and each incorporated place of 1,000 or more. The preliminary figures will be superseded by the final counts

to be shown in Advance Report PC(A1)-52, which will be issued between October 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.

Puerto Rico

(This report is based on preliminary counts of the population compiled in the 1960 Census field offices. The series contains 57 reports which are numbered in alphabetical order rather than in order of publication)

The population of the Commonwealth of Puerto Rico as of April 1, 1960, was 2,353,297, according to a preliminary count of the returns of the 1960 Census of Population. This figure represents a gain of 142,594, or 6.5 percent, over the 2,210,703 inhabitants of the area enumerated in the 1950 Census.

This report presents preliminary counts for the Commonwealth, each municipio, and each place of 1,000 or more. The preliminary figures will be superseded by the final counts to

be shown in Final Report PC(1)-53A, which will be issued between November 1960 and January 1961. The final population totals may differ from the preliminary counts for a number of reasons.

An outline of the 1960 Population Census publication program can be obtained free of charge from the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office.
