APPENDIX

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

Subject	United States	Color		Residence			States			
		White	Nonwhite	Urban	Rural nonfarm	Rural farm	Alabama	Alaska	Arizona	Arkansas

¹ Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."
² Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

Detailed Characteristics

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

¹ Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."

² Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

¹ Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."

² Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

¹ Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."

² Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation.]
