APPENDIX

Table C-1.--NUMBER OF PERSONS AND HOUSEHOLDS IN SAMPLE, FOR THE STATE, BY SIZE OF PLACE: 1960

[The term "in sample" includes only those cases which were readable by the computer after the various processing steps and after the registration of households. "some households were essential, and others were replicated to replace them. Cancellations were made because of has in average size of sample incursholds or lack of nample information. Cancellations are essential, but replicated persons are counted only one for this statistic]

Table C-2 .-- PERCENT OF NONRESPONSE AND ALLOCATION FOR SELECTED CHARACTERISTICS, FOR THE STATE, BY SIZE OF PLACE: 1960

[Data are based on final weighted sample figures after all replications. The terra "nonresponse" denotes the absence of an entry on the schedule, or an entry that was poorly marked or was otherwise not readable by the mechanical equipment, or an entry that was inconsistent with another entry. The term "allocates" means that a characteristic was assigned during tabalation because of nonresponse. See text for further explanation]
