### Table B-3. Computer Allocation Rates for Nonresponse or Inconsistency for Standard Metropolitan Statistical Areas, Places of 10,000 Inhabitants or More, and Counties: 1970

[The term "allocation" means that a characteristic was assigned in the absence of a machine-readable entry or changed to make consistent with other entries during the computer editing. For minimum base for derived figures (percent, median, etc.) and meaning of symbols, see text]

## Table B-3. Computer Allocation Rates for Nonresponse or Inconsistency for Standard Metropolitan Statistical Areas, Places of 10,000 Inhabitants or More, and Counties: 1970—Continued

[The term "allocation" means that a characteristic was assigned in the absence of a machine-readable entry or changed to make consistent with other entries during the computer editing. For minimum base for derived figures (percent, median, etc.) and meaning of symbols, see text]
