# Appendix A—DEFINITIONS AND EXPLANATIONS OF SUBJECT CHARACTERISTICS

POPULATION COVERAGE . . App-1  
HOUSEHOLD AND FAMILY CHARACTERISTICS . . . . . App-1  
PERSONAL CHARACTERISTICS . . . . . App-2  
LABOR FORCE CHARACTERISTICS . . . . . App-3  
INCOME, SOURCES OF INCOME, AND DEBT . . . . . App-5

## POPULATION COVERAGE

This report covers the civilian noninstitutional population of the low-income area described by the maps and the list of tracts. Unlike the 1970 census, the Census Employment Survey (CES) excluded Armed Forces members and inmates of institutions. Another important difference is the treatment of college students. The CES considered unmarried students as members of their parents' household even though they may have been living away from home when the survey was taken. The 1970 census counted students as members of the household or dormitory in which they actually resided at the time of the census.

Although Armed Forces members were not interviewed their incomes were included in the computation of total family income if they were living off post with their families. If an Armed Forces member was not living with his family, only the allotment income actually received by his family was counted.

## HOUSEHOLD AND FAMILY CHARACTERISTICS

**Household.**—A household consists of all the persons who occupy a housing unit. A house, an apartment, a group of rooms, or a single room is regarded as a housing unit when it is occupied or intended for occupancy as separate living quarters; that is, when the occupants do not live and eat with any

other persons in the structure and there is either (1) direct access from the outside or through a common hall or (2) a kitchen or complete cooking facilities for the exclusive use of the occupants.

A household includes the related family members and all the unrelated persons, if any, such as lodgers, foster children, wards, or employees who share the housing unit. A person living alone in a housing unit or a group of unrelated persons sharing a housing unit as partners is also counted as a household.

**Group quarters.**—Group quarters are living arrangements for institutional inmates, regardless of the number of inmates, or for other groups containing five or more persons unrelated to the person in charge. For this report, institutional inmates were not enumerated though staff personnel of institutions and other persons living in group quarters, such as residents of a rooming house, were included.

**Head of household or family.**—One person in each household or family is designated as the "head." The head is usually the person regarded as the head by the members of the group. Married women are not classified as heads if their husbands are living with them at the time of the survey. The number of household heads does not equal the number of family heads, because more than one family may share a household.

**Family.**—The term "family," as used in this report, refers to a group of two or more persons related by blood, marriage, or adoption and residing together; all such persons are considered as members of the same family. Thus, if the son of the head of the household and the son's wife are in the household, they are treated as part of the head's family. On the other hand, a lodger and his wife not related to the head of the household or an unrelated

servant and his wife are considered as a separate family, and not a part of the household head's family.

**Primary family.**—A primary family refers to the head of a household and all other persons in the household related to the head by blood, marriage, or adoption. In the case of the primary family, the household head and the family head are the same person.

**Secondary family.**—A family that does not include among its members the head of a household is known as a secondary family. Members of secondary families may include persons such as guests, lodgers, or resident employees and their relatives living in a household.

**Unrelated individual.**—The term "unrelated individuals," as used in this report, refers to persons 16 years old and over (other than inmates of institutions) who are not living with any relatives. An unrelated individual may constitute a one-person household by himself, or he may be part of a household including one or more other families or unrelated individuals, or he may reside in group quarters such as a rooming house. Thus, a widow living by herself or with one or more other persons not related to her, a lodger not related to the head of the household or to anyone else in the household, a servant living in an employer's household with no relatives, and a resident staff member in a hospital living apart from any relatives are all examples of unrelated individuals.

**Primary individual.**—If the household head does not have any relatives in his household, then the head himself constitutes a primary individual. A household contains either a primary family or a primary individual. The number of primary families and individuals is identical with the number of households.

**Secondary individual.**—A secondary individual is a person, such as a lodger, guest, or resident employee who is not related to any other person in the household or group quarters.

**Family status.**—All household members may be divided into families and unrelated individuals. Family members are classified according to their relationship to the family head. The **family head** is the person who is regarded as the head by the members of the family. **Wife of head** is a woman married to and living with a family head. This category includes women in common law marriages as well as women in formal marriages. **Other relative of head** includes children and all other relatives of the head. **Unrelated individuals** are all persons not related to any other person in the household.

**Size of family.**—The term "size of family" refers to the number of persons who are living together and are related to each other by blood, marriage, or adoption.

#### PERSONAL CHARACTERISTICS

**Age.**—The age classification is based on the age of the person at the time that the household was enumerated. The overlap of age breaks in the tables is provided to reflect the restrictions on age imposed by some Federal training programs.

**Race.**—The population is divided into three groups on the basis of race: White, Negro, and "other races." The last category includes Indians, Japanese, Chinese, and any other race except white and Negro. Household members were classified into racial groups by the enumerator's observation.

If the race entry was missing for a household member, an entry was assigned according to the race of the other household members using spe-

cific rules of precedence of relationship. If there is no entry for any household member, the race is allocated by special procedures.

The **Spanish origin classification** is derived from information about the place of birth of the person, or the place of birth of his parents, or the language spoken in his home when he was a child.

If a person's place of birth or the place of birth of either of his parents was Puerto Rico, Mexico, Cuba, or another Latin American country, he is classified as of Spanish origin. Persons who report that Spanish was the language spoken most often in their home when they were children are also classified as of Spanish origin even though they and both of their parents were born in the United States.

In cases where parents are of different Spanish origin, "Puerto Rican" has precedence over "Spanish, Non-Puerto Rican." In other words, if the parents were born in Mexico and Puerto Rico, the person is considered Puerto Rican for the purposes of the tabulations presented in this report.

This definition differs from that used in the 1970 census inasmuch as each person marked the census item himself while the CES definition was based on the person's place of birth, or place of birth of father or mother, or Spanish spoken in the home.

**Marital status.**—This classification refers to the marital status at the time of enumeration. There are five categories: **Married—civilian spouse present** refers to a household member whose wife or husband is listed as a civilian household member. **Married—Armed Forces spouse present** refers to a household member whose spouse lives at home and is a member of the Armed Forces. Since only civilians are interviewed, the data on spouses in the Armed Forces is limited to the reporting of their income information. On

tables referring to characteristics of the head, such as work experience in the past year, these families are omitted from the tables. This occurs in tables 7, 9, and 44 to 54. These types of families were treated as "Families with male heads" in the tables 40 to 43. **Married—spouse absent** refers to a household member whose spouse is not presently a member of the household. **Widowed or divorced** refers to a household member whose spouse is not a member due to divorce or death. **Never married** refers to a household member that has never married or whose only marriage has been annulled.

**Veteran status.**—This question is restricted to males who have been on active duty in the U.S. Armed Forces. This includes men who have been in the U.S. Army, U.S. Navy, U.S. Air Force, U.S. Marine Corps, U.S. Coast Guard, on active duty status for several months in the reserve branch of any of the above organizations, commissioned officers of the U.S. Public Health Service who have been attached to any branch of the armed services, and the National Guard in Federal service.

Veterans are classified by their most recent period of service. Serving during a major conflict such as World War I, World War II, Korean War, or the Vietnam War takes priority over peacetime service.

**Years of school completed.**—Data on years of school completed in this report were derived from the combination of answers to questions concerning the highest grade of school attended by the person and whether or not that grade was finished. The questions on educational attainment apply only to progress in "regular" schools. Such schools include graded public, private, and parochial elementary and high schools (both junior and senior high), colleges, universities, and profes-

sional schools, whether day schools or night schools. Thus, regular schooling is that which may advance a person toward an elementary school certificate or a high school diploma, or a college, university, or professional school degree. Schooling in other than regular schools was counted only if the credits obtained were regarded as transferable to a school in the regular school system.

The median years of school completed is defined as the value which divides the distribution into two equal groups, one having completed more schooling and one having completed less schooling than the median. These medians are expressed in terms of a continuous series of numbers representing years of school completed. For example, a median of 9.0 represents the completion of the first year of high school and a median of 13.0 means completion of the first year of college. Unlike the census, the median in this report excludes persons in the category "No school completed."

**School enrollment.**—A person is classified as being enrolled in school if he is currently in school or he expects to return to school within 3 months.

**Job training.**—The questions on job training refer to the types of training programs taken in schools, in the armed services, and in apprentice programs. These programs may be of a business or vocational nature. Information is received on completion of programs taken and whether the training was subsequently used on any job. Questions about apprentice programs and armed services training programs are restricted to males.

**Place of birth.**—The State or country of respondent's birthplace is given as well as the size of the place of birth. A distinction has been drawn on certain tables between places in the South and places outside the South. Those States

considered in the South are as follows: Alabama, Arkansas, Delaware, District of Columbia, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia. Place of birth was also obtained for the parents of the respondents. Birthplaces of parents may determine Spanish origin.

**Residential migration.**—Migration patterns are determined from a battery of questions concerned with length of residence in the city and the place of residence at specific ages in the respondent's life. Length of residence in this city refers to the latest period of continuous residence and includes those persons who have never moved. Vacations and other temporary visits are not considered a break in continuity. In determining place of residence other than in this city, the State or country was obtained in addition to the size of the place. The specific age periods are birth, 5 years prior to enumeration, and at 16 years old.

There are six categories for size of place ranging from a large city of over 250,000 inhabitants to a farm.

A distinction is drawn on some of the tables between places in the South and places outside the South. For the list of places in the South, see "Place of birth."

## LABOR FORCE CHARACTERISTICS

**Labor force and employment status.**—The definitions of labor force and employment status in this report relate to civilian persons 16 years and over. The reference period for establishing labor force status is the week preceding enumeration.

**Labor force.**—Persons are classified as in the labor force if they are currently employed, waiting to begin a new job, or actively seeking employment.

Employed persons comprise (1) all those who did any work at all as paid

employees, or in their own business, profession, or farm, or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, and (2) all those who were not working but who had jobs or businesses from which they were temporarily absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs.

Each employed person is counted only once. Those who held more than one job are counted in the job at which they worked the greatest number of hours during the survey week.

Excluded from the employed group are persons whose only activity consisted of work around the house (such as own home housework, painting or repairing own homes, etc.) or volunteer work for religious, charitable, or similar organizations.

**Unemployed persons** comprise all persons who did not work during the survey week, who made specific efforts to find a job within the last 4 weeks, and who were available for work during the survey week (except for temporary illness). Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they had been laid off, or (b) were waiting to report to a new wage or salary job within 30 days.

**Unemployment rate.**—The unemployment rate represents the number unemployed as a percent of the civilian labor force. This measure can also be computed for groups within the labor force classified by sex, age, marital status, race, etc.

**Not in labor force.**—This category includes persons who are not classified as employed or unemployed. These persons are further classified as

"engaged in own home housework," "in school," "unable to work" because of long-term physical or mental illness, and "other." The "other" group includes for the most part retired persons, those reported as too old to work, the voluntarily idle, and seasonal workers for whom the survey week fell in an "off" season and who were not reported as unemployed. Persons doing only incidental unpaid family work (less than 15 hours) are also classified as not in the labor force.

**Full-time employed.**—Persons who worked 35 hours or more last week are designated as working full time.

**Part-time employed.**—Persons who worked between 1 and 34 hours last week are designated as working part-time. Part-time workers are further classified by their usual status at their present job (either full-time or part-time) and by their reason for working part-time through the survey week (economic or other reasons). Economic reasons include: Slack work, material shortages, repairs to plant or equipment, start or termination of job during the week, and inability to find full-time work. Other reasons include: Labor dispute, bad weather, own illness, vacation, demands of own housework, school, no desire for full-time work, and full-time worker only during peak season.

**Employed on full-time schedules.**—Persons are classified on full-time schedules if they fall into one of three categories: (1) They worked 35 hours or more last week, (2) if they worked less than 35 hours last week for noneconomic reasons (holiday, labor dispute, bad weather, own illness, on vacation, too busy with housework, school, personal business, etc., did not want full-time work, full-time work week under 35 hours, and other reasons), and they usually work 35 hours or more, (3) they have a job but were

not at work, yet were employed on a full-time basis.

**Full- and part-time labor force.**—The full-time labor force consists of persons working on full-time schedules, persons involuntarily working part-time (because full-time work is not available), and unemployed persons seeking full-time jobs. The part-time labor force consists of persons working part-time voluntarily and unemployed persons seeking part-time work. Persons with a job but not at work are classified according to whether they usually work full-time or part-time.

**Part-time and full-time jobs.**—Persons are classified as having worked at full-time jobs if they worked 35 hours or more per week in a majority of the weeks worked during the year. They are classified as having worked at part-time jobs if they worked 1 to 34 hours per week in a majority of the weeks worked during the year.

**Work experience.**—Persons with work experience are those who worked as civilians at any time during the year at full-time or part-time jobs.

**Year-round full-time workers.**—Persons who worked primarily at full-time civilian jobs 50 weeks or more in the last 12 months are classified as year-round full-time workers.

**Part-year workers.**—Persons who worked either full-time or part-time for 1 to 49 weeks in the last 12 months are classified as part-year workers.

**Main reason for part-year work.**—Part-year workers are classified by the major reason for part-year work on the basis of what they were doing most of the weeks in which they did not work. Their reasons are reported as unemployment or layoff from a job, illness or disability (not including paid sick leave), taking care of home, going to school, retirement, in the Armed

Forces, and other reasons. The "taking care of family or home" category was restricted to women.

**Nonworkers.**—Nonworkers are persons who did not work during the last 12 months. They are asked whether they looked for work during the year and, if they looked, for how many weeks. Nonworkers are classified according to the main reason for not working. Their reasons are reported as illness or disability, taking care of home, going to school, inability to find work, retired, in the Armed Forces, and other reasons.

**Stretch of unemployment.**—A stretch of unemployment is a continuous period of unemployment of at least 1 week's duration. A stretch is terminated by employment or withdrawal from the labor force.

**Extent of unemployment.**—The number of weeks accumulated in all stretches of unemployment represents the total number of weeks of unemployment during the last 12 months.

**Longest job.**—The occupation and industry information is collected for the longest job in the last 12 months and the longest job since leaving school. They are collected in the same manner as for the current job. A person's longest job during the last 12 months is the one at which he worked the greatest number of weeks. For most wage and salary workers, a job is defined as all the time worked for the same employer. The only exception is work for private families (domestic service, babysitting, odd jobs and the like) which is counted as a single job regardless of number of employers. Self-employment and unpaid work in family-operated enterprises are also designated as jobs for purposes of this survey. A person's longest job since leaving school is the one at which he worked the greatest number of months or years.

**Occupation and industry.**—The categories for industry and occupation are based on the same classification system used in the 1970 decennial census. Occupation and industry information is obtained in several items. One item refers to the current job, that is, the job held last week. If two jobs were held then the job reported was the one at which the person worked the greater number of hours. For an unemployed person, the job reported refers to the last job held. For a person who is not currently in the labor force, the last job held within the last 5 years is reported. Industry and occupation is also reported for the person's longest job in the last 12 months, the person's first regular job since leaving school, and the person's longest job since leaving school.

**Usual place of employment.**—Employed persons were classified as going to the same address each day or a different address each day. Those going to the same address were subdivided according to the location of their job into the following categories—low-income area (which is the area surveyed), the remainder of the city, and outside the city limits.

**Tenure on job.**—This category refers to the length of time a person has worked on a job without a break in service. Tenure is obtained for the current job, the first job since leaving school, and the longest job since leaving school.

**Job-seeking methods.**—A respondent was asked which methods he used to look for work in the last 12 months. The methods asked about were: Checked with State Employment Service, applied directly to employer, asked friends or relatives, checked newspapers, registered with a union, checked with a private employment agency, checked with a community organization, went to special streets or places to be picked up, or other ways. The

respondent also indicated the most frequent method used, and the method that got the respondent his last job.

**Method of transportation.**—Employed persons were asked for the methods of transportation they usually use to get to work. All methods that the respondent mentioned were recorded with the result that the total shown in these tables may be less than the sum of the various parts. Some of the methods may not be applicable for a specific area which may account for blank data cells.

#### INCOME, SOURCES OF INCOME, AND DEBT

**Income.**—Each person was asked the amount of money income received in the preceding 12 months from such sources as follows: Money wages or salary, net self-employment income from farm, or nonfarm business, social security, dividends, interest, unemployment and workmen's compensation, public assistance payments, and other periodic income. The amounts received represent income before deductions for taxes, union dues, etc.

**Family income.**—Family income is the composite of the amounts received by all income recipients in the family from the sources listed in "Income."

**Median income.**—Median income is the amount which divides the distribution into two equal groups, one having incomes above the median and the other having incomes below the median. The medians for families and individuals are based on all families and individuals.

**Wages or salary.**—This is total money earnings received for work performed as an employee during the last 12 months. The amount reported covers an employee's gross wages, salary, tips, and commission before deductions for

taxes, bonds, pensions, union dues, etc. Receipts not included as income are income in kind such as room and board.

**Self-employment income.**—This is net money income (gross receipts minus expenses) from one's own business, professional enterprise, or partnership.

**Farm self-employment income.**—This is net money income from the operation of a farm by a person on his own account, as an owner, a renter, or sharecropper. The value of fuel, food, or other farm products used for family living is not included as part of net income.

**Workmen's compensation.**—This category refers to payments received from public or private insurance companies for injuries incurred while on the job. The cost of this insurance must be paid by the employer and not by the employee.

**Unemployment compensation.**—This category refers to money received from government unemployment insurance agencies or private companies during periods of unemployment and any strike benefits received from union funds.

**Social security.**—This includes social security pensions, survivors' benefits, and permanent disability insurance payments made by the Social Security Administration prior to deductions for medical insurance, and railroad retirement insurance checks from the U.S. Government.

**Other pensions.**—These include (1) veterans' pensions, money paid periodically by the Veterans' Administration to disabled members of the Armed Forces or to survivors of deceased veterans; subsistence allowances paid to veterans for education and on-the-job training; as well as so-called

"refunds" paid to ex-servicemen as GI insurance premiums; (2) private pensions or retirement benefits paid to a retired person or his survivors by a former employer or by a union, either directly or through an insurance company; (3) government employee pensions received from retirement pensions paid by Federal, State, county, or other governmental agencies to former employees (including members or their survivors).

**Public assistance or welfare payments.**—These include public assistance payments such as old-age assistance, aid to families with dependent children, and aid to the blind or totally disabled.

**Rents.**—Rents include net income from rental of a house, store, or other property to others, and receipts from boarders or lodgers.

**Dividends and interest.**—These include dividends from stockholdings or membership in associations, and interest on savings or bonds.

**Other income.**—This includes any income which cannot be placed in the above categories. The Armed Forces pay of a husband living at home is reported here as well as allotments received from absent Armed Forces members.

**Transfer payments and pensions.**—Included in these are total income received from the following sources: Unemployment insurance, workmen's compensation, social security, welfare

payments, and private, veterans', and government pensions.

**Property income and all other.**—This category includes rents, interest and dividends, and any miscellaneous income reported.

**Earners.**—Heads and individuals 16 to 64 years, not in school, with either wages and salary, or net self-employment from business or farm are earners.

**Weekly earnings.**—This represents earnings of full-time wage and salary workers last week.

**Hourly earnings.**—This represents weekly earnings of full-time wage and salary workers divided by the hours worked last week.

**Monthly installment debt.**—This is the total amount the primary family or primary individual pays each month on all long-term debts except mortgages or rent. It includes payments on cars, furniture, appliances, loans from banks and other lending institutions, and also alimony payments.

**Mortgage or rent payments.**—This is the total amount paid each month for mortgage or rent regardless of whether it includes interest payments, utilities, furniture, or other services.

**Utility payments.**—This is the amount reported as total payment for all utilities during the last calendar month.

**Fixed monthly expenses.**—This is the total amount paid each month on rent or mortgage, utilities, and installment debt.

**Poverty level.**—Families and unrelated individuals are classified as being above or below the poverty level, using the poverty index adopted by a Federal Interagency Committee in 1969.<sup>1</sup> This index provides a range of income cutoffs adjusted to take into account such factors as family size, sex and age of the family head, the number of children, and farm-nonfarm residence. The poverty cutoffs for farm families have been set at 85 percent of the nonfarm levels. These cutoff levels are updated every year to reflect the changes in the Consumer Price Index. The poverty thresholds used in this report were updated for changes in the cost of living between January and September 1970. For the 12 month period covered by this survey, the poverty cutoffs ranged from \$1,556 for a female unrelated individual 65 years old and over living on a farm to \$6,904 for a nonfarm family with a male head and with seven or more persons (none under 18 years old). The poverty cutoff for a nonfarm family of four, headed by a male with a wife and two children under 18 years, was \$3,880.

Percentage calculations relating to families or persons by poverty status are based on a restricted universe that excludes unrelated individuals under 16 years of age, members of the Armed Forces living in barracks, and inmates of institutions.

<sup>1</sup>See Current Population Reports, Series P-23, No. 28 "Revision in Poverty Statistics, 1959 to 1968," for a more detailed description of this poverty index.

SAMPLE DESIGN ..... App-7  
 ESTIMATION ..... App-7  
 RELIABILITY OF THE ESTIMATES ..... App-7

**SAMPLE DESIGN**

The sample for the Census Employment Survey (CES) was selected from a computerized list of addresses and special places constructed prior to the 1970 census. After the census, there was an additional sampling operation to account for addresses and persons added during the census enumeration. A systematic sample of clusters of six units was chosen for this survey. In general, the clusters were formed by the computer with an emphasis on clustering addresses that were contiguous on the listing. The creation of the clusters was designed to put addresses of from one to six units within a single cluster. Noncontiguous addresses were occasionally put in the same cluster in order to increase the number of clusters made up of complete addresses.

For persons in housing units, the sampling unit was the set of housing units in the sample cluster with all of the occupants age 16 and over; for persons in group quarters, it was the person.

The number of occupied interviewed housing units in sample in this area is shown on page X in the section on "Selected Characteristics of the Survey in This Area."

**ESTIMATION**

The estimates from this survey were developed through the use of a ratio estimate to 1970 census population counts. The computer record for each sample person was first given a weight (the inverse of the probability of selection) adjusted to account for non-interviews encountered during the survey. The records were then used to

prepare preliminary tallies of the CES data for the following ratio estimation cells:

Age	Male		Female	
	Negro	Non-Negro	Negro	Non-Negro
25 to 44 . . . .				
45 to 64 . . . .				
65 and over . .				

Within each of the cells, the ratio of the 1970 census count to the preliminary CES tally was computed and applied to the weights of all CES records in that cell. Because of differing definitions of the eligible universe, no ratio estimation was performed for persons age 16 to 24. The principle difference between CES and census definitions of eligible persons relates to the treatment of students and Armed Forces members. In CES, unmarried students living away from home were counted as members of their parent's household, while in the 1970 census they were counted as members of the household or dormitory in which they were residing. Armed Forces members were excluded from the CES but included in the 1970 census.

The effect of this procedure is to produce estimates realizing some of the gains in sampling efficiency that would have resulted had the population been stratified into the above groups before sampling. The net effect is a reduction in both the sampling error and possible bias of most statistics below what would be obtained by weighting all of the sample households and persons by a uniform factor. The reduction in sampling error will be substantial for some items and less effective for others. A by-product of this estimation procedure is that estimates from the sample tend to be consistent with the census counts for

the groups used in the estimation procedure except for the differences between the population covered in this survey and in the census.

**RELIABILITY OF THE ESTIMATES**

Since the estimates are based on a sample, they may differ somewhat from the figures that would have been obtained if a complete census was taken using the same schedules, instructions, and interviewers. In addition to this error (called sampling variability), the results are also subject to the errors of response, non-reporting, and processing inherent in censuses as well as sample surveys.

The standard error is primarily a measure of the sampling variability, that is, of the variations that occur by chance because a sample rather than the whole of the population is surveyed. The chances are about 68 out of 100 that an estimate from the sample would differ from a complete census by less than the standard error. The chances are about 95 out of 100 that the difference would be less than twice the standard error and about 99 out of 100 that it would be less than 2-1/2 times the standard error.

The figures presented in the following tables are approximations to the standard errors of various estimates shown in this report. In order to derive standard errors that would be applicable to a wide variety of items and could be prepared at a moderate cost, a number of approximations were required. As a result, the standard errors shown provide an indication of the order of magnitude rather than the precise standard error for any specific item. These tables do not reflect the effect of response variance or bias arising in the collection or processing stages.

The standard errors in these tables are not directly applicable to differ-

ences between two estimates. In order to estimate the standard error of a difference, the tables are to be used as described in the following two situations.

1. The standard error of a difference between a sample figure from the CES and a 1970 census complete count is the standard error of the CES statistic.
2. For a difference between two sample figures (two figures from the CES for the same or for one CES area versus another, or a CES figure versus one collected on a sample basis in the census), the standard error of the difference is approximately the square root of

the sum of squares of the standard errors of each estimate considered separately. If two figures from the same CES area are being compared and there is a high positive correlation between the two characteristics, this formula will overstate the true standard error somewhat.

Table B1 gives approximate standard errors for estimated numbers of persons with a characteristic (e.g., the number of unemployed males) while table B2 gives approximate standard errors for estimated percentages (e.g., the percent of males who are unemployed). Linear interpolation in these tables will provide generally satisfactory results.

**Table B1. Approximate Standard Errors of Estimated Number of Persons**

(Range of 68 chances out of 100)

Estimate	Standard error		
	All races	White	Negro
100 .....	20	20	20
400 .....	40	40	40
1,200 ....	70	70	70
2,000 ....	90	80	80
4,000 ....	120	110	110
6,000 ....	140	120	120
8,000 ....	150	120	120
10,000 ...	160	110	110
12,000 ...	170	80	90
16,000 ...	170	—	—
20,000 ...	160	—	—
24,000 ...	130	—	—
28,000 ...	70	—	—

**Table B2. Approximate Standard Errors of Estimated Percentage of Persons**

(Range of 68 chances out of 100)

Base of percentage	Estimated percentage							
	1 or 99	2 or 98	5 or 95	10 or 90	15 or 85	25 or 75	35 or 65	50
100 .....	2.0	2.8	4.4	6.0	7.2	8.7	9.6	10.1
400 .....	1.0	1.4	2.2	3.0	3.6	4.4	4.8	5.0
1,200 .....	.6	.8	1.3	1.7	2.1	2.5	2.8	2.9
2,000 .....	.4	.6	1.0	1.4	1.6	2.0	2.1	2.3
4,000 .....	.3	.4	.7	1.0	1.1	1.4	1.5	1.6
6,000 .....	.3	.4	.6	.8	.9	1.1	1.2	1.3
8,000 .....	.2	.3	.5	.7	.8	1.0	1.1	1.1
10,000 .....	.2	.3	.4	.6	.7	.9	1.0	1.0
12,000 .....	.2	.3	.4	.6	.7	.8	.9	.9
16,000 .....	.2	.2	.3	.5	.6	.7	.8	.8
20,000 .....	.1	.2	.3	.4	.5	.6	.7	.7
24,000 .....	.1	.2	.3	.4	.5	.6	.6	.7
28,000 .....	.1	.2	.3	.4	.4	.5	.6	.6

**Example.**—Assume a table in this report shows there are an estimated 9,000 males aged 25 and older who have completed high school in the poverty area. Interpolation in table B1 shows the sampling error on an estimate of this size is about 155. This

means the chances are 68 in 100 that a complete census would show the number in this category would differ from the estimated 9,000 by less than this amount; the chances are 95 in 100 that the complete census would differ by less than twice this amount.

Assume further the report shows that 8 percent of these males are unemployed. Interpolation in table B2 shows the standard error on an estimated 8 percent on a base of 9,000 would be 0.57 percent.

 1-34 (Go to 20C)   
 35-48 (Go to 20C)

20C. Does ... USUALLY work 35 hours or more a week at this job?

Yes  What is the reason ... worked less than 35 hours LAST WEEK?  
 No  What is the reason ... USUALLY works less than 35 hours a week? (Mark like appropriate reason)

Slack work   
 Material shortage   
 Plant or machine repair   
 New job started during week   
 Job terminated during week   
 Could find only part-time work   
 Holiday (Legal or religious)   
 Labor dispute   
 Bad weather   
 Own illness   
 On vacation   
 Too busy with housework, school, personal bus., etc.   
 Did not want full-time work   
 Full-time work week under 35 hours   
 Other reason (Specify)

20D. Did ... lose any time or take any time off LAST WEEK for any reason such as illness, holiday or slack work?

Yes  How many hours did ... take off?  
 No  (Correct 20A if last time not already deducted; if 20A reduced below 35, fill 20C, otherwise, skip to 23.)

20E. Did ... work any overtime or at more than one job LAST WEEK?

Yes  How many extra hours did ... work?  
 No  (Correct 20A if extra hours not already included and skip to 23.)

21. (If 1 in 19, skip to 21A.) Did ... have a job or business from which he was temporarily absent or on layoff LAST WEEK?

Yes  No  (Go to 22)

21A. Why was ... absent from work LAST WEEK?

Own illness   
 On vacation   
 Bad weather   
 Labor dispute   
 New job to begin within 30 days. (Ask 22B)   
 Temporary layoff (Under 30 days). (Ask 22C3)   
 Indefinite layoff (30 days or more or no def. recall date)   
 Other (Specify)

21B. Is ... getting wages or salary for any of the time off LAST WEEK?

Yes   
 No   
 Self employed

21C. Does ... usually work 35 hours or more a week at this job?

Yes   
 No  (Go to 23 and enter job held last week)

22. (If LK in 19, skip to 22A.) Has ... been looking for work during the past 4 weeks?

Yes  No  (Go to 24)

22A. What has ... been doing in the last 4 weeks to find work? (Mark all methods used; do not read list.)

Checked pub. employ. agency with...   
 put, employ. agency   
 employer directly   
 friends or relatives   
 Placed or answered ads   
 Nothing (Skip to 24)   
 Other (Specify in notes, e.g., WDTA, union or prof. register, etc.)

22B. Why did ... start looking for work? Was it because ... lost or quit a job at that time (pass) or was there some other reason?

Lost job   
 Quit job   
 Left school   
 Wanted temporary work   
 Other (Specify in notes)

22C.1) How many weeks has ... been looking for work?  
 2) How many weeks ago did ... start looking for work?  
 3) How many weeks ago was ... laid off?

22D. Has ... been looking for full-time or part-time work?

Full  Part

22E. Is there any reason why ... could not take a job LAST WEEK?

Yes  (Already has a job)  
 No  Temporary illness   
 Going to school   
 Other (Specify in notes)

22F. When did ... last work at a full-time job or business lasting 2 consecutive weeks or more? 1965 or later (2 1/2 months and year) ...

Before 1965   
 Nav. worked full-time 2 wks. or more   
 Never worked at all  (Enter in 23, last full-time civilian job lasting 2 weeks or more, job from which laid off, or "Never Worked.")

23. DESCRIPTION OF JOB OR BUSINESS

23a. For whom did ... work? (Name of company, business, organization or other employer.)

23b. What kind of business or industry is this? (For example: TV and radio mfg., retail shoe store, State Labor Dept., farm.)

23c. What kind of work was ... doing? (For example: electrical engineer, stock clerk, typist, farmer.)

23d. What were ...'s most important activities or duties?

23e. Was this person

An employee of PRIVATE Co., bus., or individual for wages, salary or comm P   
 A GOVT. employe (Federal, State, or county) G  (If not a farm)  
 Self-empl in OWN bus., prof. practice, or farm  Is the business incorporated? Yes   
 Working WITHOUT PAY in fam. bus. or farm WP  No   
 NEVER WORKED NEV

24. Omit 24A-E for persons with entry in 23

24A. When did you last work for pay at a regular job or business, either full- or part-time?

Within past 12 months   
 1 up to 2 years ago  (Go to 24B)  
 2 up to 3 years ago   
 3 up to 4 years ago   
 4 up to 5 years ago   
 5 or more years ago  (Skip to 24E)  
 Never worked

24B. Why did you leave that job?

Personal, family (incl. pregnancy) or school   
 Health   
 Retirement or old age   
 Seasonal job completed   
 Slack work or business conditions   
 Temporary nonseasonal job completed   
 Unsatisfactory work arrangements (Hours, pay, etc.)   
 Other (Go to 24E)

24C. (Go to 24E)

24D. (Go to 24E)

24E. Do you intend to look for work of any kind in the next 12 months?

Yes   
 It depends (Specify in notes)   
 No  (If entry in 24B, describe job in 23)

20A. How many hours did ... work LAST WEEK at all jobs?  
 0 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36 37 38 39 40 41 42 43 44 45 46 47 48 49 50 51 52 53 54 55 56 57 58 59 60

20B. INTERVIEWER CHECK ITEM  
 494 (Skip to item 28)  
 1-34 (Go to 20C)  
 35-48 (Go to 20D)

20C. Does ... USUALLY work 35 hours or more a week at this job?  
 Yes What is the reason ... worked less than 35 hours LAST WEEK?  
 No What is the reason ... USUALLY works less than 35 hours a week?  
 (Mark the appropriate reason)  
 Slack work  
 Material shortage  
 Plant or machine repair  
 New job started during week  
 Job terminated during week  
 Could find only part-time work  
 Holiday (Legal or religious)  
 Labor dispute  
 Bad weather  
 Own illness  
 On vacation  
 Too busy with housework, school, personal bus., etc.  
 Did not want full-time work  
 Full-time work week under 35 hours  
 Other reason (Specify)

20D. Did ... lose any time or take any time off LAST WEEK for any reason such as illness, holiday or slack work?  
 Yes How many hours did ... take off?  
 (Correct 20A if lost time not already deducted; if 20A reduced below 35, fill 20C, otherwise, skip to 23.)  
 No

20E. Did ... work any overtime or at more than one job LAST WEEK?  
 Yes How many extra hours did ... work?  
 (Correct 20A if extra hours not already included and skip to 23.)  
 No (Skip to 23)

21. (If J in 19, skip to 21A.) Did ... have a job or business from which he was temporarily absent or on layoff LAST WEEK?  
 Yes No (Go to 22)

21A. Why was ... absent from work LAST WEEK?  
 Own illness  
 On vacation  
 Bad weather  
 Labor dispute  
 New job to begin within 30 days  
 Temporary layoff (Under 30 days)  
 Indefinite layoff (30 days or more or no def. recall date)  
 Other (Specify)

21B. Is ... getting wages or salary for any of the time off LAST WEEK?  
 Yes  
 No  
 Self employed

21C. Does ... usually work 35 hours or more a week at this job?  
 Yes  
 No (Go to 23 and enter job held last week)

22. (If LK in 19, skip to 22A.) Has ... been looking for work during the past 4 weeks?  
 Yes No (Go to 24)

22A. What has ... been doing in the last 4 weeks to find work? (Mark all methods used; do not read list.)  
 Checked: pub. employ. agency  
 with...  
 pvt. employ. agency  
 employer directly  
 friends or relatives  
 Placed or answered ads  
 Nothing (Skip to 24)  
 Other (Specify in notes, e.g., MDTA, union or prof. register, etc.)

22B. Why did ... start looking for work? Was it because ... lost or quit a job at that time (pause) or was there some other reason?  
 Last job  
 Quit job  
 Left school  
 Wanted temporary work  
 Other (Specify in notes)

22C. How many weeks has ... been looking for work?  
 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36 37 38 39 40 41 42 43 44 45 46 47 48 49 50 51 52 53 54 55 56 57 58 59 60

22D. Has ... been looking for full-time or part-time work?  
 Full Part

22E. Is there any reason why ... could not take a job LAST WEEK?  
 Yes (Already has a job / Temporary illness / Going to school / Other (Specify in notes))  
 No

22F. When did ... last work at a full-time job or business lasting 2 consecutive weeks or more?  
 1965 or later (State month and year)  
 (Month and year)  
 Before 1965  
 Never worked full-time 2 wks. or more  
 Never worked at all  
 (Enter in 23, last full-time civilian job lasting 2 weeks or more, job from which laid off, or "Never Worked.")

23. DESCRIPTION OF JOB OR BUSINESS  
 23a. For whom did ... work? (Name of company, business, organization or other employer.)  
 23b. What kind of business or industry is this? (For example: TV and radio mfg., retail shoe store, State Labor Dept., farm.)  
 23c. What kind of work was ... doing? (For example: electrical engineer, stock clerk, typist, farmer.)  
 23d. What were ...'s most important activities or duties?  
 23e. Was this person  
 An employee of PRIVATE Co., bus., or individual for wages, salary or comm. P  
 A GOVT. employee (Federal, State, or county) G  
 Self-empl. in DWN bus., prof. practice, or farm O  
 Working WITHOUT PAY in fam, bus, or farm WP  
 NEVER WORKED NEV

24. Omit 24A-E for persons with entry in 23

24A. When did you last work for pay at a regular job or business, either full- or part-time?  
 Within past 12 months  
 1 up to 2 years ago  
 2 up to 3 years ago  
 3 up to 4 years ago  
 4 up to 5 years ago  
 5 or more years ago  
 Never worked

24B. Why did you leave that job?  
 Personal, family (Incl. pregnancy) or school  
 Health  
 Retirement or old age  
 Seasonal job completed  
 Slack work or business conditions  
 Temporary nonseasonal job completed  
 Unsatisfactory work arrangements (Hours, pay, etc.)  
 Other

24C.  
 24D.  
 24E. Do you intend to look for work of any kind in the next 12 months?  
 Yes  
 It depends (Specify in notes)  
 No

25. LINE NO.  
 26. RELATIONSHIP TO HOUSEHOLD HEAD  
 1 Head with other relatives (incl. wife) in household  
 2 Head with no other relatives in household  
 3 Wife of head  
 4 Other relative of head  
 5 Non-rel. of head with own rels. (incl. wife) in h'hd.  
 6 Nonrelatives of head with no own relatives in h'hd.

Notes	

## Appendix D.—PUBLICATION AND COMPUTER SUMMARY TAPE PROGRAM

The results of the 1970 Census of Population and Housing are being issued in the form of printed reports, microfiche copies of the printed reports, computer summary tapes, computer printouts, and microfilm. Listed below are short descriptions of the final report series and computer tapes, as currently planned. More detailed information on this program can be obtained by writing to the Publications Distribution Section, Bureau of the Census, Washington, D.C. 20233.

### Population Census Reports

#### Volume I. CHARACTERISTICS OF THE POPULATION

This volume will consist of 58 "parts"—number 1 for the United States, numbers 2 through 52 for the 50 States and the District of Columbia in alphabetical order, and numbers 53 through 58 for Puerto Rico, Guam, Virgin Islands, American Samoa, Canal Zone, and Trust Territory of the Pacific Islands, respectively. Each part, which will be a separate cloth-bound book, will contain four chapters designated as A, B, C, and D. Each chapter (for each of the 58 areas) will first be issued as an individual paperbound report in four series designated as PC(1)-A, B, C, and D, respectively. The 58 PC(1)-A reports will be specially assembled and issued in a clothbound book, designated as Part A.

#### ■ Series PC(1)-A. NUMBER OF INHABITANTS.

Final official population counts are presented for States, counties by urban and rural residence, standard metropolitan statistical areas (SMSA's), urbanized areas, county subdivisions, all incorporated places, and unincorporated places of 1,000 inhabitants or more.

#### ■ Series PC(1)-B. GENERAL POPULATION CHARACTERISTICS

Statistics on age, sex, race, marital status, and relationship to head of household are presented for States, counties by urban and rural residence, SMSA's, urbanized areas, county subdivisions, and places of 1,000 inhabitants or more.

#### ■ Series PC(1)-C. GENERAL SOCIAL AND ECONOMIC CHARACTERISTICS

Statistics are presented on nativity and parentage, State or country of birth, Spanish origin, mother tongue, residence 5 years ago, year moved into present house, school enrollment (public or private), years of school completed, vocational training, number of children ever born, family composition, disability, veteran status, employment status, place of work, means of transportation to work, occupation group, industry group, class of worker, and income (by type) in 1969 of families and individuals. Each subject is shown for some or all of the following areas: States, counties (by urban, rural-nonfarm, and rural-farm residence), SMSA's, urbanized areas, and places of 2,500 inhabitants or more.

#### ■ Series PC(1)-D. DETAILED CHARACTERISTICS

These reports will cover most of the subjects shown in Series PC(1)-C, above, presenting the data in considerable detail and cross-classified by age, race, and other characteristics. Each subject will be shown for some or all of the following areas: States (by urban, rural-nonfarm, and rural-farm residence), SMSA's, and large cities.

#### Volume II. SUBJECT REPORTS

Each report in this volume, also designated as Series PC(2), will concentrate on a particular subject. Detailed information and cross-relationships will generally be provided on a national and regional level; in some reports, data for States or SMSA's will also be shown. Among the characteristics to be covered are national origin and race, fertility, families, marital status, migration, education, unemployment, occupation, industry, and income.

### Housing Census Reports

#### Volume I. HOUSING CHARACTERISTICS FOR STATES, CITIES, AND COUNTIES

This volume will consist of 58 "parts"—number 1 for the United States, numbers 2 through 52 for the 50 States and the District of Columbia in alphabetical order, and numbers 53 through 58 for Puerto Rico, Guam, Virgin Islands, American Samoa, Canal Zone, and Trust Territory of the Pacific Islands, respectively. Each part, which will be a separate cloth-bound book, will contain two chapters designated as A and B. Each chapter (for each of the 58 areas) will first be issued as an individual paperbound report in two series designated as HC(1)-A and B, respectively.

#### ■ Series HC(1)-A. GENERAL HOUSING CHARACTERISTICS

Statistics on tenure, kitchen facilities, plumbing facilities, number of rooms, persons per room, units in structure, mobile home, telephone, value, contract rent, and vacancy status are presented for some or all of the following areas: States (by urban and rural residence), SMSA's, urbanized areas, places of 1,000 inhabitants or more, and counties.

#### ■ Series HC(1)-B. DETAILED HOUSING CHARACTERISTICS

Statistics are presented on a more detailed basis for the subjects included in the Series HC(1)-A reports, as well as on such additional subjects as year moved into unit, year structure built, basement, heating equipment, fuels, air conditioning, water and sewage, appliances, gross rent, and ownership of second home. Each subject is shown for some or all of the following areas: States (by urban, rural-nonfarm, and rural-farm residence), SMSA's, urbanized areas, places of 2,500 inhabitants or more, and counties (by rural and rural-farm residence).

#### Volume II. METROPOLITAN HOUSING CHARACTERISTICS

These reports, also designated as Series HC(2), will cover most of the 1970 census housing subjects in considerable detail and cross-classification. There will be one report for each SMSA, presenting data for the SMSA and its central cities and places of 50,000 inhabitants or more, as well as a national summary report.

#### Volume III. BLOCK STATISTICS

One report, under the designation Series HC(3), is issued for each urbanized area showing data for individual blocks on selected housing and population subjects. The series also includes reports for the communities outside urbanized areas which have contracted with the Census Bureau to provide block statistics from the 1970 census.

#### Volume IV. COMPONENTS OF INVENTORY CHANGE

This volume will contain data on the disposition of the 1960 inventory and the source of the 1970 inventory, such as new construction, conversions, mergers, demolitions, and other additions and losses. Cross-tabulations of 1970 and 1960 characteristics for units that have not changed and characteristics of the present and previous residence of recent movers will also be provided. Statistics will be shown for 15 selected SMSA's and for the United States and regions.

#### Volume V. RESIDENTIAL FINANCE

This volume will present data regarding the financing of privately owned nonfarm residential properties. Statistics will be shown on amount of outstanding mortgage debt, manner of acquisition of property, homeowner expenses, and other owner, property, and mortgage characteristics for the United States and regions.

**Volume VI.  
ESTIMATES OF "SUBSTANDARD"  
HOUSING**

This volume will present counts of "substandard" housing units for counties and cities, based on the number of units lacking plumbing facilities combined with estimates of units with all plumbing facilities but in "dilapidated" condition.

**Volume VII.  
SUBJECT REPORTS**

Each report in this volume will concentrate on a particular subject. Detailed information and cross-classifications will generally be provided on a national and regional level; in some reports, data for States or SMSA's may also be shown. Among the subjects to be covered are housing characteristics by household composition, housing of minority groups and senior citizens, and households in mobile homes.

**Joint Population-Housing Reports**

**Series PHC(1).  
CENSUS TRACT REPORTS**

This series will contain one report for each SMSA, showing data for most of the population and housing subjects included in the 1970 census.

**Series PHC(2).  
GENERAL DEMOGRAPHIC TRENDS FOR  
METROPOLITAN AREAS, 1960 to 1970**

This series consists of one report for each State and the District of Columbia, as well as a national summary report, presenting statistics for the State and for SMSA's and their central cities and constituent counties. Comparative 1960 and 1970 data are shown on population counts by age and race and on such housing subjects as tenure, plumbing facilities, value, and contract rent.

**Series PHC(3).  
EMPLOYMENT PROFILES OF SELECTED  
LOW-INCOME AREAS**

This series will consist of approximately 70 reports, each presenting statistics on the social and economic characteristics of the residents of a particular low-income area. The data relate to low-income neighborhoods in 54 cities and seven rural poverty areas. Each report will provide statistics on employment and unemployment, education, vocational training, availability for work, job history, and income, as well as on value or rent and number of rooms in the housing unit.

**Additional Reports**

**Series PHC(E).  
EVALUATION REPORTS**

This open series will present the results of the extensive evaluation program conducted as an integral part of the 1970 census program, and relating to such matters as completeness of enumeration and quality of the data on characteristics.

**Series PHC(R).  
PROCEDURAL REPORTS**

This open series presents information on various administrative and methodological aspects of the 1970 census, and will include a comprehensive procedural history of the 1970 census. The first report issued focuses on the forms and procedures used in the data collection phase of the census.

**Computer Summary Tapes**

The major portion of the results of the 1970 census will be produced in a set of six tabulation counts. To help meet the needs of census users, these counts are being designed to provide data with much greater subject and geographic detail than it is feasible or desirable to publish in printed reports. The data so tabulated will generally be available—subject to suppression of certain detail where necessary to protect confidentiality—on magnetic computer tape, printouts, and microfilm, at the cost of preparing the copy.

**First Count**—source of the PC(1)-A reports; contains about 400 cells of data on the subjects covered in the PC(1)-B and HC(1)-A reports and tabulated for each of the approximately 250,000 enumeration districts in the United States.

**Second Count**—source of the PC(1)-B, HC(1)-A, and part of the PHC(1) reports; contains about 3,500 cells of data covering the subjects in these reports and tabulated for the approximately 35,000 tracts and 35,000 county subdivisions in the United States.

**Third Count**—source of the HC(3) reports; contains about 250 cells of data on the subjects covered in the PC(1)-B and HC(1)-A reports and tabulated for approximately 1,500,000 blocks in the United States.

**Fourth Count**—source of the PC(1)-C, HC(1)-B, and part of the PHC(1) reports; contains about 13,000 cells of data covering the subjects in these reports and tabulated for the approximately 35,000 tracts and 35,000 county subdivisions in the United States; also contains about 30,000 cells of data for each county.

**Fifth Count**—will contain approximately 800 cells of population and housing data for 5-digit ZIP code areas in SMSA's and 3-digit ZIP code areas outside SMSA's; the ZIP code data will be available only on tape.

**Sixth Count**—source of the PC(1)-D and HC(2) reports; will contain about 260,000 cells of data covering the subjects in these reports and tabulated for States, SMSA's, and large cities.

The tapes will generally be organized on a State basis. To use the First Count and Third Count tapes, it will be necessary to purchase the appropriate enumeration district and block maps.

The term "cells" used herein to indicate the scope of subject content of the several counts refers to each figure or statistic in the tabulation for a specific geographic area. For example, in the Third Count, there are six cells for a cross-classification of race by sex; three categories of race (white, Negro, other race) by two categories of sex (male, female).

In addition to the above-mentioned summary tapes, the Census Bureau will make available for purchase certain sample tape files containing population and housing characteristics as shown on individual census records. These files will contain no names or addresses, and the geographic identification will be sufficiently broad to protect confidentiality. There will be six files, each containing a 1-percent national sample of persons and housing units. Three of the files will be drawn from the population covered by the census 15-percent sample and three from the population in the census 5-percent sample. Each of these three files will provide a different type of geographic information: One will identify individual large SMSA's and, for the rest of the country, groups of counties; the second will identify individual States and, where they are sufficiently large, will provide urban-rural and metropolitan-nonmetropolitan detail; and the third will identify State groups and size of place, with each individual record showing selected characteristics of the person's neighborhood.
