**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

This report presents a summary of the preliminary State population counts previously published in the individual State reports of this series.

The preliminary figures shown here will be superseded by the final counts to be presented in Advance Report Series PC(V1). The advance reports, which will be published a State at a time, have already been issued for several States and the entire series is scheduled to be published before the end of 1970. The final counts will differ from the preliminary figures mainly because certain categories of persons excluded here will be added in the process of obtaining the final counts.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

Note: With the issuance of this report, all 57 reports in the PC(P1) Series have been published.

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 3,373,006, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 106,266, or 3.3 percent, from the 3,266,740 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 294,607, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 68,440, or 30.3 percent, from the 226,167 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each census division, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1) which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

September 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-6

CALIFORNIA

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 19,715,490, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 3,998,286, or 25.4 percent, from the 15,717,204 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 2,178,176, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 424,229, or 24.2 percent, from the 1,753,947 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 2,987,950, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 452,716, or 17.9 percent, from the 2,535,234 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, each town, each incorporated place of 1,000 inhabitants or more, and each minor civil division. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1) which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

DELAWARE

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 542,979, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 96,687, or 21.7 percent, from the 446,292 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

DISTRICT OF COLUMBIA

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the District of Columbia was 746,169, according to a preliminary count of the returns of the 1970 census. This figure represents a decrease of 17,787, or 2.3 percent, from the 763,956 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the District and the quadrants into which it is divided. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1) which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 6,671,162, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 1,719,602, or 34.7 percent, from the 4,951,560 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 4,492,038, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 548,922, or 13.9 percent, from the 3,943,116 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 748,575, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 115,803, or 18.3 percent, from the 632,772 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1) which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 10,977,908, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 896,750, or 8.9 percent, from the 10,081,158 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

1970 CENSUS OF POPULATION

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-16

INDIANA

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 5,143,422, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 480,924, or 10.3 percent, from the 4,662,498 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

July 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-17

IOWA

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 2,789,893, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 32,356, or 1.2 percent, from the 2,757,537 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 2,222,173, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 43,562, or 2.0 percent, from the 2,178,611 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

1970 CENSUS OF POPULATION

August 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-20

LOUISIANA

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 3,564,310, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 307,288, or 9.4 percent, from the 3,257,022 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each parish, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1) which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

70

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-21

MAINE**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 977,260, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 7,995, or 0.8 percent, from the 969,265 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, each town, each incorporated place of 1,000 inhabitants or more, and each minor civil division. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1) which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

September 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-22

MARYLAND

PRELIMINARY
REPORTS

SEP 1 1970
BUREAU OF THE CENSUS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 3,874,642, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 773,953, or 25.0 percent, from the 3,100,689 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

August 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

MASSACHUSETTS

PRELIMINARY REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 5,630,224, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 481,646, or 9.4 percent, from the 5,148,578 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

September 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-24

MICHIGAN

**PRELIMINARY
REPORTS**

SEP 15 1970
U.S. DEPT. OF COMMERCE
BUREAU OF THE CENSUS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 8,778,187, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 954,993, or 12.2 percent, from the 7,823,194 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 3,767,975, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 354,111, or 10.4 percent, from the 3,413,864 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 2,158,872, according to a preliminary count of the returns of the 1970 census. This figure represents a decrease of 19,269, or 0.9 percent, from the 2,178,141 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

August 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-27

MISSOURI

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 4,636,247, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 316,434, or 7.3 percent, from the 4,319,813 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-28 May 1970

MONTANA

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 682,133, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 7,366, or 1.1 percent, from the 674,767 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1) which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 1,468,101, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 56,771, or 4.0 percent, from the 1,411,330 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

NEVADA**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 481,893, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 196,615, or 68.9 percent, from the 285,278 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

1970 CENSUS OF POPULATION

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-32

NEW JERSEY

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 7,092,597, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 1,025,815, or 16.9 percent, from the 6,066,782 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

June 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-33

NEW MEXICO

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 998,257, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 47,234, or 5.0 percent, from the 951,023 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-34

NEW YORK

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 18,018,615, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 1,236,311, or 7.4 percent, from the 16,782,304 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

1970 CENSUS OF POPULATION

July 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-35

NORTH CAROLINA

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 4,961,832, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 405,677, or 8.9 percent, from the 4,556,155 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

CENSUS OF
POPULATION

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-36 June 1970

NORTH DAKOTA

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 610,648, according to a preliminary count of the returns of the 1970 census. This figure represents a decrease of 21,798, or 3.4 percent, from the 632,446 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.

1970 CENSUS OF POPULATION

June 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-38

OKLAHOMA

PRELIMINARY
REPORTS

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 2,498,378, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 170,094, or 7.3 percent, from the 2,328,284 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

1970 CENSUS OF POPULATION

October 1970

U.S. DEPARTMENT OF COMMERCE/Bureau of the Census

PC(P1)-40

PENNSYLVANIA

**PRELIMINARY
REPORTS**

Population Counts for States

(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)

As of April 1, 1970, the population of the State was 11,669,565, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 350,199, or 3.1 percent, from the 11,319,366 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

For Sale by the Bureau of the Census and U.S. Department of Commerce Field Offices, 10 cents.
