Table B-2. Characteristics Before and After Allocation: 1970

Table B-3. Percent of Allocation by Type of Allocation:
[The term "allocation" meons that a characteristic was assigned in the absence of a machine-readable entry or changed to make consistent with other entries during the computer editing. For minimum base for derived figures (percent, median, etc.) ond meoning of symbois, see fext)

The State Size of Place

## total Persons

## Relationship

Allocated-
In consistency edit for head, wife, child -............-
In households from 1970 census known distributions In group quarters from pre-1970 distributions .

5ex
Allocated-
In consistency edit for husband, wife, or from persons in some group quarters
in houp quorters from census known distributions -
th group quorters from pre-1970 distributions ........

## Race

Allocated -
From relative in household
From nonrelative in household
from other entry in same group quarters
From pre. 1970 group quarlers distribution
Age
Year onily allocated
Decode ond year allocated in households from 1970
census known distributions
Decade and year ollocoted in group quarters from pre-

PERSONS 14 YEARS AND OVER
Marital status

Allocaled-
In consistency edit tor husband or wife
From 1970 census known distributions. $\qquad$

Table B-4. Percent of Allocation by Subject Combinations: 1970

| The State Size of Place | The term "ollocation" means that a choracteristic wos ossigned in the absence of a machine-reodable entry or changed to make consistent with other entries during the computer editing.
