CORRECTION NOTE

The official 1970 population count for Kansas is 2,249,071. This differs from the figure of 2,246,578 shown in the tables of this report; the correction results from errors found after the tabulations were completed. The tables have not been revised to reflect either this correction or the corrections listed below for counties, county subdivisions, and places (or for the larger areas of which they are a part).

¹In 1970, portions of certain cities are classified as rural; the size classification in this table is based on the total population within legal boundaries. See section on "Extended cities" in text. ²Figures for items under "Urban" and "Urbanized areas" exclude the population classified as rural within extended cities. ³Figures for 1970 include population classified as rural within extended cities.

CORRECTION NOTE

The official 1970 population count for Kentucky is 3,219,311. This differs from the figure of 3,218,706 shown in the tables of this report; the correction results from errors found after the tabulations were completed. The tables have not been revised to reflect either this correction or the corrections listed below for counties, county subdivisions, and places (or for the larger areas of which they are a part).

CORRECTION NOTE

The official 1970 population count for Louisiana is 3,643,180. This differs from the figure of 3,641,306 shown in the tables of this report; the correction results from errors found after the tabulations were completed. The tables have not been revised to reflect either this correction or the corrections listed below for parishes, parish subdivisions, and places (or for the larger areas of which they are a part).
