**CORRECTION NOTE**

The official 1970 population count for Nebraska is 1,483,791. This differs from the figure of 1,483,493 shown in the tables of this report; the correction results from errors found after the tabulations were completed. The tables have not been revised to reflect either this correction or the corrections listed below for counties, county subdivisions, and places (or for the larger areas of which they are a part).
