POPULATION DIVISION

Meyer Zitter, Chief

ACKNOWLEDGMENTS—Many persons participated in the various activities of the 1970 census. Primary direction of the program was performed by Conrad Taeuber, Associate Director for Demographic Fields, assisted by David L. Kaplan, 1970 Census Coordinator, and in conjunction with Paul R. Squires, Associate Director for Data Collection and Processing, and Joseph Waksberg, Associate Director for Statistical Standards and Methodology.

This report was planned and its content developed in the Population Division by Larry E. Suter of the Education and Social Stratification Branch. The work was directed by Paul C. Glick, Senior Demographer, and Charles E. Johnson, Jr., Assistant Division Chief, and was under the general supervision of Meyer Zitter, Division Chief, and Herman P. Miller (Chief until April 1972). Elizabeth A. Larmon assisted in the preparation of textual materials. Important contributions to the determination of the content of the PC(2) series of reports were made by a number of advisory groups and individuals representing or affiliated with universities, research organizations, professional associations, government agencies, and other groups.

The procedures for sample selection, sample weighting, and computation of sampling variances were developed in the Statistical Methods Division, under the supervision of Morton Boisen, Chief, and Robert H. Hanson, Assistant Division Chief, assisted by William T. Alsbrooks, Peter A. Bounpane, Barbara A. Boyes, and Carlton W. Pruden.

Geographic plans and procedures were developed in the Geography Division under the supervision of William T. Fay, then Chief, and Robert C. Klove and Gerald J. Post, Assistant Division Chiefs.

Data collection activities were administered by the Field Division, Richard C. Burt, Chief, and Dean H. Weber, Assistant Division Chief, with the assistance of the directors of the Bureau's data collection centers.

Systems and processing procedures were developed under the direction of Morris Gorinson, Assistant Chief, Demographic Census Staff. Florence Wright, assisted by John F. Powell and Orville M. Slye, was responsible for the clerical procedures and Roger O. Lepage, assisted by Stephen E. Goldman, Howard N. Hamilton, Jess D. Thompson, and Linda M. Weiss, was responsible for the computer programming. Donald R. Datzell was responsible for the computer procedures and programs used for the electronic preparation of the tables in this report.

The manual processing and microfilming of the questionnaires and the review of tabulation controls were performed in the Data Preparation Division (formerly Jeffersonville Census Operations Division), under the direction of Robert L. Hagan, then Chief, with the assistance of Rex L. Pullin. The manual coding operations were supervised by John C. Campbell, assisted by Herbert J. Hough, Joe D. Kolb, and Leo C. Schilling. William L. Pangburn supervised the microfilming operation. Dan N. Harding, assisted by Nora H. Shouse, was responsible for the tabulation review work.

FOSDIC and computer processing were performed in the Computer Services Division under the supervision of James R. Pepal, Chief, and E. Richard Bourdon and James W. Shores, Assistant Division Chiefs. Development of the FOSDIC equipment was directed by William M. Gaines, Assistant

Division Chief, and McRae Anderson. Development of the automatic microfilming equipment was directed by Anthony A. Berlinsky.

Publications planning, editing, composition, and printing procurement were performed in the Publications Services Division, under the direction of Raymond J. Koski, Acting Chief, by Milton S. Andersen, Gerald A. Mann, and Wayne H. Massey.

Important contributions were made by Robert B. Voight and Sherry L. Courtland in the planning and coordination of the 1970 census program; by Lucille D. Catterton in the planning of the tabular materials; and by John W.H. Spencer, Sol Dolleck, and M. Douglas Fahey in the systems design and operations for processing the census data.

PC(2)-5B EDUCATIONAL
ATTAINMENT

Table 2 (pages 30-71) of the PC(2)-5B report contains the following errors:

- a. Under the heading "Urban, Other places of—," persons living in places of 25,000 or more were incorrectly classified in the category "2,500 to 10,000" instead of "10,000 or more." Since a large number of persons are involved in this misclassification, these two categories should be used only in combination.
- b. Under the heading "Rural," the data in the column "Places of 1,000 to 2,500" relate only to nonfarm residents because persons living on farms in such places were incorrectly classified in the "Other" category. Only a small number of persons are involved in this misclassification.
