## INTRODUCTION

Data from the 2010 Census for the United States and Puerto Rico are presented in two printed report series and a single report for American Indians and Alaska Natives by tribe:

1. CPH-1, *Summary Population and Housing Characteristics*
2. CPH-2, *Population and Housing Unit Counts*
3. CPH-3, *Characteristics of American Indians and Alaska Natives by Tribe*

The data from the 2010 Census were derived from a limited number of basic questions asked of the entire population and about every housing unit. Appendix D (see *Selected Appendixes* report at <[www.census.gov/prod/cen2010/cph-1-a.pdf](http://www.census.gov/prod/cen2010/cph-1-a.pdf)>) presents a facsimile of the questionnaire pages used to collect the data included in this report. Note that the “long form” data included in previous censuses are not included in the 2010 Census.

The CPH-1, *Summary Population and Housing Characteristics*, report series provides data based on age, Hispanic or Latino origin, household relationship, race, sex, tenure (owner- or renter-occupied), and vacancy characteristics. Land area measurements and population density also are provided. This series is similar to the Census 2000 PHC-1 series.

The CPH-2, *Population and Housing Unit Counts*, report series provides 2010 Census and historical comparisons of the population and housing unit counts. It also provides area measurements and density. The user notes section documents geographic changes over the past decade. This series is similar to the Census 2000 PHC-3 series.

In each series, there is one report for each state, the District of Columbia, and Puerto Rico, plus a United States summary report. Many tables in the United States summary reports include data for Puerto Rico.

The CPH-3, *Characteristics of American Indians and Alaska Natives by Tribe*, report provides population and housing information for selected American Indian and Alaska Native tribes. This report is similar to the Census 2000 PHC-5 report. This is a single report covering the entire United States.

## HOW TO FIND GEOGRAPHIC AREAS AND SUBJECT MATTER DATA

This report includes a table finding guide to assist the user in locating those statistical tables that contain the desired data. The table finding guide lists alphabetically, by geographic area, the subjects shown in this report. To determine which tables in this report show data for a particular topic, find the subject in the left-hand column of the table finding guide and then look across the columns using the headings at the top for the desired type of geographic area. Figure I-1 is an example of a table finding guide.

The table finding guide does not include cross-classification of subject-matter items. Additional information to locate data within specific reports is provided in the headnote at the top of the table finding guide and in the footnotes at the bottom of the guide.

## HOW TO USE THE STATISTICAL TABLES

### Parts of a Statistical Table

The census data included in printed reports are arranged in tables. Each table includes four major parts: (1) heading, (2) boxhead, (3) stub, and (4) data field. A typical census report table is illustrated in Figure I-2.

The heading consists of the table number, title, and headnote. The table number indicates the position of the table within the report, while the title is a brief statement indicating the subjects and time reference of the data presented in the table. The headnote is enclosed in brackets and is located under the title. It contains statements that qualify, explain, or provide information pertaining to the entire table.

The boxhead is under the heading. This portion of the table, which contains the individual column heads or captions, describes the data in each vertical column. In the boxhead of many tables, a spanner appears across and above two or more column heads or across two or more lower spanners. The purpose of a spanner is to classify or qualify items below it or separate the table into identifiable blocks in terms of major aspects of the data.

The stub is located at the left edge of the table. It includes a listing of line or row captions or descriptions. At the top of the stub is the stubhead. The stubhead is considered to be an extension of the table title and usually shows generic geographic area designations and restrictions.

In the stub, several features are used to help the user better understand the contents of the table. Usually, a block of data lines is preceded by a sidehead. The sidehead, similar to a spanner, describes and classifies the stub entries following it. The use of indentation in a stub indicates the relationship of one data line to

Figure I-1.

### Table Finding Guide

#### SUBJECTS BY TYPE OF GEOGRAPHIC AREA AND TABLE NUMBER

Subjects covered in this guide are shown on the left side, and types of geographic areas are shown at the top. Table numbers shown in bold indicate that either all or part of the table is presented for the American Indian and Alaska Native population in American Indian and Alaska Native areas, or for the Native Hawaiian and Other Pacific Islander population in Hawaiian home lands. See CPH-1-A, *Summary Population and Housing Characteristics, Selected Appendixes* (<[www.census.gov/prod/cen2010/cph-1-a.pdf](http://www.census.gov/prod/cen2010/cph-1-a.pdf)>) for a description of area classifications (Appendix A) and for definitions and explanations of subject characteristics (Appendix B).

Subject	The state <sup>1</sup>	County <sup>2</sup>	Place		County subdivision		American Indian and Alaska Native area <sup>4</sup>	Hawaiian home land <sup>5</sup>
			By county and county division	Alphabetically for the state	By county	Alphabetically for the state <sup>3</sup>

Population density . . . . .	15, 16	15, 16	15	16	15	16	24	32

<sup>1</sup> State, District of Columbia, or Puerto Rico.

<sup>2</sup> Parish in Louisiana; city and borough, municipality, borough, or census area in Alaska; and municipio in Puerto Rico. In Maryland, Missouri, Nevada, and Virginia, one or more cities are independent of counties and are treated as statistical equivalents of counties. The entire District of Columbia, which has no counties, is treated as a county equivalent.

<sup>3</sup> County subdivisions within the state are shown alphabetically with places for the following 12 states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

<sup>4</sup> American Indian and Alaska Native areas include state and federal American Indian reservations; Oklahoma tribal statistical areas (OTSA); Alaska Native village statistical areas (ANVSAs); tribal designated statistical areas (TDSAs); state designated tribal statistical areas (SDTSAs); and Alaska Native Regional Corporations (ANRCs).

<sup>5</sup> Tables for these areas appear only in the report for Hawaii.

Summary Population and Housing Characteristics

U.S. Census Bureau, 2010 Census

Report title

another. Indented data lines represent subcategories that, in most instances, sum to a total. Occasionally in tables, it is desirable to show one or more single-line subcategories that do not sum to the total.

The data field is that part of the statistical table that contains the data. It extends from the bottom of the boxhead to the bottom of the table and from the right of the stub to the right edge of the page.

Both geographic and subject-matter terms appear in tables. It is important to read the definitions of the terms used in the tables because census terms often are defined in special ways that reflect the manner in which the questions were asked and the data were tabulated. Definitions of geographic terms are provided in Appendix A of CPH-1-A, *Summary Population and Housing Characteristics, Selected Appendixes* at <www.census.gov/prod/cen2010/cph-1-a.pdf>. Census tables often include derived measures such as medians, means, percentages, and ratios. These and other subject-matter terms are defined in Appendix B of the same report.

---

## Symbols and Geographic Abbreviations

The following symbols are used in the tables and explanations of subjects covered in 2010 Census reports:

- A dash “–” represents zero or a derived measure that rounds to less than 0.1. This symbol appears only in the 2010 Census CPH-2, *Population and Housing Unit Counts*, report series.
- (X) means not applicable. In the 1990 and earlier decennial census reports, three dots “...” meant not applicable.
- (NA) means not available.
- The superscript prefix “r” indicates that a Census 2000 count has been revised since the publication of the Census 2000 reports as a result of certified Count Question Resolution (CQR) changes (see also <[www.census.gov/prod/cen2000/notes/errata.pdf](http://www.census.gov/prod/cen2000/notes/errata.pdf)>). This symbol appears only in the 2010 Census CPH-2, *Population and Housing Unit Counts*, report series.
- A minus sign “–” preceding a figure denotes decrease. The minus sign appears only in the 2010 Census CPH-2, *Population and Housing Unit Counts*, report series.

The following are examples of geographic abbreviations and terms that may be used in the tables in this report:

- A “(part)” next to the name of a geographic area in a hierarchical presentation indicates that the geographic entity is located only partially in the superior geographic entity. For example, a “(part)” next to a place name in a county subdivision-place hierarchy indicates that the place is located in more than one county subdivision. (Places also may be “split” by county, congressional district, urban/rural, metropolitan area, voting district, and other geographic boundaries, depending on the presentation.) Other geographic entities also can be “split” by a higher level entity. The exception is a tabulation block, which is unique within all geographic entities in census products.
- ANVSA is Alaska Native village statistical area.
- ANRC is Alaska Native Regional Corporation.
- CCD is census county division.
- CDP is census designated place.
- CSA is combined statistical area.
- NECTA is New England city and town area.
- Metro Area is metropolitan statistical area.
- Micro Area is micropolitan statistical area.
- OTSA is Oklahoma tribal statistical area.
- SDTSA is state designated tribal statistical area.
- TDSA is tribal designated statistical area.
- UT is unorganized territory.

## GRAPHICS

Charts, statistical maps, and other graphic summaries are included in some 2010 Census reports.

## USER NOTES

User notes include corrections, errata, and related explanatory information. They also provide information about unique characteristics of the report and changes or corrections made too late to be reflected in the text or tables themselves. However, sometimes this information becomes available too late to be reflected even in the user notes. Therefore, updates are available in the *Notes and Errata* document at <[www.census.gov/prod/cen2010/notes/errata.pdf](http://www.census.gov/prod/cen2010/notes/errata.pdf)>.

---

## APPENDIXES

Appendixes A through D and F through H, described below, are in the separate volume, CPH-1-A, *Summary Population and Housing Characteristics, Selected Appendixes*, on the Internet at <[www.census.gov/prod/cen2010/cph-1-a.pdf](http://www.census.gov/prod/cen2010/cph-1-a.pdf)>. Appendix E is included in this report.

**Appendix A, Geographic Terms and Concepts.** Provides definitions of the types of geographic areas and related information used in census products.

**Appendix B, Definitions of Subject Characteristics.** Contains definitions for the subject-matter terms used in census products, including explanations of derived measures, limitations of the data, and comparability with previous censuses. The subjects are listed alphabetically. Population characteristics are defined first, followed by the definitions of the housing subjects.

**Appendix C, Data Collection and Processing Procedures.** Explains the 2010 Census mission and scope and provides thumbnail descriptions of 2010 Census operations.

**Appendix D, Questionnaire.** Presents a facsimile of the 2010 Census questionnaire used to collect the data in this report.

**Appendix E, Maps.** Contains maps depicting the geographic areas shown in this report.

**Appendix F, Operational Overview and Accuracy of the Data.** Provides information on 2010 Census operations, including group quarters enumeration, confidentiality of the data, imputation of housing unit status and population counts, sources of errors in the data, and data editing.

**Appendix G, Residence Rule and Residence Situations for the 2010 Census of the United States.** Contains a description of the residence rule and residence situations used by Census Bureau staff to guide decisions on where people should be counted in the 2010 Census. This document is the basis for residence-related sections of questionnaires, collection instruments, field materials, and training materials.

**Appendix H, Acknowledgments.** Lists many of the U.S. Census Bureau staff who participated in report preparation.

# Table Finding Guide

## SUBJECTS BY TYPE OF GEOGRAPHIC AREA AND TABLE NUMBER

Subjects covered in this guide are shown on the left side, and types of geographic areas are shown at the top. Table numbers shown in bold indicate that either all or part of the table is presented for the American Indian and Alaska Native population in American Indian and Alaska Native areas, or for the Native Hawaiian and Other Pacific Islander population in Hawaiian home lands. See CPH-1-A, *Summary Population and Housing Characteristics, Selected Appendixes* (<[www.census.gov/prod/cen2010/cph-1-a.pdf](http://www.census.gov/prod/cen2010/cph-1-a.pdf)>) for a description of area classifications (Appendix A) and for definitions and explanations of subject characteristics (Appendix B).

Subject	The state <sup>1</sup>	County <sup>2</sup>	Place		County subdivision		American Indian and Alaska Native area <sup>4</sup>	Hawaiian home land <sup>5</sup>
			By county and county sub-division	Alpha-betically for the state	By county	Alpha-betically for the state <sup>3</sup>		
POPULATION CHARACTERISTICS								
Age . . . . .	1, 2	1, 2	1	2	1	2	17	25
Average family size . . . . .	7, 8	7, 8	7	8	7	8	20	28

Occupancy characteristics. . . . .	11, 12	11, 12	11	12	11	12	22	30
Race of householder . . . . .	13, 14	13, 14	13	14	13	14	23	31
Tenure . . . . .	11, 12	11, 12	11	12	11	12	22	30
Vacancy characteristics. . . . .	11, 12	11, 12	11	12	11	12	22	30
GEOGRAPHIC CHARACTERISTICS								
Land area . . . . .	15, 16	15, 16	15	16	15	16	24	32
Population density . . . . .	15, 16	15, 16	15	16	15	16	24	32

<sup>1</sup> State, District of Columbia, or Puerto Rico.

<sup>2</sup> Parish in Louisiana; city and borough, municipality, borough, or census area in Alaska; and municipio in Puerto Rico. In Maryland, Missouri, Nevada, and Virginia, one or more cities are independent of counties and are treated as statistical equivalents of counties. The entire District of Columbia, which has no counties, is treated as a county equivalent.

<sup>3</sup> County subdivisions within the state are shown alphabetically with places for the following 12 states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

<sup>4</sup> American Indian and Alaska Native areas include state and federal American Indian reservations; Oklahoma tribal statistical areas (OTSAs); Alaska Native village statistical areas (ANVSAs); tribal designated statistical areas (TDSAs); state designated tribal statistical areas (SDTSAs); and Alaska Native Regional Corporations (ANRCs).

<sup>5</sup> Tables for these areas appear only in the report for Hawaii.

# User Notes

---

User notes include corrections, errata, and related explanatory information. These updates provide information about unique characteristics of the report and changes or corrections made too late to be reflected in the text or tables themselves. They are available in the *Notes and Errata* document at [www.census.gov/prod/cen2010/notes/errata.pdf](http://www.census.gov/prod/cen2010/notes/errata.pdf).

## ADDITIONAL DEFINITIONS AND EXPLANATIONS OF THE DATA

### User Note 1

Places within a state that have the same name are differentiated by the use of county name in parentheses. Because county name is appended to place names in selected tables in this report, the county name will appear twice for these places.

## CORRECTION NOTES

### Anderson township, Perkins County

Anderson township disorganized before January 1, 2010 and should not be shown separately. It should be part of Northeast Perkins UT.

### Morgan township, Jones County

Morgan township disorganized before January 1, 2010 and should not be shown separately. It should be part of Grandview UT.

### Grandview UT, Jones County

Grandview UT should include Morgan township, which disorganized before January 1, 2010. The corrected counts for Grandview UT are 51 population, 26 housing units, a land area of 165,243,256 square meters (63.801 square miles), and a water area of 437,083 square meters (0.169 square miles).

### Lower Brule UT, Lyman County

Lower Brule UT should include Block 1011 in Census Tract 972600; the block is incorrectly coded to West Lyman UT. The affected area contains 0 population, 0 housing units, a land area of 1,089 square meters (rounds to 0.000 square miles), and a water area of 0 square meters. The corrected land area for Lower Brule UT is 774,417,579 square meters (299.004 square miles).

### Northeast Perkins UT township, Perkins County

Northeast Perkins UT should include Anderson township, which disorganized before January 1, 2010. The corrected counts for Northeast Perkins UT are 119 population, 119 housing units, a land area of 789,578,961 square meters (304.858 square miles), and a water area of 26,551,339 square meters (10.252 square miles).

### West Lyman UT, Lyman County

West Lyman UT should not include Block 1011 in Census Tract 972600; this block should be coded to Lower Brule UT. This change removes all area in Lower Brule Reservation and Off-Reservation Trust Land from West Lyman UT. The affected area contains 0 population, 0 housing units, a land area of 1,089 square meters (rounds to 0.000 square miles), and a water area of 0 square meters. The corrected land area for West Lyman UT is 1,402,119,639 square meters (541.361 square miles).

# STATISTICAL TABLES

Table 1.  
**Age and Sex: 2010**

# Appendixes

---

Several appendixes traditionally found in printed reports are now available in a separate volume. For the following, see CPH-1-A, *Summary Population and Housing Characteristics, Selected Appendixes*, on the Internet at <[www.census.gov/prod/cen2010/cph-1-a.pdf](http://www.census.gov/prod/cen2010/cph-1-a.pdf)>:

Appendix A. Geographic Terms and Concepts

Appendix B. Definitions of Subject Characteristics

Appendix C. Data Collection and Processing Procedures

Appendix D. Questionnaire

Appendix F. Operational Overview and Accuracy of the Data

Appendix G. Residence Rule and Residence Situations for the 2010 Census of the United States

Appendix H. Acknowledgments

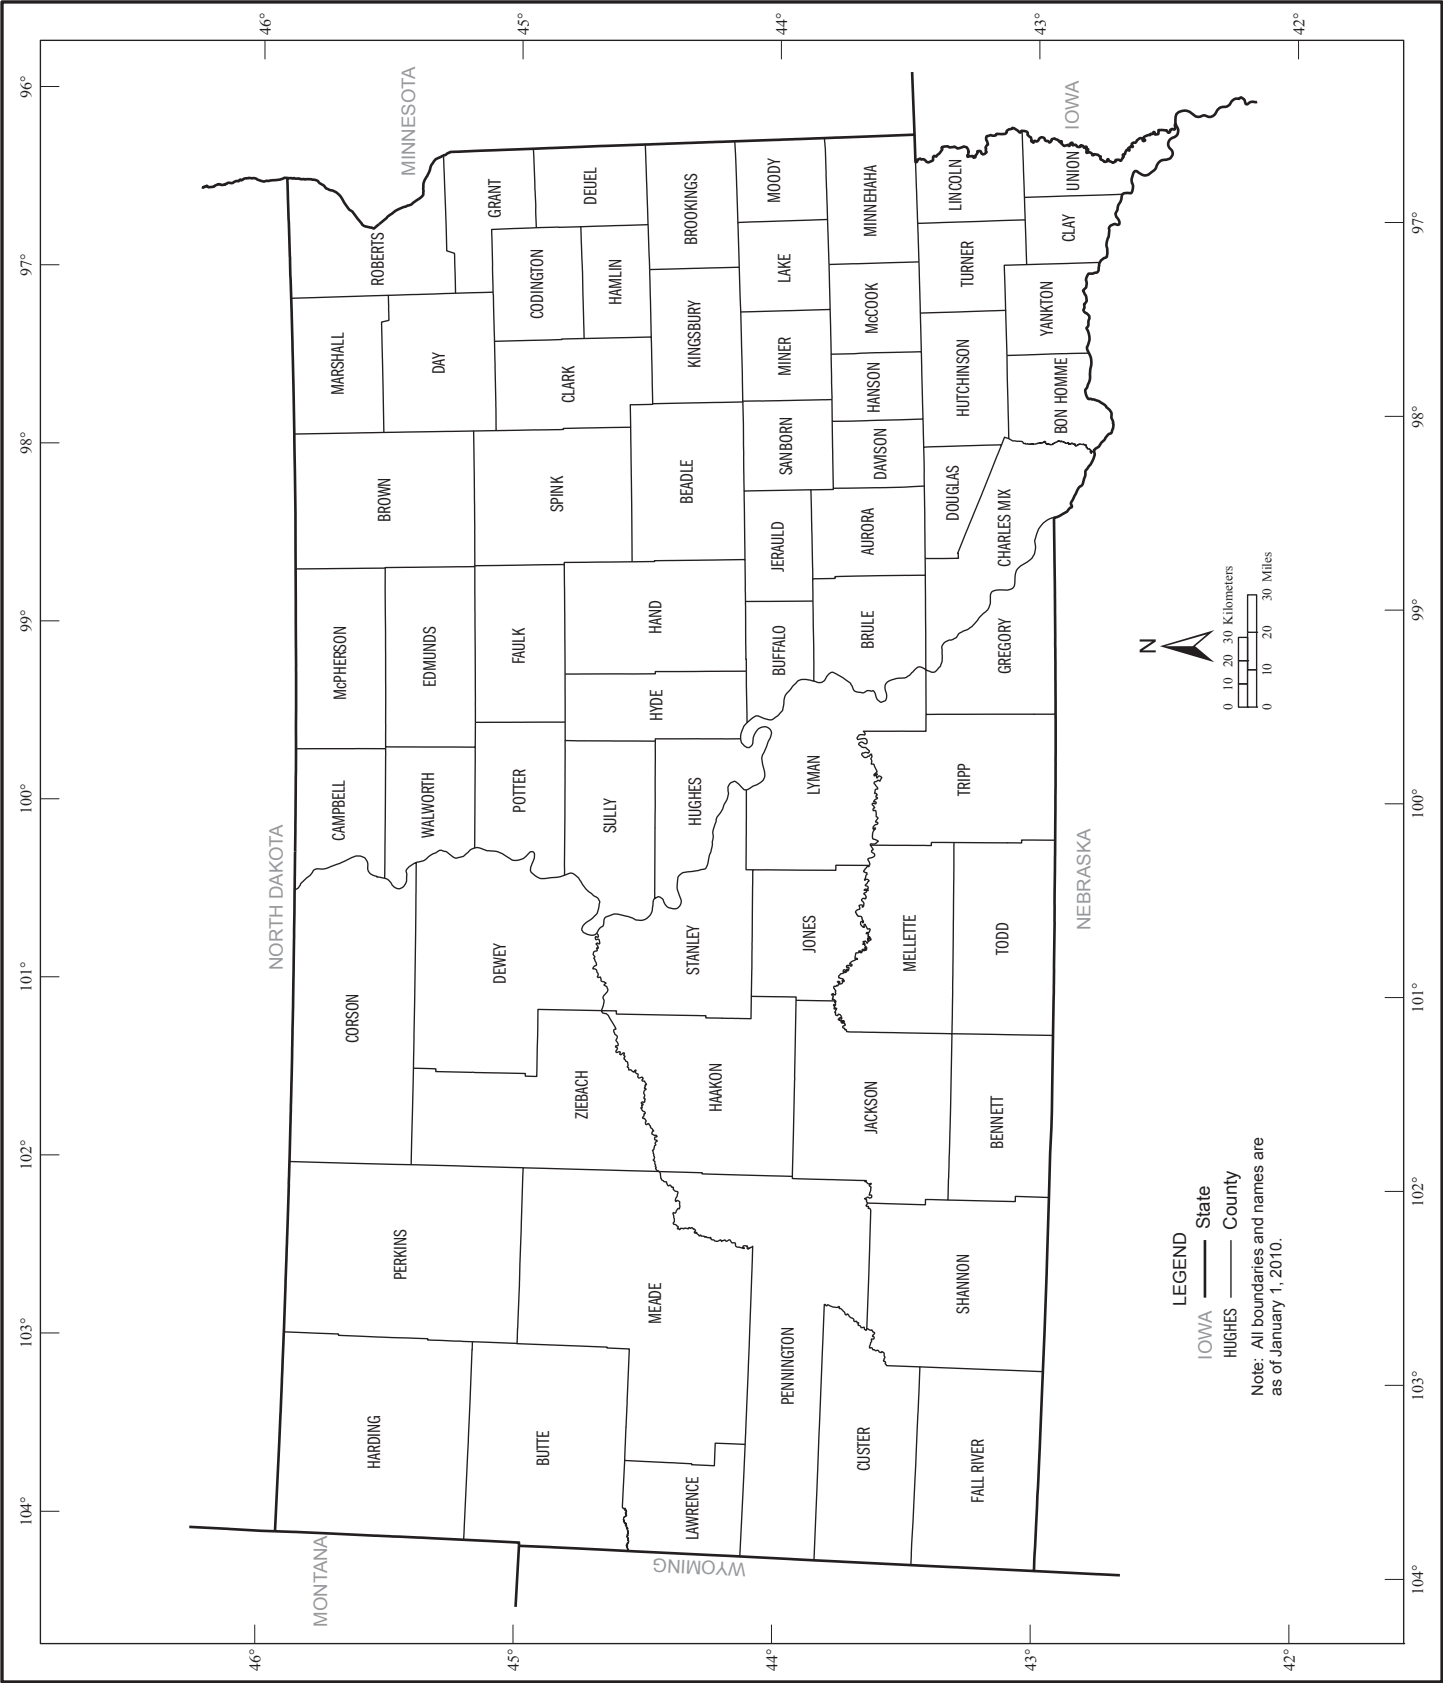

This Appendix section contains:

Appendix E. Maps

# Appendix E. Maps

## Counties

Geographic Areas Reference Map Legend

	<b>CAMPO</b>	American Indian Reservation (Federal) <sup>1</sup>		ROME	Incorporated Place <sup>2</sup>
	<b>ZIA</b>	Off-Reservation Trust Land		Zena	Census Designated Place
		State		<i>Lake Erie</i>	Large River, Lake, Water Body, or Shoreline
	<b>ERIE</b>	County		A fishhook joins contiguous and/or discontinuous parts of the same geographic entity.	
	<b>YORK</b>	County Subdivision <sup>2</sup>		<b>SEE INSET A</b>	Inset

<sup>1</sup> A '\*' following an American Indian area name indicates that tribal subdivisions are defined for that area. The tribal subdivision boundaries are displayed on the tribal subdivision map(s) immediately following the geographic areas reference maps.

<sup>2</sup> A 'o' following a place name indicates that the place is an independent place or independent city. An independent place is not part of any legal county subdivision and thus serves as the statistical equivalent of a legal county subdivision. An independent city is not part of any county or legal county subdivision and thus serves as both the statistical equivalent of a county and a legal county subdivision. The name for the county subdivision is always the same as that of the place and never shown separately on the map.

Note: All legal and statistical area boundaries and names are as of January 1, 2010. Where international, state, county, independent city, and/or county subdivision boundaries coincide, the map shows the boundary symbol for the highest level of these geographic entities. The county and independent city boundaries are always shown. Where a county subdivision boundary symbol coincides with a place boundary, the map does not show the place boundary symbol. Where American Indian Reservation (Federal), American Indian Reservation (State), State Designated Tribal Statistical Area, and/or Tribal Designated Statistical Area boundaries coincide with a county subdivision boundary, the map does not show the county subdivision boundary symbol. Any geographic entity name may include '(pt)' if some portion of the entity extends beyond the limits of the map area displayed on the page, or if multiple discontinuous pieces of the entity have been discretely labeled on the page. A geographic entity name may include '(pts)' if many discontinuous pieces exist for that entity that cannot be discretely labeled. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement.
